Man's Fate and God's Choice Bhimeswara Challa, 2021-06-29 Stagnate as a creepy caterpillar or transform into a beautiful butterfly this path breaking book of a rare genre suggests is the seminal choice before mankind and every one of us In this setting the book raises some fundamental questions What is man s rightful place in the cosmos and his manifest destiny on earth Why are we so self righteously self destructive Are we a doomed species Or divine beings struggling to overcome the hubris of the human intellect Is God getting weary of mankind How should we synergize human effort and Divine Grace The book posits that any betterment in human behavior needs a cathartic change at the deepest levels That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart To meet that

challenge we need minimum numbers a critical mass to create self sustained momentum for transformation through consciousness change And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species scale difference The book offers a menu of ideas and an agenda of action This book could be itself become an input to mobilize that very critical mass it advocates for human transformation Well planned and cohesively written the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author s understanding of the human predicament This is a closely argued and thought provoking book The Hindu 13 Sept 2011 This book is a gripping exposition on human nature and self transformation without preference to religion Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa s reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013 The End of Secularism Hunter Baker,2009-08-05 This ambitious work offers one of the most comprehensive attacks on secularism yet attempted Hunter Baker argues that advocates of secularism misunderstand the borders between science religion and politics and cannot solve the problem of religious difference University scholars have spent decades subjecting religion to critical scrutiny But what would happen if they turned their focus on secularism Hunter Baker seeks the answer to that question by putting secularism under the microscope and carefully examining its origins its context its claims and the viability of those claims The result of Baker s analysis is The End of Secularism He reveals that secularism fails as an instrument designed to create superior social harmony and political rationality to that which is available with theistic alternatives Baker also demonstrates that secularism is far from the best or only way to enjoy modernity s fruits of religious liberty free speech and democracy The End of Secularism declares the demise of secularism as a useful social construct and upholds the value of a public square that welcomes all comers religious and otherwise into the discussion The message of The End of Secularism is that the marketplace of ideas depends on open and honest discussion rather than on religious content or the lack thereof Toward a Catholic Theology of Nationality Dorian Llywelyn,2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is

inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn s wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values The Byzantine Republic Anthony Kaldellis,2015-02-02 Scholars have long claimed that the Eastern Roman Empire a Christian theocracy bore little resemblance to ancient Rome Here Anthony Kaldellis reconnects Byzantium to its Roman roots arguing that it was essentially a republic with power exercised on behalf of and sometimes by Greek speaking citizens who considered themselves fully Roman **Enlightenment and Secularism** Christopher Nadon,2013-04-18 Enlightenment and Secularism is a collection of twenty eight essays that seek to understand the connection between the European Enlightenment and the emergence of secular societies as well as the character or nature of those societies The contributors are drawn from a variety of disciplines including History Sociology Political Science and Literature Most of the essays focus on a single text from the Enlightenment borrowing or secularizing the format of a sermon on a text and are designed to be of particular use to those teaching and studying the history of the Enlightenment within a liberal arts curriculum **The Gospel According to Relativity** ,
