administrators to differentiate the features and technology changes from Windows NT 4.0 to Windows 2000. This will be one of the first Windows 2000 networking titles that will be tested against the actual shipping product versus the early books based on beta code and RC3. This allows the author to provide more accurate information based on real world deployment case studies. Readers will benefit from the author's expert discussions of topics including Installation Planning and Execution, TCP/IP Protocols, Domain Name Services, DNS, Active Directory, Managing Domains, Domain Host Configuration Protocol, DHCP, Windows Internet Name Service, WINS, Terminal Services, and Thin Clients, Internet Information Services, IIS.

E-business and Telecommunications Joaquim Filipe, Mohammad S. Obaidat, 2008-11-02. This book contains the best papers of the 4th International Conference on E-business and Telecommunications ICETE which was held during July 28-31, 2007 in Barcelona, Spain. The conference reflects a continuing effort to increase the dissemination of recent research results among professionals who work in the areas of e-business and telecommunications. ICETE is a joint international conference integrating four major areas of knowledge that are divided into four corresponding conferences: ICE B International Conference on e-Business, SECRIPT International Conference on Security and Cryptography, WINSYS International Conference on Wireless Information Systems, and SIGMAP International Conference on Signal Processing and Multimedia. The program of this joint conference included several outstanding keynote lectures presented by internationally renowned distinguished researchers who are experts in the various ICETE areas. Their keynote speeches contributed to the overall quality of the program and heightened the significance of the theme of the conference. The conference topic areas define a broad spectrum in the key areas of business and telecommunications. This wide view has made it appealing to a global audience of engineers, scientists, business practitioners, and policy experts. The papers accepted and presented at the conference demonstrated a number of new and innovative solutions for e-business and telecommunication networks and systems, showing that the technical problems in these fields are challenging, related, and significant.
