Walsh, Roger Bradbury, 2024-03-19 This book explores the ethics of national security intelligence institutions operating in contemporary liberal democracies Intelligence collection by agencies such as the CIA MI6 and Mossad involves practices that are apparently inconsistent with the principles of ordinary morality practices such as lying spying manipulation and covert action However in the defence of national security such practices may not only be morally permissible but may also under some circumstances be morally obligatory One approach to the ethics of national security intelligence activity has been to draw from the just war tradition so called just intelligence theory This book identifies significant limitations of this approach and offers a new institutionally based teleological normative framework In doing so it revises some familiar principles designed for application to kinetic wars such as necessity and proportionality and invokes some additional ones such as reciprocity and trust It goes on to explore the applications of this framework and a revised set of principles for national security intelligence institutions and practices in contemporary and emerging political and technological settings This book will be of much interest to students of intelligence studies ethics security studies and International Relations **Strategic**

Intelligence-Community Security Partnerships Maiwa'azi Dandaura-Samu, 2017-10-24 This book examines the need to bridge strategic intelligence and community collaboration It explores intelligence collection analysis and operations as they relate to conflicts that can be solved through community collaboration Its argument sits at the nexus of intelligence collection operations and academic research supporting the use of analytical frameworks process theories critical thinking and pragmatic approaches in intelligence data analysis to provide a seamless end product for effective decision making by policy makers business and military strategists The book insists that public opinion matters in the sense that leaders must shape it using collected intelligence and not wait for things to just happen For any intelligence community collaboration to succeed intelligence agencies must succeed in framing and setting public opinion The book also sheds light on competitive intelligence arguing that turbulent times and threatening environments necessitate that corporate organizations engage in competitive intelligence the same way security organizations and agencies constantly shift and change paradigms They must

be innovative create new labor practices and use self motivating management approaches and dynamic imaginative models to invent new strategic intelligence tactics and resolutions for optimal performance and productivity
