Wesely,2024-06-11 This book tells the stories of 15 world language WL teachers in the United States at elementary and secondary levels through rich descriptions of their lived worlds and experiences In depth interviews extensive observations learner interviews and document and environment analysis illustrate in detail how teacher beliefs relate to their practices and are mediated and moderated by their learners institutional demands equity and access to WL education and other factors The chapters provide a deep and robust explanation of individual teachers teaching lives and a cross contextual comparison of their experiences shining a light on the realities and demands of modern US schools Grounded in the research literature on language teacher beliefs and cognition this book takes the stance that all teaching is situated and contextual and that addressing teachers methods practices and knowledges in ways that are divorced from their setting and environment has serious limitations It offers fascinating insights for researchers language

**Transforming the Culture of Schools** Jerry Lipka,With Gerald V. Mohatt,Esther Ilutsik,2014-01-21 This book speaks directly to issues of equity and school transformation and shows how one indigenous minority teachers group engaged in a process of transforming schooling in their community Documented in one small locale far removed from mainstream America the personal narratives by Yup k Eskimo teachers address the very heart of school reform The teachers struggles portray the first in a series of steps through which a group of Yup k teachers and university colleagues began a slow process of reconciling cultural differences and conflict between the culture of the school and the culture of the community The story told in this book goes well beyond documenting individual narratives by providing examples and insights for others who are involved in creating culturally responsive education that fundamentally changes the role and relationship of teachers and community to schooling      Handbook of Artificial Intelligence in Education Benedict du Boulay,Antonija Mitrovic,Kalina Yacef,2023-01-20 Gathering insightful and stimulating contributions from leading global experts in Artificial Intelligence in Education AIED this comprehensive Handbook traces the development of AIED from its early foundations in the 1970s to the present day      **Research Bulletin** United States.
