Selected Dialogues Of Plato The Benjamin Jowett Translation:

Selected Dialogues of Plato Plato, Benjamin Jowett, 2000 Gathered here are many of Plato's liveliest and richest texts. Ion takes up the question of poetry and introduces the Socratic method. Protagoras discusses poetic interpretation and shows why cross examination is the best way to get at the truth. Phaedrus takes on the nature of rhetoric, psychology and love as does the famous Symposium. Finally Apology gives us Socrates' art of persuasion put to the ultimate test defending his own life.

The Selected Dialogues of Plato Philip Plato., 2000 A collection of Plato's dialogs addresses the importance of cross examination in the search for truth, the nature of rhetoric and love and the art of persuasion.

Universality and Translation Gavin Arnall, Katie Chenoweth, 2025-01-07 Within contemporary theory the concepts of translation and universality have frequently been associated with different and even opposed philosophical and political projects: watchwords of either domination or liberation, the erasure of difference or the defense of difference. The universalizing drives of capitalism, colonialism and other systems of oppression have precipitated widespread suspicion of any appeal to universality. This has led some in turn to champion the very notion of universality as antithetical to these systems of oppression. Similarly, recent scholarship has begun to grapple with the fundamental role of translation not only in forging inclusive democratic politics but also by contrast in violence including imperial expansion and global war. The present volume advocates neither for nor against translation or universality as such. Instead it attends to their insurmountable ambiguity and equivocity, the tensions and contradictions that are internal to both concepts and that exist between them. Indeed the wager of this volume is that translation, universality and their relationship name irreducible yet overlapping sites of struggle for a diverse array of struggles on the Left. Drawing from multiple intellectual traditions and orientations with a special emphasis on deconstruction and Marxism, this volume both reveals and participates in a subterranean current of thought committed to theorizing the dynamic plural and ultimately inextricable relationship between translation and universality. Its contributors approach this problem in ways that challenge and unsettle dominant trends within translation studies and critical and postcolonial theory, thereby opening new lines of inquiry within and beyond these fields.
