The Force of Culture Karen Finlay, 2004-12-15 A misunderstood and sometimes maligned figure Vincent Massey was one of Canada's most influential cultural policy makers and art patrons Best known as Canada's first native born Governor General he chaired the landmark Royal Commission on National Development in the Arts Letters and Sciences that led to the creation of the Canada Council *The Force of Culture* examines Massey's notion of culture its conflicted roots in late nineteenth century and early twentieth century Canadian Protestant thought and Massey's transformation into a champion of culture as a bastion of Canadian sovereignty Karen Finlay's study goes beyond existing literature by examining the role of Massey's Methodist upbringing in instilling an education gospel as the bedrock of culture and the foundation of a national citizenry The study also reassesses Massey's reputation as a supporter of the fine arts Steeped in Methodism his attitudes towards the arts were ambiguous He never adopted a purely art for art's sake doctrine but came to understand that the arts without being moralizing could serve a moral and cultural purpose the expression and affirmation of national character and sovereignty As well as charting Massey's evolving attitudes towards culture and the arts Finlay attempts to redress the common charges of sexism elitism and anglophonism levelled against him Finlay stresses Massey's contradictory views on issues relating to gender race and class outweighed by the ongoing legacy of his belief in Canadian cultural diversity Above all Massey valorized the principles of excellence and diversity as twin antidotes to the anathema of conformity and cultural homogenization The tenet Massey sought to honour pertaining deeply to the collective and moral nature of humanism in Canada Finlay argues was community without uniformity *The Force of Culture* shows that Massey was in certain respects a democratizer and even a populist who believed that difference need not divide Electronic Format Disclaimer Images removed at the request of the rights holder

Poets at Play Sarah Bay-Cheng, Barbara Cole, 2010-09-30 Beginning with Stevens's *Three Travelers Watch a Sunrise* 1916 as a dynamic introduction to the modernist transformation of poetry into performance the collection also includes Millay's biting anti war satire *Aria da Capo* 1920 and H D's *Hippolytus Temporizes* 1927 loosely adapted from the Euripides play Both plays demonstrate the Greek poets enduring legacy in modern poetic drama

The Pure Food, Drink, and Drug Crusaders, 1879-1914 Lorine Swainston Goodwin, 2015-08-01 Under a likeness of President Theodore Roosevelt in the Library of Congress a plaque lists the Pure Food and Drink Law of 1906 as one of the three landmark achievements of his administration Few authorities would disagree Designed to ensure the safety of foods drinks and drugs the law was one of the first pieces of social legislation enacted in the United States Among the most enthusiastic and persistent crusaders for the bill's passage were a wide array of women's groups many politically active for the first time Based in large part on primary sources this work examines the many groups involved in the passage of the Pure Food and Drink Law and how their work affected American society Part One examines the

origins of the movement and why women became so involved Part Two focuses on the primary groups involved in the law's passage such as the National Woman's Christian Temperance Union and the General Federation of Women's Clubs How it was that such diverse groups rallied around this issue is also explored The industrial and political opposition to the law and how the crusaders overcame it is covered in Part Three along with details on how the law's proponents were able to pressure the U S Congress into passing it and how they worked to see it fully implemented

Shakespeare Between the World Wars Robert Sawyer, 2019-02-06 Shakespeare Between the World Wars draws parallels between Shakespearean scholarship criticism and production from 1920 to 1940 and the chaotic years of the Interwar era The book begins with the scene in Hamlet where the Prince confronts his mother Gertrude Just as the closet scene can be read as a productive period bounded by devastation and determination on both sides Robert Sawyer shows that the years between the World Wars were equally positioned Examining performance and offering detailed textual analyses Sawyer considers the re-evaluation of Shakespeare in the Anglo American sphere after the First World War Instead of the dried barren earth depicted by T S Eliot and others in the 1920s and 1930s this book argues that the literary landscape resembled a paradoxically fertile wasteland for just below the arid plain of the time lay the seeds for artistic renewal and rejuvenation which would finally flourish in the later twentieth century

God & Money Charles McDaniel, 2007 God Money confronts the current dominant right wing Republican evangelical Christian view that unfettered market driven capitalism and Christian faith and values are compatible Drawing on such ethical luminaries as Reinhold Niebuhr G K Chesterton Peter Berger and John Paul II author Charles McDaniel shows that to reverse the current decline in public morality capitalism must be balanced by enduring religious and moral values Challenging the captivity of Christian culture by free market global capitalism McDaniel joins other Christian ethical visionaries in advocating a redemptive economy one that champions individual human dignity true community and the moral regeneration of cultural traditions in vital dialectic with the inevitable market capitalism of the contemporary world

Passions for Nature Rochelle Johnson, 2009 Nineteenth century Americans celebrated nature through many artistic forms including natural history writing landscape painting landscape design theory and transcendental philosophy Although we tend to associate these movements with the nation's dawning environmental consciousness Passions for Nature

demonstrates that they instead alienated Americans from the physical environment even as they seemed to draw people to it. Rather than see these expressions of passion for nature as initiating environmental awareness, this study reveals how they contributed to a culture that remains startlingly ignorant of the details of the material world. Using as a touchstone the writings of nineteenth-century philanthropist Susan Fenimore Cooper, the daughter of famed author James Fenimore Cooper, *Passions for Nature* reveals that while a generalized passion for nature was intense and widespread in her era, cultural attention to the real physical world was quite limited. Popular artistic forms represented the natural world through specific metaphors for the American experience, cultivating a national tradition of valuing nature in terms of humanity. Johnson crosses disciplinary boundaries to demonstrate that anthropocentric understandings of the natural world result not only from the growing gulf between science and imagination that C. P. Snow located in the early twentieth century but also and surprisingly from cultural productions traditionally viewed as positive engagements with the environment. By uncovering the roots of a cultural alienation from nature, *Passions for Nature* explains how the United States came to be a nation that simultaneously reveres the natural world and yet remains dangerously distant from it.
