Congress. Joint Economic Committee, 1986 **Looking West. The Rise of Asia in the Middle East** Valeria Talbot, Ugo Tramballi, 2020-09-09 As the world's economic and political centre of gravity moves increasingly towards East and South Asia we can expect a number of countries in these regions to devote more attention to the Middle East The relations between East and South Asia and the Middle East have significantly expanded as a result of the global rise of Asian economic powers particularly China India Japan and South Korea Not only oil but also trade investment infrastructure and tourism is the name of the business with the MENA region Beyond energy and economic interests questions arise about the potential geopolitical dimension of these evolving ties What are the strategic implications of the projection of Asian countries in an unstable fragmented and volatile region How do they interact with each other and with other international players Last but not least will the Covid 19 pandemic be a game changer in re shaping relations in the future Cultural Dimensions of India's Look-Act East Policy Sarita Dash, 2023-09-09 Tracing the cultural interactions between South and Southeast Asia since prehistoric times the book critically scrutinizes the current cultural diplomacy initiatives of India's Look Act East Policy Reminding the need to look at culture as a two way process and the need to re define the understanding of culture in its Space Age setting the author emphasizes on India realising its unique multicultural potentiality to broaden the outlook and parameters of cultural diplomacy to suit the unfolding World Order in the region The nature and composition of the demography of Southeast Asia and its Indian diaspora calls for a balanced approach in covering the land and maritime sectors the book further observes Adopting a peoples centric approach the author argues for cultural interactions to go beyond the union government and its agencies and advocates for the role of state governments non governmental actors and other community initiatives as well **A New Look at the Prophecies of Daniel** Steven

Ortlepp,2010-01-08 Daniel s Prophecies The Next Level Popular singer songwriter James Blunt encourages You ve got to ask yourself the question Where are you now This one can ask of the human race as a whole Following a completely different exegetical approach to the prophecies of Daniel this author attempts to answer this very question A definition of prophecy is history written in advance However an angel ordered Daniel to seal the book until the end time Many will rove about and the true knowledge will become abundant He added that no wicked one will understand but that the ones having insight will understand cf Dan 12 4 9 10 Wicked ones have no future in God s new earth so one ignores these prophecies at your peril cf Ps 37 38 Prov 2 21 22 2 Pet 3 13 This monograph concentrates on Dan 11 40 45 The new edition includes a Concise Messianic Timeline and a Quick Reference Guide for quick and easy reference **Looking East** Shirzad Azad,2020-05-01 Know yourself that s great advice but how do we get there In a lively conversation about the meaning of life three characters explore a wide range of concepts including friendship and love self discipline and self respect trust and justice **Iran and China** Shirzad Azad,2017-02-09 Because of their historical roles and politico economic significance in contemporary international politics Iran and China have perpetually been in the crosshairs of both policy circles and interested observers in almost every other part of the world Crucial interactions touching upon any aspect of Tehran Beijing ties from diplomatic and military links to economic and cultural connections have especially been in the limelight of such riveting inquisitiveness which has often given rise to a flurry of rash comments sensational claims and impetuous conclusions But a detached probe into critical developments involving Iran and China however elucidates this rather inconvenient eventuality that the relations between the two important countries are not essentially based on pivotal principles and clear cut commitments nor do their ties really rest on tenuous thoughts and flimsy foundations devoid of any common interests in short term or well conceived objectives in long run In the same way the two political systems in Tehran and Beijing may ultimately end up each contributing to a separate pole of power regionally and internationally rather than moving faithfully and steadfastly in lockstep with what it requires them to truly materialize their more recent aspiration and design to move toward achieving a very close strategic partnership *Power of Bonding and Non-Western Emerging Great Powers Engagement* Md. Nazmul Islam,2023-10-30 In international politics states often strive to maintain their position through either cooperation or force Soft power theory has emerged as a non violent approach for states to achieve national interest by utilizing intangible resources China and India have both successfully employed soft power strategies to expand their influence and Pakistan is a relevant case study for examining the soft power of China and India as it neighbors of both countries The withdrawal of the United States from Afghanistan has raised questions about how India and China will engage and cooperate in dealing with Pakistan as well as how they will fill the regional gap left by the US Nazmul Islam considers Joseph S Nye s Soft Power theory and develops a new idea of Power of Bonding based on non Western perspectives to examine India and China s soft power strategy on Pakistan Additionally it evaluates their areas of influence and soft power strategy in three thematic areas

political and diplomatic engagement cultural attributions and attraction for power bonding and economic partnerships To accomplish these objectives the study relies on various research methods including content analysis of articles published in Pakistan s Dawn newspaper and one on one interviews with participants from Pakistan India and China **China's Growth as a Regional Economic Power** U.S.-China Economic and Security Review Commission,2003 Contains testimony and prepared statements by various experts as well as remarks by members of the Commission Digest; Review of Reviews Incorporating Literary Digest ,1927 **Population in China** Nancy E. Riley,2016-12-16 China is home to a fifth of the worlds inhabitants For the last several decades this huge population has been in flux fertility has fallen sharply mortality has declined and massive rural to urban migration is taking place The state has played a direct role in these changes seeing population control as an important part of its intention to modernize the country In this insightful new work Nancy E Riley argues that Chinas population policies and outcomes are not simply imposed by the state onto an unresponsive citizenry but have arisen from the social organization of China over the past sixty years Riley demonstrates how Chinas population and population policy are intertwined and interact with other social and economic features Riley also examines the unintended consequences of state directives including the extraordinary number of missing girls the rapid aging of the population and an increase in inequality particularly between rural and urban residents Ultimately Chinas demographic story has to be understood as a complex multi pieced phenomenon This book will be essential reading for researchers and students of China and social demography as well as non specialists interested in the changing nature of Chinas population *Mainstreaming the Northeast in India's Look and Act East Policy* Atul Sarma,Saswati Choudhury,2017-11-16 This book provides a detailed account of the evolution of India s Look and Act East Policy addressing the nuances of the policy and its efficacy for the Northeast Region The Northeastern India as a region is landlocked sharing most of its boundary with neighbouring countries of South and South East Asia It empirically explores the progress in and prospects for trade investment and connectivity between Northeast India and Southeast Asian countries Further it discusses a range of regional and sub regional multilateral initiatives e g the Bay of Bengal Initiative for Multi Sectoral Technical and Economic Cooperation BIMSTEC Bangladesh China India Myanmar BCIM and Mekong Ganga Cooperation MGC that could potentially strengthen the cooperation between Northeast India and neighboring regions in the social cultural and economic spheres *Pratiyogita Darpan* ,2008-08 Pratiyogita Darpan monthly magazine is India s largest read General Knowledge and Current Affairs Magazine Pratiyogita Darpan English monthly magazine is known for quality content on General Knowledge and Current Affairs Topics ranging from national and international news issues personality development interviews of examination toppers articles write up on topics like career economy history public administration geography polity social environment scientific legal etc solved papers of various examinations Essay and debate contest Quiz and knowledge testing features are covered every month in this magazine *China's Foreign Aid and Investment Diplomacy, Volume III* John F. Copper,2016-04-29 Today by many

accounts China is the world's foremost purveyor of foreign aid and foreign investment to developing countries. This is the product of China's miracle economic growth over a period of more than three decades together with China's drive to become a major player in world affairs and accomplish this through economic rather than military means. This three volume work is the first comprehensive study of China's aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People's Republic of China in 1949. Volume III offers an analysis of China's foreign aid and investment to countries outside of Asia in Africa, Europe, the Middle East, Latin America and Oceania. Africa was and is the most important of these regions and it is given special treatment. In the concluding chapter Copper reviews the findings of previous volumes, delineates China's most important victories and setbacks and notes opposition to and criticism of China's aid and investment diplomacy. Copper gives evidence that will be shocking to some of the reality that China's financial help to developing countries is one of the most salient trends in international politics and constitutes a formidable challenge to the United States, Japan and Europe as well as international financial institutions.

China's Belt And Road: The Initiative And Its Financial Focus Xugang Yu, Cristiano Rizzi, Mario Tettamanti, Fabio Ziccardi, Li Guo, 2018-05-07
This book aims at illustrating the OBOR Initiative also known as Belt and Road Initiative or BRI its many facets including its background and how the Chinese government intends to develop this ambitious project. It describes in detail the role and involvement of Institutions lenders in particular in the OBOR Initiative. It offers guidance on how interested parties can participate in the different projects connected to the Initiative. The views of the authors on the main aspects of this Initiative serve as suggestions to parties interested in taking part in this Initiative. The book provides an exceptional amount of information about how projects connected to the BRI Initiative are financed and developed. The involvement of UBS clearly shows that financial institutions are interested in financing the Initiative. There is a special focus on the relationship between China and the EU because the scope of this Initiative is not only to boost trade relationships between the two regions but also create new opportunities for all the countries along the new Silk Road.
