Hitler's speech was a masterpiece of propaganda. He declared: "I can see no reason for the struggle. I can see no reason for the struggle. I can see no reason for the struggle."

Three days later the British foreign minister, Lord Halifax, made his reply to suggest that peace should not be given up. He said: "I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation."

On July 21st Goering told the various Air Corps under them to do the same. He said: "I am today particularly concerned about the situation. I am today particularly concerned about the situation. I am today particularly concerned about the situation."

On July 16th, three days before his Reichstag speech, he had issued his Directive No. 16, ordering "a landing operation against England to be prepared and, if necessary, carried out."

On July 31st, however, he declared at a conference at Obersalzburg with the Army C-in-C, von Brauchitsch, and his chief of general staff, Halder, that he wanted to attack Russia.

Despite this, the next day the Führer issued his Directive No. 17, permitting unrestricted air and sea operations against land as from August 5th. Hitler wished to study the effect

Targeting Civilians in War Alexander B. Downes,2011-05-15 Accidental harm to civilians in warfare often becomes an occasion for public outrage from citizens of both the victimized and the victimizing nation In this vitally important book on a topic of acute concern for anyone interested in military strategy international security or human rights Alexander B Downes reminds readers that democratic and authoritarian governments alike will sometimes deliberately kill large numbers of civilians as a matter of military strategy What leads governments to make such a choice Downes examines several historical cases British counterinsurgency tactics during the Boer War the starvation blockade used by the Allies against Germany in World War I Axis and Allied bombing campaigns in World War II and ethnic cleansing in the Palestine War He concludes that governments decide to target civilian populations for two main reasons desperation to reduce their own military casualties or avert defeat or a desire to seize and annex enemy territory When a state s military fortunes take a turn for the worse he finds civilians are more likely to be declared legitimate targets to coerce the enemy state to give up When territorial conquest and annexation are the aims of warfare the population of the disputed land is viewed as a threat and the aggressor state may target those civilians to remove them Democracies historically have proven especially likely to target civilians in desperate circumstances In *Targeting Civilians in War* Downes explores several major recent conflicts including the 1991 Persian Gulf War and the American led invasion of Iraq in 2003 Civilian casualties occurred in each campaign but they were not the aim of military action In these cases Downes maintains the achievement of quick and decisive victories against overmatched foes allowed democracies to win without abandoning their normative beliefs by intentionally targeting civilians Whether such restraint can be guaranteed in future conflicts against more powerful adversaries is however uncertain During times of war democratic societies suffer tension between norms of humane conduct and pressures to win at the lowest possible costs The painful lesson of *Targeting Civilians in War* is that when these two concerns clash the latter usually prevails **To Defeat**

the Few Douglas C. Dildy,Paul F. Crickmore,2020-07-09 This history based on an exhaustive study of German records explores The Battle of Britain through the eyes of the Luftwaffe Over the past 80 years histories of the Battle of Britain have consistently portrayed the feats of The Few as they were immortalized in Churchill s famous speech as being responsible for the RAF s victory in the epic battle However this is only part of the story The results of an air campaign cannot be measured in terms of territory captured cities occupied or armies defeated routed or annihilated Successful air campaigns are those that achieve their intended aims or stated objectives Victory in the Battle of Britain was determined by whether the Luftwaffe

achieved its objectives The Luftwaffe of course did not and this detailed and rigorous study explains why Analysing the battle in its entirety in the context of what it was history s first independent offensive counter air campaign against the world s first integrated air defence system Douglas C Dildy and Paul F Crickmore set out to re examine this remarkable conflict Presenting the events of the Battle of Britain in the context of the Luftwaffe s campaign and RAF Fighter Command s battles against it this title is a new and innovative history of the battle that kept alive the Allies chances of defeating Nazi Germany

Six Air Forces Over the Atlantic Col. Joseph T. Molyson, Jr. (RET),2024-04-16 The Battle of the Atlantic was the longest campaign of World War II lasting the entirety of the war in Europe from September 1939 to May 1945 It was also one of the war s most complex campaigns involving strategy operations tactics logistics politics diplomacy and alliances During the war s first two years the United States was drawn deeper into partnership with Great Britain and closer toward conflict with Germany in the waters of the North Atlantic Franklin Roosevelt realized this theater s importance I believe the outcome of this struggle is going to be decided in the Atlantic And so American British and Canadian forces battled Germans at sea and in the air to protect the flow of first materiel and then men from the United States to the United Kingdom The sea part has been well covered how German U boats and other warships hunted Allied convoys and how the Allies ultimately turned the tide Not so much the air war In Six Air Forces over the Atlantic Joseph Molyson tells the story of the Battle of the Atlantic from the perspective of the air forces and airmen who waged it from the skies above the icy waters of the North Atlantic He blends big picture attention to strategy and tactics with dramatic episodes of air to air and air to sea combat including the engagement in which a British light bomber captured a German U boat near Iceland He details the close eye Franklin Roosevelt kept on the campaign the effect B 24 Liberator bombers had and the rise of the Royal Air Force Coastal Command as a true U boat busting force The result was victory in the Atlantic as well as a significant contribution to victory in World War II
