Lying And Deception In Everyday Life:

Lying and Deception in Everyday Life Michael Lewis, Carolyn Saarni, 1993-02-05 I speak the truth not so much as I would but as much as I dare Montaigne All cruel people describe themselves as paragons of frankness Tennessee Williams Truth and deception like good and evil have long been viewed as diametrically opposed and unreconcilable Yet few people can honestly claim they never lie In fact deception is practiced habitually in day to day life from the polite compliment that doesn't accurately relay one's true feelings to self deception about one's own motivations What fuels the need for people to intricately construct lies and illusions about their own lives If deceptions are unconscious does it mean that we are not responsible for their consequences Why does self deception or the need for illusion make us feel uncomfortable Taking into account the sheer ubiquity and ordinariness of deception this interdisciplinary work moves away from the cut and dried notion of duplicity as evil and illuminates the ways in which deception can also be understood as a adaptive response to the demands of living with others The book articulates the boundaries between unethical and adaptive deception demonstrating how some lies serve socially approved goals while others provoke distrust and condemnation Throughout the volume focuses on the range of emotions from feelings of shame fear or envy to those of concern and compassion that motivate our desire to deceive ourselves and others Providing an interdisciplinary exploration of the widespread phenomenon of lying and deception this volume promotes a more fully integrated understanding of how people function in their everyday lives Case illustrations humor and wit concrete examples and even a mock television sitcom script bring the ideas to life for clinical practitioners behavioral scientists and philosophers and for students in these realms Lying and Deception in Everyday Life

Lewis/Saarni, 1993-06-23 Taking into account the sheer ubiquity and ordinariness of deception this interdisciplinary work moves away from the cut and dried notion of duplicity as evil and illuminates the ways in which deception can also be understood as a adaptive response to the demands of living with others The book articulates the boundaries between unethical and adaptive deception demonstrating how some lies serve socially approved goals while others provoke distrust and condemnation Throughout the volume focuses on the range of emotions from feelings of shame fear or envy to those of concern and compassion that motivate our desire to deceive ourselves and others Adman's Dilemma Paul Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth It was this moral condition and its consequences that made the adman so interesting to critics novelists and eventually filmmakers The biography tracks his saga from its origins in the exaggerated doings of P T Barnum the emergence of a new profession in the 1920s the heyday of the adman's influence during the post WW2 era the later rebranding of the adman as artist until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump In The Adman's

Dilemma author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity The book employs a range of fictional and nonfictional sources including memoirs novels movies TV shows websites and museum exhibits to suggest how the adman embodied some of the strange realities of modernity , Social Communication Klaus Fiedler,2011-03-15 The principal processes involved in language production and communication are explored in depth and their effects on all main social psychological phenomena revealed
