Tenant Farmhouse Hale County Alabama shows a painstakingly clean swept corner in the house of an Alabama sharecropper Taken in 1936 by Walker Evans as part of his work for the Farm Security Administration Kitchen Corner was not published until 1960 when it was included in a new edition of Walker Evans and James Agee s classic Let Us Now Praise Famous Men The 1960 reissue of Evans and Agee s book had an enormous impact on Americans perceptions of the Depression creating a memory image retrospectively through Walker s iconic photographs and Agee s text In this latest addition to the Afterall One Work series photographer Olivier Richon examines Kitchen Corner The photograph is particularly significant he argues because it uses a documentary form that privileges detachment calling attention to overlooked objects and to the architecture of the dispossessed Given today s growing economic inequality the photograph feels pointedly relevant The FSA established in 1935 commissioned photographers to document the impact of the Great Depression in America and used the photographs to advertise aid relief For four weeks in the summer of 1936 Evans collaborated with Agee on an article about cotton farmers in the American South The result of that project was the landmark publication Let Us Now Praise Famous Men documenting three sharecropper families and their environment These photographs were intimate respectful portraits of the farmers and of their homes furniture clothing and rented land Kitchen Corner powerfully evokes Agee s observations of the significance of bareness and space in these homes general odds and ends are set very plainly and squarely discrete from one another giving each object a full strength it would not otherwise have

Lyric Wonder James Biester,1997 James Biester sees the shift in late Elizabethan England toward a witty rough and obscure lyric style metaphysical wit and strong lines as a response to the heightened cultural prestige of wonder That same prestige was demonstrated in the search for strange artifacts and animals to display in the wonder cabinets of the period By embracing the genres of satire and epigram poets of the Elizabethan court risked their chances for political advancement exposing themselves to the danger of being classified either as malcontents or as jesters who lacked the gravitas required of those in power John Donne himself recognized both the risks and benefits of adopting the admirable style as Biester shows in his close readings of the First and Fourth Satyres Why did courtier poets adopt such a dangerous form of self representation The answer Biester maintains lies in an extraordinary confluence of developments in both poetics and the interpenetrating spheres of the culture at large which made the pursuit of wonder through style unusually attractive even necessary In a postfeudal but still aristocratic culture he says the ability to astound through language performed the validating function that was once supplied by the ability to fight Combining the insights of the new historicism with traditional literary scholarship Biester perceives the rise of metaphysical style as a social as well as aesthetic event
