## **Making Political Choices:**

Making Political Choices Harold D. Clarke, Allan Kornberg, Thomas J. Scotto, 2009-01-01 A timely and important contribution to voting literature Both Canadians and Americans will develop a better understanding of their neighbours elections but will also gain many new insights into the politics of their own country Larry LeDuc University of Toronto

The Origins of Political Choice Pasquale De Marco, 2025-07-10 The Origins of Political Choice explores the fundamental question of how and why people make political choices Drawing on a variety of disciplines including political science psychology economics and sociology this book provides a comprehensive overview of the factors that shape political choice The Origins of Political Choice begins by examining the role of personal beliefs and values in shaping political choices It then explores the impact of social and economic conditions on political choice as well as the role of political institutions The book concludes by discussing the implications of political choice for individuals societies and the world The Origins of Political Choice is an essential resource for anyone who wants to understand how political systems work how people make political decisions and the factors that influence political choice It is a valuable tool for students scholars and practitioners alike About the Author Pasquale De Marco is a political scientist who has written extensively on the topic of political choice Pasquale De Marco has taught at several universities and has served as a consultant to governments and international organizations If you like this book write a review

**Political Choice Matters** Geoffrey Evans, Nan Dirk Graaf, 2013-03-28 Studies of the influence of class and religion on politics often point to their gradual decline as a result of social change Backed up by extensive evidence from 11 case studies and a 15 country pooled analysis the editors argue instead that the supply of choices by parties influences the extent of class divisions political choice matters Ideology and the Theory of Political Choice Melvin J. Hinich, Michael C. Munger, 2010-08-27 There is no unified theory that can explain both voter choice and where choices come from Hinich and Munger fill that gap with their model of political communication based on ideology Rather than beginning with voters and diffuse atomistic preferences Hinich and Munger explore why large groups of voters share preference profiles why they consider themselves liberals or conservatives The reasons they argue lie in the twin problems of communication and commitment that politicians face Voters overloaded with information ignore specific platform positions Parties and candidates therefore communicate through simple statements of goals analogies and by invoking political symbols But politicians must also commit to pursuing the actions implied by these analogies and symbols Commitment requires that ideologies be used consistently particularly when it is not in the party's short run interest The model Hinich and Munger develop accounts for the choices of voters the goals of politicians and the interests of contributors It is an important addition to political science and essential reading for all in that discipline Hinich and Munger's study of ideology and the theory of political choice is a pioneering effort to integrate ideology into formal political theory It is a major step in directing attention toward the way in which ideology influences the nature of political choices Douglass C North

represents a significant contribution to the literature on elections voting behavior and social choice Policy Currents Melvin Hinich is Professor of Government University of Texas Michael C Munger is Associate Professor of Political Science University of North Carolina Religious Convictions and Political Choice Kent Greenawalt,1991 How far may Americans properly rely on their religious beliefs when they make and defend political decisions Are decisions based on religious convictions compatible with liberal democratic premises Kent Greenawalt dissects such issues as abortion and animal rights to illustrate secular and religious bases for decision making concluding that citizens cannot be expected to rely exclusively on rational secular grounds *Political Choice* Roland M Czada,Adrienne Windhoff-Heritier,2019-07-11 This book subtitled political actors in institutional settings addresses the main lines of reasoning of the new political institutionalism and rational choice theory It discusses the question Which particular rules logics or strategies of action can be found in the realm of politics **Political Choice in Britain** Harold D. Clarke,2004 Why do people vote as they do Indeed why do they vote at all What do they think about elections and democracy This book addresses these questions by focusing on the explanatory power of rival sociological and individual rationality models *Political Choice in a Polarized America* Joshua N. Zingher,2022 What motivates citizens to support one party over the other Do they carefully weigh all of the relevant issues and assess which party or candidate best matches their own positions Or do people look at politics as something more akin to a team sport the specifics do not matter as long as you know what side your team is on Answering these questions requires us to think about how much the average American knows about politics Many scholars of public opinion believe that the majority of Americans only pay passing attention to politics Thus the electorate s apparent lack of political competence presents a direct challenge to normative theories of democracy How are citizens supposed to exert control over the government if they have no idea what is going on In *Political Choice in a Polarized America* Joshua N Zingher argues that these fears are overblown Not only do individuals have core beliefs about what the government should or should not do but individuals have become more likely to support the party that best matches their policy attitudes by both identifying as a member of that party and voting for that party in elections However as Zingher demonstrates voters ability to match their attitudes to a party or candidate varies according to signals sent by elites and increases as parties become more polarized This is true even among citizens with less political knowledge and efficacy Voters now consistently cast ballots for the candidates who best match their own policy orientations and are increasingly likely to express hostility towards members of the other party due to growing elite polarization Moreover policy preferences tend to remain stable over time and both shape and are shaped by partisanship Tackling decades of mixed findings about the prevalence or lack of policy voting Zingher argues that the average American is much more likely to vote for the party that best represents their views than they were in the past American voters have adapted to a more polarized environment by becoming more polarized themselves **Anatomy of Political Choice** ARTUR VICTORIA,2025-06-08 The Anatomy of Political Choice investigates the fascinating and often

frustrating world of political decision making exploring the mechanisms through which laws policies and the allocation of resources are determined We examine the various actors involved in the process from elected officials and bureaucrats to lobbyists and the general public and analyse how their interactions shape the final outcomes We address the dynamics of negotiation compromise and conflict resolution recognising both the successes and failures of different approaches This analysis goes beyond the mechanics of decision making exploring the underlying power dynamics ideological differences and public opinion that influence decisions The analysis also considers the ethical implications of political choices emphasising the importance of accountability transparency and fairness By understanding the anatomy of political choice we can strive for a more informed fair and effective system of governance We will explore how these decisions are made the factors that influence them and the ultimate consequences for society In essence politics is a dynamic tension between conflict and co operation While conflict results from divergent ideologies competing interests and power struggles co operation is essential for achieving collective goals adopting effective policies and maintaining social order We analyse this inherent duality and provide a comprehensive framework for understanding how these seemingly opposing forces shape political outcomes We explore the sources of conflict the mechanisms of co operation and the impact of institutional design and social factors on both The book is designed to be both academically rigorous and accessible appealing to students researchers policy makers and informed citizens We hope that this analysis will enable readers to engage more critically with the complex political landscape and contribute to more effective policy processes

**The Oxford Handbook of Political Science** Robert E. Goodin, 2009-06-18 Drawing on the rich resources of the ten volume series of The Oxford Handbooks of Political Science this one volume distillation provides a comprehensive overview of all the main branches of contemporary political science political theory political institutions political behavior comparative politics international relations political economy law and politics public policy contextual political analysis and political methodology Sixty seven of the top political scientists worldwide survey recent developments in those fields and provide penetrating introductions to exciting new fields of study Following in the footsteps of the New Handbook of Political Science edited by Robert Goodin and Hans Dieter Klingemann a decade before this Oxford Handbook will become an indispensable guide to the scope and methods of political science as a whole It will serve as the reference book of record for political scientists and for those following their work for years to come

**Emotional Insight and Political Choices** Pasquale De Marco, 2025-05-17 In a world where politics often seems dominated by soundbites and slogans it is easy to overlook the profound influence emotions exert on our political beliefs attitudes and behaviors This book seeks to rectify this oversight by delving into the intricate relationship between emotion and political judgment Drawing upon cutting edge research in neuroscience physiology and experimental psychology this book unveils the delicate balance between habit and reason mediated by emotions that guides our political decision making It challenges traditional assumptions about the purely rational nature of political behavior and calls for a more nuanced

understanding that embraces the emotional side of human judgment Through a comprehensive examination of various political phenomena including party identification symbolic politics and negative campaigning this book reveals how emotions shape our perceptions of political candidates influence our attitudes toward public policies and motivate us to participate in political processes It explores the role emotions play in political communication examining how emotional appeals are employed to persuade voters and shape public opinion This book not only provides a comprehensive overview of the current state of research on emotion and political judgment but also offers a fresh perspective on the nature of political decision making It is essential reading for anyone seeking to understand the complex interplay between emotion and reason in the political arena This book is a groundbreaking exploration of the role emotions play in political judgment It offers a comprehensive overview of the current state of research on emotion and political behavior examining how emotions influence our political beliefs attitudes and behaviors The book challenges traditional assumptions about the purely rational nature of political decision making and calls for a more nuanced understanding that embraces the emotional side of human judgment If you like this book write a review on google books

**Oxford Handbook of Political Behavior** Russell J.

Dalton, Hans-Dieter Klingemann, 2007 Assembles the world's leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics *Elements of Reason*

Arthur Lupia, Mathew D. McCubbins, Samuel L. Popkin, 2000-10-09 Advances in the social sciences are used to uncover cognitive foundations of social decision making Putting Choice Before Democracy Emily Hauptmann, 1996-07-03 In this critique of rational choice theory Emily Hauptmann explores the idea central to the theory namely that democracy can best be explained in terms of an economic conception of choice Her argument turns on the claims that the choices we face as citizens are not reducible to the choices we face as consumers and that democracy cannot be reduced to a series of choices economic or otherwise **The Cambridge Handbook of Political Psychology** Danny Osborne, Chris G. Sibley, 2022-02-24

The Cambridge Handbook of Political Psychology provides a comprehensive review of the psychology of political behaviour from an international perspective Its coverage spans from foundational approaches to political psychology including the evolutionary personality and developmental roots of political attitudes to contemporary challenges to governance including populism hate speech conspiracy beliefs inequality climate change and cyberterrorism Each chapter features cutting edge research from internationally renowned scholars who offer their unique insights into how people think feel and act in different political contexts By taking a distinctively international approach this handbook highlights the nuances of political behaviour across cultures and geographical regions as well as the truisms of political psychology that transcend context Academics graduate students and practitioners alike as well as those generally interested in politics and human behaviour will benefit from this definitive overview of how people shape and are shaped by their political environment in a rapidly changing twenty first century *Austerity and Political Choice in Britain* H. Clarke, P. Kellner, M. Stewart, J. Twyman, P.

Whiteley,2016-04-29 This is a comprehensive study of the 2015 general election in Britain designed not only for students and scholars of British politics but also for the interested reader It looks at the record of the Coalition government both in terms of its plans and performance particularly in relation to the economy as the starting point for understanding what happened The authors go on to examine the campaign during the run up to polling day and to explain why people voted the way they did They also take a close look at the various constituency battlegrounds across the country showing how and why voting patterns varied across Britain Finally they discuss the implications of the election outcome for the future of the party system and British politics more generally This book provides important insights into an election which has permanently changed the political geography of Britain      **Democracy as the Political Empowerment of the Citizen** Majid Behrouzi,2005-01-01

This book along with its companion volume Democracy as the Political Empowerment of the People relates the democratic potential of the latest electronic technologies to the idea of direct participatory democracy Having clarified the original meaning of the idea of democracy this volume proceeds to develop a new theory of democracy Direct Deliberative e Democracy      **Political Discourse Analysis** Isabela Fairclough,Norman Fairclough,2013-06-17 In this accessible new textbook Isabela and Norman Fairclough present their innovative approach to analysing political discourse Political Discourse Analysis integrates analysis of arguments into critical discourse analysis and political discourse analysis The book is grounded in a view of politics in which deliberation decision and action are crucial concepts politics is about arriving cooperatively at decisions about what to do in the context of disagreement conflict of interests and values power inequalities uncertainty and risk The first half of the book introduces the authors new approach to the analysis and evaluation of practical arguments while the second half explores how it can be applied by looking at examples such as government reports parliamentary debates political speeches and online discussion forums on political issues Through the analysis of current events including a particular focus on the economic crisis and political responses to it the authors provide a systematic and rigorous analytical framework that can be adopted and used for students own research This exciting new text co written by bestselling author Norman Fairclough is essential reading for researchers upper undergraduate and postgraduate students of discourse analysis within English language linguistics communication studies politics and other social sciences      The Oxford Handbook of the American Presidency George C. Edwards,William G. Howell,2011-08-04 With engaging new contributions from major figures in the field The Oxford Handbook of the American Presidency provides the key point of reference for anyone working in American politics today      **Citizen Politics** Russell J. Dalton,2018-12-13 The book s combined focus on parties as institutions and systems alongside political attitudes and behaviors is why I use it I have yet to find another text that accomplishes this Meredith Conroy California State University San Bernardino Now more than ever people drive the democratic process What people think of their government and its leaders how or whether they vote and what they do or say about a host of political issues greatly affect the further strengthening or erosion of democracy and

democratic ideals This fully updated shorter Seventh Edition of Citizen Politics continues to offer the only truly comparative study of political attitudes and behavior in the United States Great Britain France and Germany In addition to its comprehensive thematic examination of political values political activity voting and public images of government within a cross national context the updated edition of this bestseller explores how cultural issues populism Trump and far right parties are reshaping politics in contemporary democracies All chapters have been updated with the latest research and empirical evidence Further Dalton includes recent research on citizens political behavior in USA Britain France and Germany as well as new evidence from national election studies in USA 2016 Britain 2017 France 2017 and Germany 2017
