Qualitative Research Margaret Anzul, Maryann Downing, Margot Ely, Ruth Vinz, 2003-12-16 This text is both about writing up qualitative research and is itself a qualitative study The written reflections of students on the writing process and the interpretations and presentations of their findings provide a base of data which the authors have in turn analyzed and incorporated into their text They have added accounts of their own experiences and those of their colleagues and other published authors All of these are woven into a theoretical framework that discusses them in detail **Emotionally**

and regions The volume includes an impressive variety of case studies offered by established leaders in the field and original and emerging scholarly talent covering areas in India Nepal Indonesia Iran Russia Rwanda and Germany as well as providing transnational or diasporic perspectives From the contradictory demands made on successful artists from the south in the global art world such as Anish Kapoor to images of war and puppetry created by female political prisoners the volume compels creative and political interpretations of the ever changing and globalizing terrain of arts and aesthetics

Shameless Arlene Stein,2006-07 Shame a powerful emotion leads individuals to feel vulnerable victimized rejected In *Shameless* noted scholar and writer Arlene Stein explores American culture s attitudes toward shame and sexuality Some say that we live in a world without shame But American culture is a curious mix of the shameless and the shamers a seemingly endless parade of Pamela Andersons and Jerry Falwells strutting their stuff and wagging their fingers With thoughtful analysis and wit *Shameless* analyzes these clashing visions of sexual morality While conservatives have brought back sexual shame by pushing for abstinence only sex education limitations on abortion and prohibitions of gay lesbian civil rights progressives hold out for sexual liberalization and a society beyond the closet As these two Americas compete with one another the future of family life the right to privacy and the very meaning of morality hang in the balance **Fields of Play**

Fate of Women During and Following Genocide Samuel Totten,2017-07-05 The plight and fate of female victims during the course of genocide is radically and profoundly different from their male counterparts Like males female victims suffer demonization ostracism discrimination and deprivation of their basic human rights They are often rounded up deported and killed But unlike most men women are subjected to rape gang rape and mass rape Such assaults and degradation can and often do result in horrible injuries to their reproductive systems and unwanted pregnancies This volume takes one stride towards assessing these grievances and argues against policies calculated to continue such indifference to great human suffering The horror and pain suffered by females does not end with the act of rape There is always the fear and reality of being infected with HIV AIDS Concomitantly there is the possibility of becoming pregnant Then there is the birth of the babies For some the very sight of the babies and children reminds mothers of the horrific violations they suffered When mothers harbor deep seated hatred or disdain for such children it results in more misery The hatred may be so great that children born of rape leave home early in order to fend for themselves on the street This seventh volume in the *Genocide*

series will provoke debate discussion reflection and ultimately action The issues presented include ongoing mass rape of girls and women during periods of war and genocide ostracism of female victims terrible psychological and physical wounds the plight of offspring resulting from rapes and the critical need for medical and psychological services Ethnography as Risky Business Kees Koonings,Dirk Kruijt,Dennis Rodgers,2019-04-26 Ethnography as Risky Business Field Research in Violent and Sensitive Contexts offers a hands on critical appraisal of how to approach ethnographic fieldwork on socio political conflict and collective violence focusing on the global south The volume s contributions are all based on extensive firsthand qualitative social science research conducted in sensitive and often hazardous field settings The contributors reflect on real life methodological problems as well as the ethical and personal challenges such as the protection of participants research data and the ethnographic self In particular the authors highlight how risky ethnography requires careful maneuvering before during and after fieldwork on the basis of a situated ethics yet also point to the rewards of such an endeavor If these methodological ethical and personal risks are managed adequately the yields in terms of generating a deep understanding of and critical engagement with conflict and violence may be substantial **German-Jewish Literature in the Wake of the Holocaust** P. Bos,2005-06-03 Combining cultural history and literary analysis this study proposes a new and thought provoking reading of the changing relationship between Germans and Jews following the Holocaust Two Holocaust survivors whose work became uniquely successful in the Germany of the 1980s and 1990s Grete Weil and Ruth Kluger emerge as exemplary in their contributions to a postwar German discussion about the Nazi legacy that had largely excluded living Jews While acknowledging that the German audience for the works of Holocaust survivors began to change in the 1980s this study disputes the common tendency to interpret this as a sign of greater willingness to confront the Holocaust arguing instead that it resulted from a continued German misreading of Jews criticisms By tracing the particular cultural political impact that Weil s and Kluger s works had on their German audience it investigates the paradox of Germany s confronting the Holocaust without necessarily confronting the Jews as Germans Furthermore for the authors this literature also had a psychological impact their return to the German language and to Germany is read not as an act of mourning or nostalgia but rather as a public call to Germans for a dialogue about the Nazi past as a way to move into the public realm the private emotional and psychological battles resulting from German Jews exclusion from and persecution by their own national community
