Making The Body Beautiful:

Making the Body Beautiful Sander L. Gilman, 1999 Nose reconstructions have been common in India for centuries South Korea Brazil and Israel have become international centers for procedures ranging from eyelid restructuring to buttock lifts and tummy tucks Argentina has the highest rate of silicone implants in the world Around the globe aesthetic surgery has become a cultural and medical fixture Sander Gilman seeks to explain why by presenting the first systematic world history and cultural theory of aesthetic surgery Touching on subjects as diverse as getting a nose job as a sweet sixteen birthday present and the removal of male breasts in seventh century Alexandria Gilman argues that aesthetic surgery has such universal appeal because it helps people to pass to be seen as a member of a group with which they want to or need to identify Gilman begins by addressing basic questions about the history of aesthetic surgery What surgical procedures have been performed Which are considered aesthetic and why Who are the patients What is the place of aesthetic surgery in modern culture He then turns his attention to that focus of countless human anxieties the nose Gilman discusses how people have reshaped their noses to repair the ravages of war and disease principally syphilis to match prevailing ideas of beauty and to avoid association with negative images of the Jew the Irish the Oriental or the Black He examines how we have used aesthetic surgery on almost every conceivable part of the body to try to pass as younger stronger thinner and more erotic Gilman also explores some of the extremes of surgery as personal transformation discussing transgender surgery adult circumcision and foreskin restoration the enhancement of dueling scars and even a performance artist who had herself altered to resemble the Mona Lisa The book draws on an extraordinary range of sources Gilman is as comfortable discussing Nietzsche Yeats and Darwin as he is grisly medical details Michael Jackson and Barbra Streisand's decision to keep her own nose The book contains dozens of arresting images of people before during and after surgery This is a profound provocative and engaging study of how humans have sought to change their lives by transforming their bodies **The Body Beautiful** Mrs. L. Dow Balliett, 1901 *The Body Beautiful* Nannette Magruder Pratt, 1902 **How to Make the Body** Jennifer Creech, Thomas O. Haakenson, 2022-05-05 How to Make the Body Difference Identity and Embodiment brings together contemporary and historical readings of the body exploring the insights and limits of established and emerging theories of difference identity and embodiment in a variety of German contexts The engaging contributions to this volume utilize and challenge cutting edge approaches to scholarship on the body by putting these approaches in direct conversation with canonical texts and objects as well as with lesser known yet provocative emerging forms To these ends the chapter authors investigate the body through detailed studies across a wide variety of disciplines and modes of expression from advertising aesthetics and pornography to social media scientific experimentation and transnational cultural forms Thus this volume showcases the ways in which the body as such cannot be taken for granted and surmises that the body continues to undergo constant and potentially disruptive diversification and transformation **Sexual Deceit** Kelby Harrison, 2013-03-14 Sexual

Deceit is an extended ethical analysis of the phenomenon of sexual identity passing i.e. socially presenting as X when one understands oneself as Y where the variables represent any contemporary sexual identity alongside identity passing in the contexts of race gender and briefly religion and class The analysis of passing utilizes and challenges traditional moral understandings of identity falsification complicating our understandings of moral obligations under systemic oppression Tracing the intervention of social construction theory on contemporary political understandings of LGBT communities and activism Sexual Deceit argues against social construction models of identity notably performativity promulgated by the work of Judith Butler and consumed and repeated by many scholars and theory educated queer people A new model of identity is constructed based on a phenomenological concept of style that provides for a socially adjustable yet rooted notion of sexual identity The ethical implications of sexual identity passing are considered in the context of eschatological images of social justice and within practical matters such as military service leadership and sexual harassment law

Beauty Bias Bonnie Berry, 2007-07-30 Society has always been fixated on looks and celebrities but how we look has deep ramifications for ordinary people too In this book Bonnie Berry explains how social inequality pertains to prejudice and discrimination against people based on their physical appearance This form of inequality overlaps with other better known forms of inequality such as those that result from sexism racism ageism and classism Social inequality regarding looks is notable in a number of settings work medical treatment romance and marriage to mention a few It is experienced as limitations on access to social power Berry discusses the pressures to be attractive and the methods by which we strive to alter our appearance through plastic surgery cosmetics and the like Berry also discusses cultural factors such as the manner in which globalization of media advertisements and movies have trended toward homogenization whereby we are all encouraged to appear tall thin white and with Northern European features even if we are none of those things She also analyzes the underlying social forces such as economic incentives that on the one hand channel us to be as physically acceptable as possible via the sale of diet pills and skin lighteners and on the other hand encourage us to accept ourselves as we are by selling us plus size clothing The book concludes with suggestions for equal rights extended to all regardless of appearance Here Berry describes budding social movements and grassroots endeavors toward an acceptance of looks diversity

Medicine and the Body Simon Williams, 2003-04-21 Taking recent debates on the body and society as its point of departure the book critically re-examines a series of embodied issues and emotional agendas in health and illness

Cultural Encyclopedia of the Body Victoria Pitts-Taylor, 2008-09-30 Pop culture and the media today are saturated with the focus on the aesthetics of the human body Magazines and infotainment shows speculate whether this or that actress had breast implants or a nose job Americans are not just focusing on celebrities but on themselves too and today have unprecedented opportunities to rework what nature gave them One can now drop in to have cosmetic surgery at the local mall Contemplating the superficial nature of it all grows tiresome and pop culture vultures and students can get a better fix for their fascination with the body beautiful through the

cultural insight provided in this amazing set Cultural Encyclopedia of the Body is a treasure trove of essays that explore the human body alphabetically by part detailing practices and beliefs from the past and present and from around the world that are sometimes mind blowing and eye popping Body parts are examined through a multifaceted cultural lens Readers will explore how the parts are understood what they mean to disparate societies how they are managed treated and transformed and how they are depicted and represented The entries draw from many disciplines that are concerned to some degree or another with human bodies including anthropology archeology sociology religion political history philosophy art history literary studies and medicine The encyclopedia proffers information on a number of cultures tribes and customs from East and West Ancient practices to the latest fad which in fact might continue ancient practices are illuminated Other considerations that arise in the essays include comparisons among cultures the changing perceptions of the body and issues of race gender religion community and belonging ethnicity power structures human rights

Violence and the Body Arturo J. Aldama, 2003-05-28 This title explores the relationship between subalternity the discourse and technology of the body and the rise and proliferation of racial colonial sexual domestic and state violence examining the materiality of violence on the otherized body

Making the American Body Jonathan Black, 2013-11-01 If you thought the fitness craze was about being healthy think again Although Charles Atlas Jack LaLanne Jim Fixx Jane Fonda Richard Simmons and Jillian Michaels might well point the way to a better body they have done so only if their brands brought in profits In the first book to tell the full story of the American obsession with fitness and how we got to where we are today Jonathan Black gives us a backstage look at an industry and the people that have left an indelible mark on the American body and the consciousness it houses Spanning the nation's fitness obsession from Atlas to Arnold from Spinning to Zumba and featuring an outrageous cast of characters bent on whipping us into shape while simultaneously shaping the way we view our bodies Black tells the story of an outsized but little examined aspect of our culture With insights drawn from more than fifty interviews and attention to key developments in bodybuilding aerobics equipment health clubs running sports medicine group exercise Pilates and yoga *Making the American Body* reveals how a focus on fitness has shaped not only our physiques but also and more profoundly American ideas of what fitness is

The Sociology of the Body Kate Cregan, 2006-04-18 This lucid and authoritative text Provides a critical evaluation of the work of Elias Aries Foucault Bourdieu Mary Douglas Kristeva Butler Haraway and Bordo Guides the reader through the inter disciplinary influence of these ideas Gives a clear and compelling analysis of the significance of the turn towards the body Helps to understand the complex way in which embodiment is formed across different social formations Clearly organized and powerfully expressed the book provides the best available guide to the turn to the body in the social sciences

In Our Prime Patricia Cohen, 2012-01-10 Now in paperback from New York Times reporter Patricia Cohen a lively well researched chronicle The New York Times Book Review of the concept of middle age from the nineteenth century to the present The director behind the Hollywood close up and the inventor of the midlife crisis

the doctors who promised to restore men's sexual vigor with monkey gland transplants and the neuroscientists mapping the middle aged brain the fashion designers and the feminists They are all part of the fascinating parade of businessmen entertainers scientists and hucksters who have shaped our understanding and experience of middle age Midlife has swung between serving as a symbol of power and influence and a metaphor for decline yet the invention and history of this vital period of life have never before been fully told Acclaimed New York Times reporter Patricia Cohen finally fills the gap with a book that provokes surprise outrage and delight In Our Prime takes readers from turn of the century factories that refused to hire middle aged men to high tech laboratories where researchers are unraveling the secrets of the middle aged mind and body She traces how midlife has been depicted in film television advertisements and literature Cohen exposes the myths of the midlife crisis and empty nest syndrome and investigates antiaging treatments such as human growth hormones estrogen Viagra Botox and plastic surgery Exhilarating and empowering In Our Prime will compel readers to reexamine a topic they think they already know

The Grace of Four Moons Pravina Shukla, 2015-10-16 Because clothing food and shelter are basic human needs they provide excellent entries to cultural values and individual aesthetics Everyone gets dressed every day but body art has not received the attention it deserves as the most common and universal of material expressions of culture The Grace of Four Moons aims to document the clothing decisions made by ordinary people in their everyday lives Based on fieldwork conducted primarily in the city of Banaras India Pravina Shukla conceptualizes and realizes a total model for the study of body art understood as all aesthetic modifications and supplementations to the body Shukla urges the study of the entire process of body art from the assembly of raw materials and the manufacture of objects through their sale and the interactions between merchants and consumers to the consumer's use of objects in creating personal decoration

Embodied Utopias Amy Bingaman, Lise Sanders, Rebecca Zorach, 2003-12-16 Utopia has become a dirty word in recent scholarship on modernism architecture urban planning and gender studies Many utopian designs now appear impractical manifesting an arrogant disregard for the lived experiences of the ordinary inhabitants who make daily use of global public and private spaces The essays in Embodied Utopias argue that the gendered body is the crux of the hopes and disappointments of modern urban and suburban utopias of the Americas Europe and Asia They reassess utopian projects masculinist feminist colonialist progressive of the late nineteenth and early twentieth centuries they survey the dystopian landscapes of the present and they gesture at the potential for an embodied approach to the urban future to the changing spaces of cities and virtual landscapes

The Aging Body in Dance Nanako Nakajima, Gabriele Brandstetter, 2017-01-06 What does it mean to be able to move The Aging Body in Dance brings together leading scholars and artists from a range of backgrounds to investigate cultural ideas of movement and beauty

expressiveness and agility Contributors focus on Euro American and Japanese attitudes towards aging and performance including studies of choreographers dancers and directors from Yvonne Rainer Martha Graham Anna Halprin and Roemeo Castellucci to Kazuo Ohno and Kikuo Tomoeda They draw a fascinating comparison between youth oriented Western cultures and dance cultures like Japan s where aging performers are celebrated as part of the country s living heritage The first cross cultural study of its kind The Aging Body in Dance offers a vital resource for scholars and practitioners interested in global dance cultures and their differing responses to the world s aging population

Surface Imaginations Rachel Alpha Johnston Hurst,2015-11-01 Versatile trendy and resilient the global cosmetic surgery industry shows no signs of decline especially with its promises not just of aesthetic improvement but of absolute transformation Introducing the concept of surface imagination Rachel Hurst discusses the fantasy that a change to the exterior will enhance the interior or that the outside is more significant because it fashions the inside Drawing on psychoanalysis feminist theory popular culture the history of medicine and interviews with women who have undergone cosmetic procedures Hurst explores the tensions between the two primary surfaces of cosmetic surgery the photograph and the skin The photograph an idealized surface for envisioning the effects of cosmetic surgery allows for speculation and retouching predictably and without pain The skin on the other hand is a recalcitrant surface that records the passage of time and heals unpredictably Ultimately Hurst argues the fantasy of surface imagination corroborates the belief that one s body is mutable and controllable and that control over one s body permits control over one s social emotional and mental suffering Acknowledging the varied experiences and opinions of the patients interviewed but also critiquing the promises made by the industry Surface Imaginations develops an innovative approach to thinking about cosmetic surgical transformations through the seduction of surfaces [forum for inter-american research Vol 4](#)

Medical care, humanitarianism and intimacy in the long Second World War, 1931-1953 Marie-Luce Desgrandchamps,Laure Humbert,Bertrand Taithe,Raphaële Balu,2025-07-29 This book explores underexamined sites of interactions and encounters between humanitarians and medical workers during the long Second World War 1931 1953 It traces circulations of humanitarian actors knowledge and practices across the world from a conflict to another In doing so it demonstrates that the conflict brought about unlikely aid coalitions and intimate networks of aid and led to a transformation of the relationships between some European organisations and colonial peripheries leading to the emergence of new activities and actors This book also interrogates the traditional dichotomy between civilian and military cultures of rehabilitation and readdresses the

role of the United States and its rise as a humanitarian superpower **Cosmetic Surgery** Cressida J. Heyes, 2016-05-13

Practices of cosmetic surgery have grown exponentially in recent years in both over developed and developing worlds What comprises cosmetic surgery has also changed with a plethora of new procedures and an extraordinary rise of non surgical operations As the practices of cosmetic surgery have multiplied and diversified so have feminist approaches to understanding them For the first time leading feminist scholars including Susan Bordo Kathy Davis Vivian Sobchack and Kathryn Pauly Morgan have been brought together in this comprehensive volume to reveal the complexity of feminist engagements with the phenomenon that still remains vastly more popular among women Offering a diversity of theoretical methodological and political approaches *Cosmetic Surgery A Feminist Primer* presents not only the latest cutting edge research in this field but a challenging and unique approach to the issue that will be of key interest to researchers across the social sciences and humanities
