Critique of Entrepreneurship Peter Armstrong,2005-05-11 The sponsorship of the entrepreneur as an agent of economic growth is now at the centre of a vast promotional industry involving politicians government departments and higher education This book examines the origins of this phenomenon and subjects its mythologies hero figures and policies to an empirically based critical examination *Diploma in Business - City of London College of Economics - 6 months - 100% online / self-paced* City of London College of Economics, Overview The diploma in business provides the core business knowledge and skills needed to move into management roles or become an entrepreneur and launch your own company Content The U S Business Environment Business Ethics and Social Responsibility Entrepreneurship New Ventures and Business Ownership The Global Context of Business Business Management Organizing the Business Operations Management and Quality Employee Behavior and Motivation Leadership and Decision Making Human Resource Management and Labor Relations Marketing Processes and Consumer Behavior Pricing Distribution and Promoting Products Information Technology for Business The Role of Accountants and Accounting Information Money and Banking Managing Finances Duration 6 months Assessment The assessment will take place on the basis of one assignment at the end of the course Tell us when you feel ready to take the exam and we ll send you the assignment questions Study material The study material will be provided in separate files by email download link **Rethinking Infrastructure in Latin America and the Caribbean** Marianne Fay,Luis Alberto Andres,Charles Fox,Ulf Narloch,Michael Slawson,2017-08-02 Latin America and the Caribbean LAC does not have the infrastructure it needs or deserves given its income Many argue that the solution is to spend more by contrast this report has one main message Latin America can dramatically narrow its infrastructure service gap by spending efficiently on the right things This report asks three questions what should LAC countries goals be How can these goals be achieved as cost effectively as possible And who should pay to reach these goals In doing so we drop the infrastructure gap notion favoring an approach built on identifying the service gap Benchmarking Latin America in this way reveals clear strengths and weaknesses Access to water and electricity is good with the potential for the region s electricity sector to drive competitive advantage by contrast transport and sanitation should be key focus areas for further development The report also identifies and analyses some of the emerging challenges for the region climate change increased demand and urbanization that will put increasing pressure on infrastructure and policy makers alike Improving the region s infrastructure performance in the context of tight fiscal space will require spending better on well identified priorities Unlike most infrastructure diagnostics this report argues that much of what is needed lies outside the infrastructure sector in the form of broader government issues from competition policy to budgeting rules that no longer solely focus on controlling cash

expenditures We also find that traditional recommendations continue to apply regarding independent well performing regulators and better corporate governance and highlight the critical importance of cost recovery where feasible and desirable as the basis for future commercial finance of infrastructure services Latin America has the means and potential to do better and it can do so by spending more efficiently on the right things *Introduction to Management* Colin

Management Ken R. Blawatt,2014-04-18 This managerial book goes beyond the traditional thoughts on this subject It brings you a challenging dimension Create an entrepreneurial organization and you will exceed in the realization of your goals and objectives The entrepreneurial organization thrives on developing innovation customer retention productivity and growth Your role and that of other managers has changed dramatically in the last decade because two powerful new forces have joined in the environment A new social awareness and demographic shift in the work force coupled with a shrinking of markets in a technological and global landscape demands new ways of planning organizing and directing organizations ESM argues the need for implementation as the force majeure in fulfilling strategic plans and the engagement of the whole organization in strategic management to achieve organizational goals Inside you ll be introduced to a new approach to understanding the economic marketplace in four quadrants or fields where each determines what strategic responses are

needed to thrive in those fields and which direction the organization is to go if it is to survive and grow This book lays out the cycle of corporate products and services from profitable innovation to decline and failure and offers the executive a road map to renovate and build the organization *Management Concepts And Strategies* J S Chandan,1997 Simple clear unambiguous well structured well grounded and authoritative this book covers the tools techniques and strategies used by effective managers Decentralized Development in Latin America Paul Lindert,Otto Verkoren,2010-03-02 Much of the scholarly and professional literature on development focuses either on the macro level of national policies and politics or on the micro level of development projects and household or community socio economic dynamics By contrast this collection pitches itself at the meso level with a comparative exploration of the ways in which local institutions municipalities local governments city authorities civil society networks and others have demanded and taken on a greater role in planning and managing development in the Latin American region The book s rich empirical studies reveal that local institutions have engaged upwards with central authorities to shape their policy and resource environments and in turn been pressured from below by local actors contesting the ways in which the structures and processes of local governance are framed The examples covered in this volume range from global cities such as Mexico and Santiago to remote rural areas of the Bolivian and Brazilian Amazon As a result the book provides a deep understanding of the diversity and complexity of local governance and local development in Latin America while avoiding the stereotyped claims about the impact of globalisation or the potential benefits of decentralisation as frequently stated in less empirically grounded analysis
