Making Whole What Has Been Smashed On Reparation Politics:

Making Whole what Has Been Smashed John Torpey, 2006 This book explores the recent spread of political efforts to rectify past injustices Although it recognizes that reparations campaigns may lead to improved well being of victims and to reconciliation among former antagonists it examines the extent to which concern with the past may depart from the future orientation of progressive politics

Restitution and the Politics of Repair Zolcos Magdalena Zolcos, 2020-09-21 Analyses the social imaginary of undoing repair and return underpinning the international norm of restitution making Approaches restitution not just as a legal norm of property return but as a social imaginary and a cultural psychoanalytic scene of undoing repair and return Brings together philosophic political socio legal and cultural psychoanalytic approaches to the study of restitution Outlines a heterogeneous and multifaceted idea of restitution emergent in modernity and looks at the peripheries of the modern restitutive tradition in the search for alternatives and counter traditions This book takes a unique approach grounded in political and cultural discourse to develop a political theory of restitution Challenging assumptions about restitution in the Western legal and political tradition where it has become nearly synonymous with reacquisition and where legal studies focus on material objects and claims to their ownership Zolcos argues that the development of restitutive norms has been auxiliary to the emergence of modern state sovereignty and excavates the restitutive tradition s mythical religious substrate Bringing together texts from within and outwith the Western canon of political theory and philosophy including the writings of Grotius Durkheim Freud and Klein as well as Mary Shelley s *Frankenstein* the book undertakes a dual task reading literary texts as a political theorising of restitution and reading political or sociological texts as literary narratives with distinctive restitutive tropes of repair undoing and return

The Politics of Reparations and Apologies Stephanie Wolfe, 2013-11-21 The Politics of Reparations and Apologies examines the evolution and dynamics of reparation politics and justice The volume introduces the key concepts theories and terms associated with social movements and in particular the redress and reparation movement RRM Drawing from RRM s that have their foundation in World War II the German genocides the United States internments and the Japanese comfort women system the volume explores each case study s relative success or failure in achieving its goals and argues that there are overarching trends that can explain success and failure more generally in the RRM movement Using the backdrop of international criminal law and normative concepts of reparations the volume establishes and analyzes the roles of reparations and apologies in obtaining transitional justice In each case study there is a detailed rundown of the political actions that were attempted to obtain redress and reparation for the victims of how successful the attempts were and of the crucial factors which influenced the relative success or failure Crucially the volume offers a comparative framework of the actions that contribute to a successful outcome for transitional justice With the increasing normative expectation of justice in post conflict situations this volume is a valuable resource for researchers in international affairs human rights political science and conflict studies

Victim Organisations and the

Politics of Reparation Heidy Rombouts, 2004 Reparation for victims of gross and systematic human rights violations is a contemporary issue gaining increased attention in both national and international politics Post conflict societies have to face the legacies of the dark past and dealing with a large group of victims is one of them Transitional justice mechanisms trying to cope with the past should not overlook the issue of reparation This research demonstrates how reparation for victims of gross and systematic human rights violations differs from reparation for isolated violations The Rwandan case study unveils the role of victim organisations in and the competition and politicisation of the reparation debate Although reparation for victims is a crucial element in transitional justice it becomes clear that the way in which the reparation debate unfolds does not necessarily contribute to the peaceful future of a post conflict society This study argues that remedying the process and debate of the search for reparation will lead to an improved and more constructive reparation policy Heidy Rombouts is a legal and social scientist 1997 Master of Laws 1999 Master in Social and Political Sciences Catholic University of Leuven In 2004 she obtained a PhD degree in Social and Political Sciences at the University of Antwerp for her research on victim organisations and the politics of reparation For several years she has been conducting research on transitional justice human rights and post conflict situations including extensive field research in South Africa and Rwanda *Reparations for Nazi Victims in Postwar Europe* Regula Ludi, 2012-08-27 A history of reparations from a comparative and transnational perspective tracing back to their origins in the final years of the Second World War *Reparations and War* Luke Moffett, 2023 For thousands of years reparations have been used to alleviate the devastating consequences of war More recently human rights law has established that victims have a right to reparations Yet in the face of conflicts that last for decades with millions of victims how feasible it is to deliver reparations And what are the obstacles **International Law as Constructive Resistance towards Peace and Justice** Makoto Seta, Yota Negishi, 2024-07-01 Professor Toshiki Mogami the featured figure of this memorial edition has developed his academic career in international law and politics Professor Mogami s original normative and analytical framework is characterized by himself as Jus Contra Anarchism et Oligarchism international law against interstate and institutionalised violence The editors extract the very essence of his teachings from Professor Mogami s masterpieces specifically *International Law as Constructive Resistance towards Peace and Justice* *The Routledge Companion to Race and Ethnicity* Stephen M. Caliendo, Charlton D. McIlwain, 2020-10-27 The second edition of *The Routledge Companion to Race and Ethnicity* offers readers a broad overview of scholarly exploration of the ways that humans have organized themselves and have been organized according to racial and ethnic divisions More than 80 scholars from around the world and representing multiple academic traditions contribute entries to this accessible yet sophisticated volume that addresses contemporary issues in historical context The first half of the book challenges readers to grapple with some of the most controversial aspects of categorization prejudice and discrimination through focused chapters ranging from the notion of Whiteness to the supposed biological rationale for racial categorization The second half is

comprised of 70 shorter entries on specialized concepts persons and groups that are crucial to understanding these issues Taken as a whole this volume provides a broad multi disciplinary and global overview of issues that continue to provide challenges to notions of equality and justice **The Routledge Companion to Race and Ethnicity** Charlton D.

McIlwain,2010-11-17 The Routledge Companion to Race and Ethnicity is a comprehensive guide to the increasingly relevant broad and ever changing terrain of studies surrounding race and ethnicity Comprising a series of essays and a critical dictionary of key names and terms written by respected scholars from a range of academic disciplines this book provides a thought provoking introduction to the field and covers The history and relationship between race and ethnicity The impact of colonialism and post colonialism Emerging concepts of whiteness Changing political and social implications of race Race and ethnicity as components of identity The interrelatedness and intersectionality of race and ethnicity with gender and sexual orientation Globalization media popular culture and their links with race and ethnicity Fully cross referenced throughout with suggestions for further reading and international examples this book is indispensable reading for all those studying issues of race and ethnicity across the humanities and social and political sciences **Race Rights Reparations** Fernne

Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination

Institutional racism needs to be understood as being located in the processes and procedures of societal institutions *The Case for Gay Reparations* Omar G. Encarnación,2021 This book makes the case for why the United States should embrace gay reparations or policies intended to make amends for a history of discrimination stigmatization and violence against the LGBT community It contends that gay reparations are a moral imperative for bringing dignity to those whose human rights have been violated because of their sexual orientation and or gender identity for closing painful histories of state sponsored victimization of LGBT people and for reminding future generations of past struggles for LGBT equality To make its case the book examines how other Western democracies notorious for their oppression of homosexuals have implemented gay

reparations specifically Spain Britain and Germany Their collective experience shows that although there is no universal approach to gay reparations it is never too late for countries to seek to right past wrongs Freedom and Democracy in an Imperial Context Robert Nichols, Jakeet Singh, 2014-03-26 Freedom and Democracy in an Imperial Context Dialogues with James Tully gathers leading thinkers from across the humanities and social sciences in a celebration of and critical engagement with the recent work of Canadian political philosopher James Tully Over the past thirty years James Tully has made key contributions to some of the most pressing questions of our time including interventions in the history of moral and political thought contemporary political philosophy democracy citizenship imperialism recognition and cultural diversity In 2008 he published Public Philosophy in a New Key a two volume work that promises to be one of the most influential and important statements of legal and political thought in recent history This work along with numerous other books and articles is foundational to a distinctive school of political thought influencing thinkers in fields as diverse as Anthropology History Indigenous Studies Law Philosophy and Political Science Critically engaging with James Tully's thought the essays in this volume take up what is his central and ever more pressing question how to enact democratic practices of freedom within and against historically sedimented and actually existing relationships of imperialism **The United Nations Principles to Combat Impunity** Frank Haldemann, Thomas Unger, Valentina Cadelo, 2018 Bringing together leading experts in the field this volume provides comprehensive academic commentary on the UN Principles to Combat Impunity The book features the text of each of the 38 Principles along with a full analysis detailed commentary and a guide to relevant literature and case law **Reparations to Africa** Rhoda E. Howard-Hassmann, 2018-04-13 What is the just measure of Western obligations to Africa As Africans and their supporters mark the 200th anniversary of the abolition of the slave trade in the United States and Great Britain the question becomes increasingly salient Calls for reparations for the evils of slavery as well as for past colonial and current economic and political abuses can be heard across Africa and the African diaspora Human rights scholar Rhoda E Howard Hassmann examines these calls for redress in Reparations to Africa Her study analyzes the reparations movement from the perspectives of law philosophy political science and sociology While acknowledging the brutal background of the slave trade and colonialism and the mistreatment of the peoples of Africa Howard Hassmann finds that the complexity of this history along with facts of the contemporary situation weakens the case for financial compensation although she does recommend acknowledgment of and apologies for some actions The book not only provides a bold reckoning of the root causes both internal and external of African underdevelopment and unrest but also suggests alternative means for restorative justice and examines the role that institutions such as the International Criminal Court can play By including the voices of 74 African academics diplomats and activists interviewed by Howard Hassmann and Anthony P Lombardo Reparations to Africa makes a valuable contribution to the reparations debate In an emotionally and politically charged postcolonial environment this book serves as a judicious guide to the search for economic justice for Africans today

and into the future **Asylum as Reparation** James Souter,2021-12-10 This book argues that states have a special obligation to offer asylum as a form of reparation to refugees for whose flight they are responsible It shows the great relevance of reparative justice and the importance of the causes of contemporary forced migration for our understanding of states responsibilities to refugees Part I explains how this view presents an alternative to the dominant humanitarian approach to asylum in political theory and some practice Part II outlines the conditions under which asylum should act as a form of reparation arguing that a state owes this form of asylum to refugees where it bears responsibility for the unjustified harms that they experience and where asylum is the most fitting form of reparation available Part III explores some of the ethical implications of this reparative approach to asylum for the workings of states asylum systems and the international politics of refugee protection Reconciliation, Civil Society, and the Politics of Memory Birgit Schwellung,2014-10-15 How did civil society function as a locus for reconciliation initiatives since the beginning of the 20th century The essays in this volume challenge the conventional understanding of reconciliation as a benign state driven process They explore how a range of civil society actors from Turkish intellectuals apologizing for the Armenian Genocide to religious organizations working towards the improvement of Franco German relations have confronted and coped with the past These studies offer a critical perspective on local and transnational reconciliation acts by questioning the extent to which speech became an alternative to silence remembrance to forgetting engagement to oblivion *Redress for Historical Injustices in the United States* Michael T. Martin,Marilyn Yaquinto,2007-07-16 A collection of seminal essays that examines the arguments in favor of the redress movement in the United States **Historical Justice and Memory** Klaus Neumann,Janna Thompson,2015-07-28 Historical Justice and Memory highlights the global movement for historical justice acknowledging and redressing historic wrongs as one of the most significant moral and social developments of our times Such historic wrongs include acts of genocide slavery systems of apartheid the systematic persecution of presumed enemies of the state colonialism and the oppression of or discrimination against ethnic or religious minorities The historical justice movement has inspired the spread of truth and reconciliation processes around the world and has pushed governments to make reparations and apologies for past wrongs It has changed the public understanding of justice and the role of memory In this book leading scholars in philosophy history political science and semiotics offer new essays that discuss and assess these momentous global developments They evaluate the strength and weaknesses of the movement its accomplishments and failings its philosophical assumptions and social preconditions and its prospects for the future **Legacies of Enslavement in the French Republic** Nicola Frith,2025-05-06 Legacies of Enslavement in the French Republic explores the complex dynamics between social movements invested in remembering and addressing the legacies of African enslavement and the French State Exploring 25 years of activism from the build up to the 150th anniversary of the Abolition Act 1998 through to the present day the book Investigates strategies used by the French State to delink the recognition of France s enslaving past

from contemporary issues with anti Black racism and reparation Asks why in the wake of the first Taubira law that recognized slavery as a crime against humanity 2001 the state has legitimized the work of certain activist groups while delegitimizing others Uses critical race theory and decolonial theory to examine the extent to which the State s approach to recognizing its past is structured by a colonial matrix of power Highlights and contests political and media misconceptions about reparations by showcasing the work of grassroots activists operating in France the Caribbean and the Indian Ocean In doing so Legacies of Enslavement showcases some of the key shifts that have taken place in the recent history of activist work operating in parallel with the successive metamorphoses of the French state as it responds to social and political pressure to recognize and repair the nation s enslaving past and its racial legacies today
