Male Trouble Mike Donaldson, Stephen Tomsen, 2003-01-01 Offers a full sampling of the best sociological research being conducted on masculinity in Australia and reflects the importance of feminist critical and queer analyses of gender and sexuality. The book rejects fixed notions of masculinity which can prevail in both men's movements and radical feminist positions. Men, Masculinities, and Earth Paul M. Pulé, Martin Hultman, 2021-08-03 This book considers issues of social and ecological significance through a masculinities lens. Earth, our home for aeons, is reeling. The atmosphere is heating up, causing reefs to bleach, fisheries to collapse, regions to flood and dry, vast tracts to burn, the polar ice caps to melt, ancient glaciers to retreat, biodiversity to decline, exacerbated by the sixth great extinction and more. Meanwhile, social and economic disparities are widening. Pandemics are cauterising global communities and altering our social mores. Nationalism is feeding divisiveness and hate, especially through men's violence. Politically extreme individuals and groups are exalting freedom while scapegoating the marginalised. Such are the symptoms of an emerging Anthropocene. This anthology contends with these alarming trends, pointing our attention towards their gendered origins. Building on our monograph *Ecological Masculinities: Theoretical Foundations and Practical Guidance* (2018), this collection of essays is framed as a dinner party conversation, grouped into six discursive themes. Their views reflect a growing community of practice whose combined efforts capture the most recent perspectives on masculine ecologisation. Together, they aim to help create a more caring world for all, moving the ecological masculinities conversation forward as it becomes an established international and pluralised field of study.

Masculinity Beyond the Metropolis J. Kenway, A. Kraack, A. Hickey-Moody, 2006-06-20 This book gives insights on youth masculinity and place by exploring spatially marginalized masculinities in stigmatized and romanticized out-of-the-way places in developed Western countries. It shows the impact of globalization on place and identity through global ethnographic studies and media representations of young men in peripheral places. Migrant Men Mike Donaldson, Raymond Hibbins, Richard Howson, Bob Pease, 2009-09-11 This edited volume contributes an important collection of chapters to the growing theoretical and empirical work being undertaken at the international level on men and migration. The chapters presented here focus on what we might call migratory masculinities: the experiences men have of masculinity upon immigration into another national, ethnic and cultural context. How do these men re-construct their conceptions of masculinity? Where are the points of tension, ambivalence or assimilation in this process? Featuring interviews and data drawn from migrants working and living in Australia, this book explores how the gender identity of men from non-English speaking backgrounds is influenced by the experiences of migration and settlement in an English speaking culture across various cultural spheres such as work, leisure, family life and religion. *White Boys, White Noise: Masculinities and 1980s Indie*

Guitar Rock Dr Matthew Bannister, 2013-01-28 To what extent do indie masculinities challenge the historical construction of rock music as patriarchal This key question is addressed by Matthew Bannister involving an in depth examination of indie guitar rock in the 1980s as the culturally and historically specific production of white men Through textual analysis of musical and critical discourses Bannister provides the first book length study of masculinity and ethnicity within the context of indie guitar music within US UK and New Zealand scenes Bannister argues that past theorisations of rock masculinities have tended to set up varieties of working class deviance and physical machismo as straw men oversimplifying masculinities as men behaving badly Such approaches disavow the ways that masculine power is articulated in culture not only through representation but also intellectual and theoretical discourse By re situating indie in a historical cultural context of art rock he shows how masculine power can be rearticulated through high avant garde bohemian culture and aesthetic theory canonism negation Adorno passivity voyeurism and camp Andy Warhol and the Velvet Underground and primitivism and infantilism Lester Bangs Simon Reynolds In a related vein he also assesses the impact of Freud on cultural theory arguing that reversing binary conceptions of gender by associating masculinities with an essentialised passive femininity perpetuates patriarchal dualism Drawing on his own experience as an indie musician Bannister surveys a range of indie artists including The Smiths The Jesus and Mary Chain My Bloody Valentine and The Go Betweens from the US R E M The Replacements Dinosaur Jr Hsker D Nirvana and hardcore and from NZ Flying Nun acts including The Chills The Clean the Verlaines Chris Knox Bailter Space and The Bats demonstrating broad continuities between these apparently disparate scenes in terms of gender aesthetic theory and approaches to popular musical history The result is a book which raises some important questions about how gender is studied in popular culture and the degree to which alternative cultures can critique dominant representations of gender

Femininities and Masculinities in the Digital Age Karl Kaser, 2021-08-31 This book provides a fresh overview on the debate about the remarkable regression of gender equality in the Balkans and South Caucasus caused by the fall of socialism and by the revitalization of religion in

Turkey Contrary to the prevailing opinion of researchers who state continuous male domination the book presents strong arguments for an alternative outlook By contrasting the realia of gender relations with the utopia of new femininities and new masculinities driven by digital visual communication the book provokingly concludes with the arrival of two utopias the Marlboro Man still authoritative but lonely conquering and refusing family obligations and with the emergence of a new femininity type strong and beautiful As such this book provides a great resource to anthropologists demographers sociologists gender and media researchers and all those interested in feminist issues

Young Migrant Identities Sherene Idriss, 2017-07-28 In this day and age much has been discussed as to what it means to be an Arab However this enlightening volume seeks instead to invite us deeper into young Arab Australian men's lives as we explore their vocational aspirations and working experiences within highly racialised and hierarchical industries Young Migrant Identities is an in depth exploration into the lives of Arab Australian young men living in Western Sydney with creative career aspirations Indeed not only does Idriss explore how these men develop interests in fields such as music filmmaking and design but she also examines the multilinear routes that they take to turn these interests into vocational identities However in the local migrant communities in which these young men live creative identities are seen to compromise individual and familial prospects for social mobility and artistic interests tend to go unsupported Thus this book also strives to offer new insights about how notions of gender ethnicity and social class are experienced because of these young men's risky career ambitions A timely volume Young Migrant Identities draws together a range of theoretical issues and debates engaging with sociological approaches to race and social class creative and cultural economies and studies on youth It will particularly appeal to post graduate students and post doctoral researchers interested in fields such as Youth Studies Ethnicity Studies Cultural Economy and Migration Studies

Masculinity and New War David Durie, 2016-11-03 This book advances the claims of feminist international relations scholars that the social construction of masculinities is key to resolving the scourges of militarism sexual violence and international insecurity More than two decades of feminist research has charted the dynamic relationship between warfare and masculinity but there has yet to be a

detailed account of the role of masculinity in structuring the range of volatile civil conflicts which emerged in the Global South after the end of the Cold War By bridging feminist scholarship on international relations with the scholarship of masculinities Durie Smith advances both bodies of scholarship through detailed case study analysis By challenging the concept of new war he suggests that a new model for understanding the gendered dynamics of civil conflict is needed and proposes that the power dynamics between groups of men based on age difference ethnicity location and class form an important and often overlooked causal component to these civil conflicts Exploring the role of masculinities through two case studies the civil war in Sierra Leone 1991 2002 and the Second Sudanese Civil War 1983 2005 this book will be of great interest to postgraduate students practitioners and academics working in the fields of gender and security studies
