Man And Mind Collected Papers Of Jeanne Lampl De Groot:

Man and Mind Jeanne Lampl-de Groot, 1985 The Letters of Sigmund Freud to Jeanne Lampl-de Groot, 1921-1939
Gertie Bögels, 2022-08-24 Freud wrote 76 letters to the Dutch psychoanalyst Jeanne Lampl de Groot between 1921 and 1939. These letters are personable, lively, and compassionate and convey his respect and caring for Jeanne who was his patient, pupil, and eventually his esteemed professional colleague. The letters are sociohistorical documents that contain Freud's thoughts about pertinent issues in psychoanalysis and the interwar sociopolitical situation in Vienna and Germany. Jeanne Lampl de Groot was an internationally known psychoanalyst who published extensively on psychoanalytic theory and practice. She regularly wrote long letters to Freud when residing outside of Vienna, seeking his advice on personal and professional matters and discussing with him her evolving ideas about psychoanalysis, including her disagreement with Freud about female sexual development. It is unfortunate that Jeanne had her letters to Freud destroyed because it sometimes makes Freud's somewhat elliptical responses difficult to place in context. For example, it is quite probable that she wrote detailed descriptions of her husband's emotional issues which Freud then merely alluded to. Because we don't know the specifics of what she wrote, his responses remain ambiguous and therefore problematic to translate. Nonetheless, Freud's responses do reveal a great deal about Jeanne and her passion for psychoanalysis. The book also includes several of her letters to her parents, which allows the reader to get to know Jeanne's intelligent, thoughtful voice, her thoughts about the evolving science of psychoanalysis, her experience during her psychoanalysis with Freud, and her concerns about the rise of anti-Semitism in Austria and Germany. This book introduces to its readers a very personable Freud and provides insight into his thoughts about the development of critical psychoanalytic concepts such as the death drive, masochism, and lay analysis, and his changing views on the length of a psychoanalysis. We also hear about historical events in the 1920s and 1930s as we witness Freud and Lampl de Groot move through their personal and professional lives with dignity and perseverance. *Female Psychology*
Eleanor Schuker, Nadine A. Levinson, 2020-09-23 This book provides a psychoanalytic perspective on female psychology and includes articles with divergent theoretical viewpoints. It is useful for both research and clinical study and may also provide a bridge to scholars, teachers, and clinicians outside of psychoanalysis itself. **Current Catalog** National Library of Medicine (U.S.), First multi-year cumulation covers six years 1965-70 **Unconscious Mental Life and Reality** Richard Ekins, 2018-05-08 It shows the present collection of seminal essays to offer a balanced yet rigorous examination of the durability and contemporary relevance of psychoanalysis understood as a comprehensive system of theory and technique. The contributors eschew the establishment of yet another school of Freudian thought, not wishing to add to the already confusing array of competing and conflicting perspectives. Each essay seeks to underscore, refine, and add to the perceived strength, richness, and flexibility of early psychoanalytic thought. A broad range of psychoanalytic concerns are addressed: the unconscious mind and brain, mind and body, affect, cognition, and character. Each topic is surveyed in a spirit of thoughtful and

judicious consolidation Open and well informed a sure course is taken between the opposing dangers of dogma and fragmentation Insisting upon a well grounded appreciation of the origins and historical unfolding of psychoanalysis and remaining close to both clinical observations and theoretical developments the present volume looks forward to the continuing fertility and pertinence of psychoanalytical exploration
