Officer And Man Louis Becke, 2022-09-16 In Louis Becke's *Officer And Man* readers are transported to the South Pacific where the tale unfolds against a backdrop of colonialism, culture clashes and personal relationships. The book's literary style blends vivid descriptions of the tropical setting with a deep exploration of human emotions and moral dilemmas, making it a timeless piece of Pacific literature. Becke's attention to detail and character development provides a rich tapestry for readers to immerse themselves in as they navigate the complexities of love, loyalty and duty in a foreign land. Set in the late 19th century, *Officer And Man* captures the essence of the era while shedding light on universal themes that resonate with readers today. Louis Becke, a former sailor who lived and worked in the Pacific islands, draws on his own experiences to create a compelling narrative filled with authenticity and insight. His firsthand knowledge of the region adds depth and credibility to the story, making it a valuable contribution to the literary canon. I highly recommend *Officer And Man* to anyone interested in exploring the complexities of human nature, colonial history and cultural exchange through the lens of a masterful storyteller.

Literature in Society Regina Rudaitytė, 2012-12-05 The essays in this volume focus on the text-world dichotomy that has been a pivotal problem since Plato implicating notions of mimesis and representation and raising a series of debatable issues: Do literary texts relate only to the fictional world and not to the real one? Do they not only describe but also perform and thus create and transform reality? Is literature a mere reflection, expression of society, a field and a tool of political manipulations, a playground to exercise ideological and social power? Herbert Grabes's seminal essay *Literature in Society: Society and Its Literature* which opens this volume perfectly captures the essential functions of literature in society, whether it be Derridean belief in a revolutionary potential of literature, the power of literature to say everything, or Hillis Miller's view of literature having the potential to create or reveal alternative realities, or according to Grabes, the ability of literature to offer to society a possibility of self-reflection by way of presenting a double of what is held to be reality, and last but not least, the ability of literature to considerably contribute to the joy of life by enabling a particular kind of pleasure: the pleasure of reading literature. The subsequent essays collected in this volume deal with complex relations between Literature and Society, approaching this issue from different angles and in various historical epochs. They are on diverse thematics and written from diverse theoretical perspectives, differing in scope and methodology.
