Dhawan, 2019-03-21 This book is an outcome of the keynote lead papers presented by the experts from different disciplines in the Indian Ecological Society International Conference 2016 on Natural Resource Management Ecological Perspectives organized at the Sher e Kashmir University of Agricultural Sciences and Technology of Jammu India The book captures the essence of natural resource management from the intra and interdisciplinary perspectives of agricultural sciences entomology plant pathology plant breeding and genetics agronomy and soil sciences social sciences resource economics agricultural extension education medical sciences and environmental sciences to stimulate discussion on the ecological perspectives of natural resource management Wide ranging topics on land and water resources biodiversity integrated farming system role of microbes in agriculture climate change and its impact on human health and crop pests exploiting chemical ecology for pest management human disease causing pesticides beneficial insects like lac insects integrated pest management resistance management in insect pests and Bt cotton and diffusion and adoption of ecologically sustainable technologies at individual and organizational level are covered in the book The book will serve the professionals researchers academia government industry and students

Agricultural development: New perspectives in a changing world Otsuka, Keijiro, ed., Fan, Shenggen, ed., 2021-01-14 Agricultural Development New Perspectives in a Changing World is the first comprehensive exploration of key emerging issues facing developing country agriculture today from rapid urbanization to rural transformation to climate change In this four part volume top experts offer the latest research in the field of agricultural development Using new lenses

to examine today's biggest challenges contributors address topics such as nutrition and health gender and household decision making agrifood value chains natural resource management and political economy The book also covers most developing regions providing a critical global perspective at a time when many pressing challenges extend beyond national borders Tying all this together Agricultural Development explores policy options and strategies for developing sustainable agriculture and reducing food insecurity and malnutrition The changing global landscape combined with new and better data technologies and understanding means that agriculture can and must contribute to a wider range of development outcomes than ever before including reducing poverty ensuring adequate nutrition creating strong food value chains improving environmental sustainability and promoting gender equity and equality Agricultural Development New Perspectives in a Changing World with its unprecedented breadth and scope will be an indispensable resource for the next generation of policymakers researchers and students dedicated to improving agriculture for global wellbeing *Global Perspectives on Gender and Space* Ann Oberhauser, Ibipo Johnston-Anumonwo, 2014-03-21 Feminism has re-shaped the way we think about equality power relations and social change Recent feminist scholarship has provided new theoretical frameworks methodologies and empirical analyses of how gender and feminism are situated within the development process *Global Perspectives on Gender and Space* Engaging Feminism and Development draws upon this framework to explore the effects of globalization on development in diverse geographical contexts It explores how women's and men's lives are gendered in specific spaces as well as across multiple landscapes Traveling from South Asia to sub-Saharan Africa to North America and the Caribbean the contributions illustrate the link between gender and global development including economic livelihoods policy measures and environmental change Divided into three sections *Global Perspectives on Gender and Space* showcases the following issues One the impact of neoliberal policies on transnational migration public services and microfinance programs Two feminist and participatory methodologies employed in the evaluation of land use women's cooperatives and liberation struggles and Three gendered approaches to climate change natural disasters and conservation the global South A feminist lens is the common thread throughout these sections that weaves gender into the very fabric of everyday life providing a common link between varied spaces around the globe by mapping gendered patterns of power and social change This timely volume provides geographic comparisons and case studies to give empirically informed insights on processes and practices relevant to feminism and development It illustrates ways to empower individuals and communities through transnational struggles and grassroots organizations while emphasizing human rights and gender equity and will be of interest to those studying Geography Development Studies International Relations and Gender Studies *Sociological Perspectives of Organic Agriculture* Georgina Holt, Matthew Reed, 2006-01-01 Bringing together articles by leading researchers this book takes a fresh look at understanding the dynamics of the organic agricultural sector in Europe Australia South America and the US The authors draw theory from a range of social sciences to demonstrate that the complexity of

organic agriculture is closely connected to nature society and economy The book depicts organic agriculture as an engine of growth for the organic sector and examines the important roles played by producers and other parts of the supply chain such as consumers and certification standards Agricultural Ethics in East Asian Perspective Paul B. Thompson, Kirill O. Thompson, 2018-07-24 This book brings together agricultural ethics scholars from the US Japan and Taiwan to discuss crucial issues in agricultural ethics and sustainability ethics in comparative context Agricultural ethics and sustainability ethics are wide ranging and closely linked to environmental ethics bioethics virtue ethics animal welfare soil conservation not to mention rural traditions and lifestyles Six of the chapters cover historical traditions and values in Europe the US and East Asia Four of the chapters cover the role of virtue ethics in the analysis of agrarian and environmental ethics agricultural biotechnology food ethics and alternative agriculture respectively Finally two of the chapters cover field efforts of agricultural ethics involving preserving agricultural heritage and building consensus for sustainable farming respectively Although the papers are divided into three groups their contents are interconnected and mutually informative **Human and Social Perspectives in Natural Resource Management** ,2002 *Agricultural Perspectives on Water Resource Management in the America's* Joe Makuch, 1995-08 Contains 224 citations on the topic of water resource management in the U S Canada Central South America Includes articles on rural perspectives water pollution water quality etc Most citations contain abstracts Author subject index *Agricultural Perspectives on Water Resource Management in the Americas, January 1985 - July 1993* Joe Makuch, 1993 **New Scientist** ,1975 **Man and the Biosphere Program** United States. Congress. House. Committee on Science and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment, 1984 **Global Perspectives in Health - Volume I** Boutros Pierre Mansourian, 2009-07-20 Global Perspectives in Health is a component of Encyclopedia of Biological Physiological and Health Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Global Perspectives in Health provides the essential aspects and with a myriad of issues of great relevance to our world such as Global Perspectives in Health Determinants of Health and Their Interactions Epidemiology Health and Disease in Populations Health Care Systems Ethical Issues in Health New Problems in Global Health These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs *The SAGE Encyclopedia of War: Social Science Perspectives* Paul Joseph, 2016-10-11 Traditional explorations of war look through the lens of history and military science focusing on big events big battles and big generals By contrast The SAGE Encyclopedia of War Social Science Perspective views war through the lens of the social sciences looking at the causes processes and effects of war and drawing from a vast group of fields such as communication and mass media economics political science and law psychology and sociology Key features include More than 650 entries organized in an A to Z format authored and signed by key academics in the field

Entries conclude with cross references and further readings aiding the researcher further in their research journeys An alternative Reader s Guide table of contents groups articles by disciplinary areas and by broad themes A helpful Resource Guide directing researchers to classic books journals and electronic resources for more in depth study This important and distinctive work will be a key reference for all researchers in the fields of political science international relations and sociology

Future Challenges in Renewable Natural Resources United States. Forest Service,1979 The workshop was designed to bring together key people from futures research and renewable natural resources in a setting where they could systematically consider the future The objectives were to identify probable global national and regional trends and developments over the next 6 to 50 years 2 assess the nature and magnitude of their impacts and 3 suggest strategies policies roles programs and organizational and research priorities for the U S Department of Agriculture

Environmental Approach in Geography Teaching Zeenat Kidwai,2004 Study on geography teaching at the secondary classes in different types of schools of Delhi India

New Perspectives on the History of Life Sciences and Agriculture Denise Phillips,Sharon Kingsland,2015-02-12 This volume explores problems in the history of science at the intersection of life sciences and agriculture from the mid eighteenth to the mid twentieth century Taking a comparative national perspective the book examines agricultural practices in a broad sense including the practices and disciplines devoted to land management forestry soil science and the improvement and management of crops and livestock The life sciences considered include genetics microbiology ecology entomology forestry and deal with US European Russian Japanese Indonesian Chinese contexts The book shows that the investigation of the border zone of life sciences and agriculture raises many interesting questions about how science develops In particular it challenges one to re examine and take seriously the intimate connection between scientific development and the practical goals of managing and improving perhaps even recreating the living world to serve human ends Without close attention to this zone it is not possible to understand the emergence of new disciplines and transformation of old disciplines to evaluate the role and impact of such major figures of science as Humboldt and Mendel or to appreciate how much of the history of modern biology has been driven by national ambitions and imperialist expansion in competition with rival nations

Gender Research in Natural Resource Management Malika Abdelali-Martini,Aden Aw-Hassan,2013-12-17 The aim of this book is to highlight the role that gender research can play in understanding natural resource management and rural development issues in the Middle East and North Africa region and how hands on training and mentoring can be used as a capacity enhancement approach It presents findings of four research teams working in three countries Algeria Lebanon and Morocco The approach was to build the capacity of national teams through hands on field research mentoring and technical support which is different from traditional training The chapters present the results of the case studies used as learning platforms for the teams and reflections on this approach The case studies demonstrate the capacity and skills that the teams have acquired These teams were multi disciplinary and included social scientists as well as

specialists in water management livestock production and rangelands and agronomy The book provides grounded empirical examples for MENA academics practitioners and development students concerned about ensuring gender balanced rural development

Perspectives in Human Geography Punyatoya Patra,Rajesh Kumar Abhay,Roshani Devi,Gaurav Sikka,Sneh Gangwar,2021-01-01 The text book entitled Perspectives in Human Geography is designed to cover the requirements of the various undergraduate level syllabuses of Human Geography in India in general and that of CBCS syllabus of University of Delhi in particular The book is divided into five parts The first part covers the concept major themes of Human Geography and its contemporary relevance The second part covers world cultural realms and characteristics and global distribution of race religion and language The third part covers population growth distribution composition migration and along with population theories Part four focuses on settlement which covers distinction between rural and urban settlement determinants of rural settlement classification of urban settlement and world urbanization pattern The fifth part focuses on population resource region with the concepts of under population over population optimum population and carrying capacity of regions This book provides many basic and other useful materials for optional subjects such as Population Geography Cultural Geography Urban Geography and Resource Geography The book would be of an immense help to both students and teachers of Geography and other related social sciences

Alternative Perspectives On Livelihood, Agriculture And Air Pollution Neela Mukherjee,2002

The Enigmatic Realm of **Man Natural Resources An Agricultural Perspective**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Man Natural Resources An Agricultural Perspective** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those who partake in its reading experience.
