human evolution in the light of the latest advances in the field *Human Rights and the Third World* Subrata Sankar Bagchi, Arnab Das, 2012-12-06 *Human Rights and the Third World* Issues and Discourses deals with the controversial questions on the universalistic notions of human rights. It finds Third World perspectives on human rights and seeks to open up a discursive space in the human rights discourse to address unresolved questions citing issues and problems from different countries in the Third World. 1 Whether alternative perspectives should be taken as the standard for human rights in the Third World countries. 2 Should there be a universalistic notion of rights for Homo sapiens or are we talking about two diametrically opposite trends and standards of human rights for the same species. 3 How far these Third World perspectives of human rights can ensure the protection of the minorities and the vulnerable sections of population particularly the women and children within the Third World. 4 Can these alternative perspectives help in fighting the Third World problems like poverty, hunger, corruption, despotism, social exclusion like the caste system in India, communalism and the like. 5 Can there be reconciliation between the Third World perspectives and the Western perspective of human rights. *Finding Your Way To Heaven Without a Smartphone* Joe Obidiegwu, 2015-08-11 In efforts to understand the human being, our history and our future, the story takes the reader through three different continents, gleaming cultural well-being and malaise of different races. The book highlights the common bond between all human races while exploring reasons for the perceived outer differences. Our modern world hurtles forward driven as it is by powerful technological engines of change characterized by an obsessive and often idolatrous worship of intelligence. Ruminative men and women all around the world ponder in the silence of their soul the fate of humanity. In the West, depression, suicide, incomprehensible mass shootings and myriad psychological disorders litter our cultural landscape while abject poverty ravages developing nations. We have become highly intelligent beings that cannot solve our problems yet we inhabit a natural world created out of wisdom and much of that wisdom is not reflected in our thoughts and lifestyle. Modern man's obsession with intelligence and the material world has left him a stranger to spiritual things and wisdom. Consequently, humanity is left vulnerable to inexplicable and undiagnosed suffering. In an attempt to diagnose what ails modern man, this book presents a convincing and thought-provoking argument that we have forgotten who we are and in so doing have built a world terribly out of order with our divine nature. By walking the reader through my Nigerian upbringing and subsequent arrival in the West, I reveal some timeless wisdom that I believe can serve as a cure for some of the things that trouble us today. This inimitable book lights a path directing us again to who we truly are. It is a timely and deft clarion call to all of us. *Finding Your Way to Heaven Without a Smartphone* is a mixture of autobiography, cultural inquiry and philosophy. Joseph Obidiegwu, an Igbo from Nigeria, has lived on three continents. He has the necessary perspective and wisdom to look at the world's masquerade from different angles. There is no romanticization of traditional African village life nor is there blind acceptance of the hectic to and fro of modern life on planet Smartphone. Don Burness, Ph.D., Professor of Literature at Franklin Pierce College, Author of *Echoes of the Sunbird* and *Wanasema*. Keywords:
