Steger, Terrell Carver, 2010-11-01

Philosophy after Marx Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning's historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of *Philosophie nach Marx 100 Jahre Marxrezeption und die normative*

Sozialphilosophie der Gegenwart in der Kritik Transcript Verlag Bielefeld 2005 **Marxism After Marx** Herbert Gamberg, Tony Thomson, Zhanbin Ma, 2016-05-01 The major aim of this book is to examine and critique the political movements that Marx directly confronted or that derived from Marx following his death in 1883 when a variety of Marxist parties arose in opposition to one another **Circling Marx: Essays 1980-2020** Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime s engagement with Marx and his intellectual consequences After Marx Colleen Lye, Christopher Nealon, 2022-03-17 After Marx Literature Theory and Value demonstrates the importance of Marxist literary and cultural criticism for an era of intersectional politics and economic decline The volume includes fresh approaches to reading poetry fiction film and drama from Shakespeare to contemporary literature and shows how Marxist literary criticism improves our understanding of racial capitalism feminist politics colonialism deindustrialization high tech labor ecological crisis and other issues A key innovation of the volume s essays is how they attend to Marx s theory of value For Marx capitalist value demands a range of different kinds of labor as well as unemployment This book shows the importance of Marxist approaches to literature that reach beyond simply demonstrating the revolutionary potential or the political consciousness of a 19th century style industrial working class After Marx makes an argument for the twenty first century interconnectedness of widely different literary genres and far flung political struggles After Marx, Before Lenin Gary P. Steenson, 1991 The 30 years preceding World War I were critical for the development of European workers parties When Marx died in 1883 only Germany had a viable working class movement by 1914 most central and western European countries had large and growing workers parties with leaders committed both to what they understood as Marx s political ideas and to full participation in representative politics Restless Ideas Tony Simmons, 2020-05-21T00:00:00Z How do we make sense of the rise of political strongmen like Trump and Erdo an or the increase in hate crimes and terrorism How can we understand Brexit and xenophobic anti immigrant sentiments and policies More importantly what can we do to make it all stop In Restless Ideas Tony Simmons illustrates how social theory provides us with the skills for more informed observation analysis and empathic understanding of social behaviour and social interaction Social theory deepens our understanding of the world around us by empowering us to become practical theorists in our own lives Simmons traces the roots of contemporary social theory back to the works of the early structural functionalists systems theorists conflict theorists symbolic interactionists and ethnomethodologists and incorporates contemporary social thinkers theorizing from the margins who are redefining the canon Later chapters focus on

the current influence of structuration theory feminist and queer theory Indigenous theory third wave critical theory postmodernism and poststructuralism and liquid and late modernity theories and globalization theories **Friedrich**
