*Dickens's Kent* Peter Clark, 2024-06-27 A geographical narrative of Charles Dickens's life in Kent Few novelists have written so intimately about a city as Charles Dickens wrote about London but he was intimately connected to Kent more than any other part of Britain Perhaps Kent meant more to him than the capital He had an idyllic childhood in Chatham and Kent features in his first works of fiction *Sketches by Boz* and *The Pickwick Papers* and in his favorite novel *David Copperfield* In his last ten years he wrote two novels with strong Kentish themes *Great Expectations* and *The Mystery of Edwin Drood* He had his honeymoon outside Gravesend and often spent the summer months in Broadstairs In 1856 he bought Gad's Hill Place near Rochester and died there in 1870 Dickens's Kent begins with the description of a walk from London to Dickens's main residence Gad's Hill Place before taking the reader to areas in Kent most closely associated with his life and work the Medway Towns and their surroundings Thanet and East Kent and finally Staplehurst the scene of the railway accident that nearly killed him

*The Medway Towns* Sandra Dunster, 2013-04-30 In 1550 Rochester was the only Medway town It dominated the river estuary and an agricultural hinterland in which Strood Chatham and Gillingham were nearby villages reliant on fishing and farming for their livelihood By the beginning of the twentieth century these four towns had become an urban conurbation The key factor in this dramatic change was the growth of the Royal Naval Dockyards at Chatham home to the English fleet from the mid sixteenth to the mid eighteenth century and subsequently the foremost shipbuilding and repair docks in England The yards at Chatham soon became the largest industrial complex in the south of England Over the course of the next 350 years Rochester Chatham Gillingham and Strood grew They merged physically but developed distinct characteristics Chatham became the dockyard town whilst Rochester retained a more genteel air Gillingham gained a military presence and covered agricultural land with terraced housing Strood on the opposite bank of the river abandoned fishing and farming for brick and cement manufacture and engineering This book explores the impact of these changes on the people who lived and worked in the Medway Towns the transformation of the political and economic scene and of the built environment

*The Economy of Kent, 1640-1914* Alan Armstrong, 1995. In recent years historians' interpretations of the economic history of Britain from the seventeenth to the nineteenth century have changed significantly. There is less emphasis on the idea of a cataclysmic industrial revolution pioneered in and confined to the northern and midland counties with increasing amounts of attention devoted to the long neglected economic history of the southern counties. *The Economy of Kent 1640-1914* is the first authoritative survey of the topic. Subjects considered include the population of Kent, its growth, mobility and distribution, agriculture, industry, transport, labour and the importance of the sea to Kent. Its findings suggest that Kent retained its place as an important constituent of the expanding British economy throughout the period and that by its steady economic progress it avoided many of the strains and stresses experienced by counties more directly touched by industrialisation along with the painful processes of readjustment that other regions have faced more recently. ALAN ARMSTRONG is Professor of Economic and Social History at Kent University. The contributors are: MARY DOBSON, ALAN ARMSTRONG, GORDON MINGAY, DAVID ORMROD, JAMES PRESTON, THEO BARKER, ROBIN CRAIG, JOHN WHYMAN, CHRISTOPHER CHALKLIN, TOM RICHARDSON, ALAN ARMSTRONG. *Kent in the Twentieth Century* Nigel Yates, 2001. This is the sixth volume to be published in the major ten volume new history of the county of Kent and the first detailed study of the development of Kent during the past hundred years. The sixth volume to be published in the major ten volume new history of the county of Kent and the first detailed study of the development of Kent over the past hundred years. Each of the ten chapters begins by evoking a picture of Kent on the eve of the First World War and looking at the changes that have taken place between then and the present day in the area under discussion. Particular attention is paid to the impact of the two World Wars on Kent, to the influence of national events on local institutions and people, to the role of the county council in the development of many aspects of life in Kent and to the major economic and social changes of the last thirty years, many of them associated with Britain's entry into the European economic community and Kent's strategic importance as a corridor linking London and Britain to Europe.
