Political Elites In The Ubr:

Associative Political Culture in the Holy Roman Empire Duncan Hardy, 2018-08-21 What was the Holy Roman Empire in the fourteenth to sixteenth centuries At the turning point between the medieval and early modern periods this vast Central European polity was the continent's most politically fragmented The imperial monarchs were often weak and distant while a diverse array of regional actors played an autonomous role in political life The Empire's obvious differences compared with more centralized European kingdoms have stimulated negative historical judgements and fraught debates which have found expression in recent decades in the concepts of fractured territorial states and a disjointed imperial constitution Associative Political Culture in the Holy Roman Empire challenges these interpretations through a wide ranging case study of Upper Germany the southern regions of modern day Germany plus Alsace Switzerland and western Austria between 1346 and 1521 By examining the interactions of princes prelates nobles and towns comparatively Associative Political Culture in the Holy Roman Empire demonstrates that a range of actors and authorities shared the same toolkit of technologies rituals judicial systems and concepts and configurations of government Crucially Upper German elites all participated in leagues alliances and other treaty based associations As frameworks for collective activity associations were a vital means of enabling and regulating warfare justice and arbitration and even lordship and administration On the basis of this evidence Associative Political Culture in the Holy Roman Empire offers a new and more coherent depiction of the Holy Roman Empire as a sprawling community of interdependent elites who interacted within the framework of a shared political culture *Croatian political science review*, 1986 [Justice, Crime, and Citizenship in Eurasia](#) Erica Marat, Lauren A. McCarthy, 2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The contributions in this volume include research on policing the legal profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal *Europe Asia Studies*

Law, Society and Transition in Myanmar Melissa Crouch, Tim Lindsey, 2014-10-23 This edited volume addresses the dynamics of the legal system of Myanmar Burma in the context of the dramatic but incomplete transition to democracy that formally began in 2011 It includes contributions from leading scholars in the field on a range of key legal issues now facing Myanmar such as judicial independence constitutional law human rights and institutional reform It features chapters on the

legal history of Myanmar electoral reform the role of the judiciary economic reforms and the state of company law It also includes chapters that draw on the experiences of other countries to contextualise Myanmar s transition to democracy in a comparative setting including Myanmar s participation in regional bodies such as ASEAN This topical book comes at a critical juncture in Myanmar s legal development and will be an invaluable resource for students and teachers seeking greater understanding of the legal system of Myanmar It will also be vital reading for a wide range of government business and civil society organisations seeking to re engage with Myanmar as it navigates a difficult transition toward democracy and the rule of law
