Practical Plans for Barns, Carriage Houses, Stables, & Other Country Buildings William A. Radford, David Loveless, Joan Loveless, 1978

A Pictorial History of Barns and Other Farm Structures in Michigan Kate Pickvet, Mark Pickvet, Robin Rainwater, 2004 *Barns in Michigan* Publications of the American Folklife Center, 1977

Barns and Barn Preservation Peggy Lee Beedle, Geoffrey Maitland Gyrisco, 1999 *Country Houses and Seaside Cottages of the Victorian Era* William T. Comstock, 2012-08-09 This fascinating book presents a series of 44 designs for vacation homes of varying styles and sizes created over a century ago by a select group of New York and New Jersey architects. Many of them are two story and most were intended to be built on low to medium budgets. All of them reflect the ideals of comfort and charm and state of the art technology of the Victorian period. The original publishers compiled a splendid variety of designs presented them as seaside and country houses and included designs for a Victorian club house pavilion school house and a small seaside chapel. A total of 200 illustrations including perspective views front and side elevations and first and second story floor plans depict these appealing designs. Occasionally the architects have specified construction materials and finishing details such as paint color and trim and in all cases they have included the overall anticipated costs which range from about 500 to about 9 000. The Victorians of course loved architectural embellishments of every kind and it is no small part of the charm of this book to study the profusion of gables porches portholes dormers porticoes chimneys pinnacles and more lavished on even the most modest designs. Above all the houses and cottages appear to be both comfortable and reassuring appealing reminders of a gracious age long gone. Those studying and working in the fields of architecture history and sociology will find in this wonderful book exuberant examples of a rich and charming architectural style. Those who wish to join the growing number of home builders and restorers re-creating Victorian homes will find inspiration in each of these thoughtful designs.
