Prague School Selected Writings 1929 1946 University Of Texas Press Slavic Series No 6:

The Prague School Peter Steiner, 2014-09-10 The Prague Linguistic Circle came into being on the afternoon of October 6 1926 when five Czech and Russian linguists gathered to hear a lecture by a German colleague From this international beginning the interests of the group grew to first encompass language in all its functional heterogeneity and then finally all of culture which the Circle conceived of as a structure of sign systems Semiotics was thus the overarching discipline for the Prague School serving to organize all phenomena shared and exchanged by a cultural community In recent years increasing attention has been paid to the importance of the Prague School but writing about it has frequently been marred by misconceptions The central aim of this volume is to correct those misconceptions and to present the diversity of interests within the Prague School literary criticism linguistics theory of theater folklore and philosophy These essays by Bogatyr v Jakobson Karcevskij Muka ovsk Rieger Vodi ka and Honzl are here translated into English for the first time Some have a special historical value in illuminating critical stages of structuralist thinking others reveal the timeliness of the School s contributions for the theoretical conflicts of our day Each essay is accompanied by an informative introductory note and the whole is followed by the editor s Postscript tracing the roots of structuralist aesthetics *Literature as Communication and*

Cognition in Bakhtin and Lotman Allan Reid, 2016-08-19 This title first published in 1990 argues for the existence of a significant connection between the theories of literature and culture of Mikhail Mikhailovich Bakhtin 1895 1975 and Iurii Mikhailovich Lotman 1922 1993 There is general agreement in the academic or scholarly community that there is such a connection however it is generally held to refer to Bakhtin s influence on Lotman which he expressed late in his life The major aim of this study meanwhile is to demonstrate that the critical theories of Lotman and Bakhtin are highly compatible independent of and prior to any direct influence This title will be of interest to students of literature and literary theory

Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the histoire crois e the history of translations transformations and migrations that

conditioned its relationship with the West Patterns of Time Donald Kiriara,1992 Donald Kiriara examines in extraordinary detail the brilliant early works of one of the world s great film directors offering an in depth analysis of his career Kiriara s exploration of Mizoguchi within his national and cultural context marks a new step forward in the integration of film theory historical research and auteur criticism **Prague** Susie Lunt,1997 Prague the ancient capital of Bohemia is a city steeped in history In the fourteenth century under Charles IV it became one of the most splendid capitals of Europe and its beautiful architecture has survived intact Since the Velvet Revolution of 1989 the inhabitants of Prague have enjoyed many new freedoms and today this vibrant city attracts over 60 million visitors each year All aspects of Prague s history and culture are covered in this annotated bibliography *Linguistica Silesiana* ,1992 The Birth and Death of Literary Theory Galin Tihanov,2019-07-30 Until the 1940s when awareness of Russian Formalism began to spread literary theory remained almost exclusively a Russian and Eastern European invention The Birth and Death of Literary Theory tells the story of literary theory by focusing on its formative interwar decades in Russia Nowhere else did literary theory emerge and peak so early even as it shared space with other modes of reflection on literature A comprehensive account of every important Russian trend between the world wars the book traces their wider impact in the West during the 20th and 21st centuries Ranging from Formalism and Bakhtin to the legacy of classic literary theory in our post deconstruction world literature era Galin Tihanov provides answers to two fundamental questions What does it mean to think about literature theoretically and what happens to literary theory when this option is no longer available Asserting radical historicity he offers a time limited way of reflecting upon literature not in order to write theory s obituary but to examine its continuous presence across successive regimes of relevance Engaging and insightful this is a book for anyone interested in theory s origins and in what has happened since its demise **Czech Republic** Vladka Edmondson,David Short,1999 Most entries of this revised edition are new as so much has been recently published on Czech affairs All aspects of the country are covered in selective critical annotations of pre eminently English language publications making this an invaluable reference work for scholars students and the general reader alike **Subject Catalog, 1982** Library of Congress,1982 Modernities Joseph Masheck,1993 Joseph Masheck wants to take art historical and modern as a field of lively interrelations as if in random access memory retrieval rather than just second the motion that art history should be nonlinear and he takes the task of art criticism to be theory in practice Thus significant new art is represented in the thirty essays in Modernities besides already classic modern architecture sculpture and photography and contemporary painting by artists Alternating between a comprehensive sense of art history and engagement with the new and unplumbed contemporary arts he considers himself a kind of aesthetic double agent Because Masheck is concerned with the concrete standing of artworks he speculates on how works of art including Marcel Duchamp s ready made relate to other things More general themes range from the origin of the modern sense of form in prehistoric art to the historical underpinnings of expressionism and on to latter day graffiti
