Radical Constructionism Melvin Feffer, 1990-11-01 Freud's inadequate description of the developmental link between a child's way of knowing and an adult's way of knowing According to Melvin Feffer Freud was unable to articulate a coherent developmental theory because he presupposed an adult mind in the child but called for an elaboration of his constructionist position In this book Dr Feffer offers an empirical demonstration of how these processes are involved in personality development presenting an alternative conception of interpersonal development one that starts from a different philosophical position and aims to be by virtue of this both more comprehensive and less problematic than that afforded by Freudian theory [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.), 1989 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 [In Search of a Calling](#) Thomas O.
