IMPROVING LEADERSHIP IN STUDENT AFFAIRS ADMINISTRATION Arthur Sandeen, 2000-01-01 If student affairs is to continue to advance as a vital part of the administration of colleges and universities it is essential to focus on the role of leadership in the profession. The major purpose of this book is to provide learning opportunities for those who aspire to become senior student affairs leaders by presenting a variety of realistic case studies for discussion and debate. By thinking through the issues presented in the case and by considering the advantages and disadvantages of the various options presented for resolving the issues, readers will increase their understanding of the role of student affairs leadership. The text includes an introductory chapter about the current state of leadership in student affairs and also provides insight into the expectations institutions have for the future. The 18 cases are organized in four sections: Initiating programs, revising and implementing policy, developing effective structures, and responding to specific issues. The topics for the cases were selected to present many different kinds of problems and issues representing public and private urban and rural and large and small institutions. This book provides students with a source of excellent interaction and discussion and it is offered as another key component to the lengthy process of learning how to become an effective student affairs leader.

On the Write Track James Clements, 2022-10-13. On the Write Track puts teachers' autonomy and their knowledge of what is right for their pupils at the heart of teaching writing. It explores a set of research-based principles before illustrating these with case studies and examples of classroom practice. Writing is about communication. Learning to write gives children a voice that others will listen to; a voice they can use to share their ideas, articulate their feelings, amuse and delight their readers, and argue for what they believe in. While every child, every teacher, and every classroom are different, approaches to teaching writing can sometimes feel prescriptive, whether they are based on a particular curriculum model, commercial scheme, assessment system, or underlying philosophy. This book provides freedom and choice by introducing a series of tracks for writing teaching, including practical approaches to building a community of

writers in the classroom Employing a process led sequence for teaching writing Encouraging children to write for pleasure and share their own interests Exploring the use of rich and diverse texts as fuel for writing Drawing on spoken language and oracy to develop written communication Teaching grammar and punctuation to support writing Utilising feedback to help children develop their writing voice Using drama and play as starting points for writing Through considering these different tracks and thinking about how to weave them together into a coherent whole teachers can help every child to make the journey to being a confident skilled keen writer
