Researching Children In Context Theories Methods And Ethics:

Studying Children in Context M. Elizabeth Graue, Daniel J. Walsh, 1998-02-19 The art and science of doing qualitative research involving children is the subject of this book Elizabeth Graue and Daniel Walsh discuss the research process dealing succinctly with generic issues but emphasizing where work with children presents its own particular challenges Part One looks across the research enterprise conceptualizing it as an holistic activity Part Two focuses on fieldwork and the final part examines the interpretive and reporting aspects of qualitative research

Children in Context M. Elizabeth Graue, 1998 Graue and Walsh discuss the research process emphasising the areas where work with children presents particular challenges They present contributions from numerous researchers as well as insights from their own fieldwork with children

Researching Children and Youth Ingrid E. Castro, Melissa Swauger, Brent Harger, 2017-03-17 This volume seeks to directly address the problems and pitfalls that often accompany researching children and youth in today's society This volume addresses participatory and feminist ethnographic approaches digital mining children's agency and navigating IRBs Themes of space location and identity run throughout this volume

Ethics and Research with Young Children Christopher M. Schulte, 2019-12-26 As researchers and theorists teachers and teacher educators parents and grandparents and advocates for children the authors featured in Ethics and Research with Young Children share a common inclination to counter the idea of an ethics that is conventional i.e. an ethics that reinforces existing models and discourses which position children as irrational and incompetent that de-anonymize children's ways of working and being in the world that reduces and distorts the social cultural and political forces that shape children's everyday realities and that routinely subtracts from these realities the complex responsibilities that adults have especially as researchers to recognize ethics as situated relational intersectional and provisional Aligned with the interdisciplinary commitments of a Childhood Studies approach and informed by a range of theoretical and practical frameworks the perspectives offered in this volume are grounded in relationships between and among adults and children their shifting social cultural political and material realities and a world of ideas and experiences that impel them to face and reorient their ethical commitments to each other

Handbook of Research Methods in Early Childhood Education - Volume 2 Olivia Saracho, 2014-10-01 The Handbook of Research Methods in Early Childhood Education brings together in one source research techniques that researchers can use to collect data for studies that contribute to the knowledge in early childhood education To conduct valid and reliable studies researchers need to be knowledgeable about numerous research methodologies The Handbook primarily addresses the researchers scholars and graduate or advanced undergraduate students who are preparing to conduct research in early childhood education It provides them with the intellectual resources that will help them join the cadre of early childhood education researchers and scholars The purpose of the Handbook is to prepare and guide researchers to achieve a high level of competence and sophistication to avoid past mistakes and to benefit from the best researchers in the field This Handbook is also useful to

university professors who conduct research and prepare student researchers in early childhood education. It aims to improve the researchers' conceptual and methodological abilities in early childhood education. Thus, the Handbook can be used as a guide that focuses on important contemporary research methodologies in early childhood education and describes them to offer researchers the necessary information to use these methodologies appropriately. This Handbook is designed to be used by students of early childhood education at all levels of professional development as well as mature scholars who want to conduct research in areas needing more in-depth study. It is hoped that this Handbook of Research Methods in Early Childhood Education will serve the needs of many in the research community. Scholars seeking the current state of research knowledge in various areas should find this volume useful. Similarly, practitioners who are trying to seek knowledge of research and its practical implications should find this volume helpful as well. This Handbook, with its individual chapters, presents several research methodologies to address a variety of hypotheses or research questions that will contribute to the knowledge of the field in early childhood education.

Understanding Research with Children and Young People Alison Clark, Rosie Flewitt, Martyn Hammersley, Martin Robb, 2013-12-10. How do views about children shape research concerned with their lives? What different forms can research with children take? What ethical issues does it involve? How does it impact on policy and practice and on the lives of children themselves? This book helps you to understand how research is designed and carried out to explore questions about the lives of children and young people. It tackles the methodological, practical, and ethical challenges involved and features examples of actual research that illustrate different strategies for carrying out research. Common challenges that arise in the research process. Varying modes of engagement that researchers can adopt with participants and audiences and the impact that research can have on future studies, policy, and practice.

Childhoods in context Alison Clark, 2013-03. *Childhoods in Context* offers a critical exploration of childhood, drawing attention to the physical and social contexts of children's lives. Through accounts of home and family, school, public spaces, and work, the contributors explore three key arguments: childhood is always located somewhere, either in a place designed for children or territories that children develop for themselves; childhood is experienced through objects, people, places, and everyday routines; and childhood and adult identities are relational. Understandings of childhood are dependent on how adulthood is viewed. Raising important questions about methodological approaches to understanding childhoods in context, this book provides a framework for investigating wider questions about childhood, including the power relationships between adults and children and the influence of gender and inequality.

Handbook of Research Methods in Early Childhood Education - Volume I Olivia Saracho, 2014-10-01. The Handbook of Research Methods in Early Childhood Education brings together in one source research techniques that researchers can use to collect data for studies that contribute to the knowledge in early childhood education. To conduct valid and reliable studies, researchers need to be knowledgeable about numerous research methodologies. The Handbook primarily addresses the researchers, scholars, and graduate or advanced undergraduate

students who are preparing to conduct research in early childhood education. It provides them with the intellectual resources that will help them join the cadre of early childhood education researchers and scholars. The purpose of the Handbook is to prepare and guide researchers to achieve a high level of competence and sophistication to avoid past mistakes and to benefit from the best researchers in the field. This Handbook is also useful to university professors who conduct research and prepare student researchers in early childhood education. It aims to improve the researchers' conceptual and methodological abilities in early childhood education. The SAGE Handbook of Child Research Gary B. Melton, Asher Ben-Arieh, Judith Cashmore, Gail S. Goodman, Natalie K. Worley, 2013-12-18. It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus. The volume's editors are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children. James Garbarino, Loyola University Chicago. Covers a satisfying and unprecedentedly wide range of research relating to childhood. The contributors include many eminent international scholars of childhood, making the book a valuable resource for child researchers. Child advocates will also find the book to be invaluable in their efforts to improve children's well-being and to change policies and practices for the better. Anne Smith, University of Otago. A really scintillating collection that will provide a lasting perspective on child studies, stimulating and comprehensive. Jonathan Bradshaw, University of York. In keeping with global changes in children's social and legal status, this Handbook includes examination of children as family members, friends, learners, consumers, people of faith, and participants in law and politics. The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective. The book is divided into three parts: Part I, Setting Specific Issues in Child Research; Part II, Population Specific Issues in Child Research; Part III, Methods in Research on Children and Childhood.

Youth, Technology, Governance, Experience Liam Grealy, Catherine Driscoll, Anna Hickey-Moody, 2018-06-14. How do adults understand youth? How do their conceptions inform interventions into young lives or involve young people's experiences? This volume tackles these questions by exploring adults

ideas about youth Specifically Youth Technology Governance Experience examines the four titular concepts and their implications for a range of relationships between youth and adults Utilising interdisciplinary methods the contributing authors deliver a broad range of analyses of young people differentiated by gender class race and geography across an array of contexts including within the home in media representations through government bureaucracies and in everyday life Youth Technology Governance Experience also interrogates the meaning of technology and governance for youth studies considering a range of ways they interact including through social media technologies of regulation and educational tools It will appeal to students and academic researchers interested in fields such as youth studies cultural studies sociology and education

Ethical Research with Children Sarah Richards, Jessica Clark, Allison Boggis, 2015-10-26 An increasing interest in children's lives has tested the ethical and practical limits of research Rather than making tricky ethical decisions transparent researchers tend to gloss over stories that do not fit with sanitized narratives This book aims to fill this gap by making explicit the lived experiences of research with children

Understanding Children as Consumers David Marshall, 2010-04-19 What drives children as consumers How do advertising campaigns and branding effect children and young people How do children themselves understand and evaluate these influences Whether fashion toys food branding money from TV adverts and the supermarket aisle to the internet and peer trends there is a growing presence of marketing forces directed at and influencing children and young people How should these forces be understood and what means of research or dialogue is required to assess them With critical insight the contributors to this collection take up the evaluation of the child as an active consumer and offer a valuable rethinking of the discussions and literature on the subject Features 14 original chapters from leading researchers in the field Each chapter contains vignettes or case examples to reinforce learning Contains consideration of future research directions in each of the topics that the chapters cover This book will be relevant reading for postgraduates and advanced undergraduates with an interest in children as consumers consumer behaviour and on marketing courses in general as well as for researchers working in this field
