Realism and Educational Research David Scott, 2002-01-04 Although the literature of social research covers a vast range of material there has been little on the role of social theory in educational research In this

respect David Scott's book covers an important gap in the market as it focuses on the centrality of social theory in a variety of empirical projects. The volume covers a range of conceptual and theoretical discussions and subsequently applies these concepts to our analysis of empirical studies. As a consequence it is a volume that deserves to be read widely by students and researchers alike. **Reflective Practice in Educational Research** Linda Evans, 2002-07-01 Have you ever found that your initial research training if indeed you received one has proved not entirely adequate? Has you ever found research more complex or intractable than expected? If so this book is for you. Drawing on examples from her own research and others Linda Evans shows how as reflective practitioners researchers as can develop more advanced methods and understandings.

Research in the College Context Frances K. Stage, Kathleen Manning, 2015-08-20 Research in the College Context 2nd Edition provides faculty students practitioners and researchers in the college environment with a manual of diverse approaches and methods for researching higher education and college students. The authors look at the entire research journey from planning a research topic and framing research questions through the process of data collection and analysis to writing up and

presentation Using a step by step approach the book tackles common thorny issues such as Understanding the different genres of research Discussion of qualitative and quantitative approaches to research The importance of forming research questions and of locating them within current research literature How to do a literature review Dealing with permissions access and ethics The nuts and bolts of research methods Interpreting data and writing up research findings Together with case studies and examples of real life research projects that have been completed by the authors own students this book tackles research in a student friendly and accessible style carefully unpacking and defining the different terms concepts and theories that students need to know when beginning research for the first time This book is essential reading for students who are training to work in the lifelong learning sector or practitioners who are undertaking CPD to maintain their license to practice Many teachers training in the lifelong learning sector as well as those going on to do foundation honours and masters degrees in education find the prospect of carrying out educational research for the first time daunting Thus far they have been reliant on generic educational research textbooks Jonathan Tummons and Vicky Duckworth s excellent work now guides them clearly and supportively through the research journey in a way which is underpinned by the authors deep understanding of both the sector and nature of the challenge of the research task to the student using an informal and accessible written style Andy Armitage Head of the Department of Post Compulsory Education at Canterbury Christ Church University UK This book combines sound practical advice with an exploration of the philosophical and methodological concepts underpinning educational research Often drawing on the authors own experiences it makes a convincing case for the practitioner as researcher and draws clear and appropriate attention to the purposes uses and dissemination of small scale research Susan Wallace Professor of Continuing Education Nottingham Trent University UK

Freedom Research in Education Karen McArdle, 2018-03-19 This book sets out a new and distinctive means of conceptualising research in the field of Education Freedom Research Freedom research is a conceptual understanding of research free from the strictures of orthodoxy which adapts or knowingly critiques conventions about the ways in which research should be conducted Underpinning this concept is the argument that the conventions of traditional approaches to research in education may be both confidence sapping and constrictive to both the early career and mature educational researcher By critiquing the boundaries of a socially constructed discipline the researcher may then be liberated to research with freedom creativity and innovation This pioneering volume will assist the researcher to become more autonomous and by extension more confident in their own research practice It will be of appeal to scholars students and researchers in Education of all stages of their career

EBOOK: Becoming a Researcher: A Research Companion for the Social Sciences Mairead Dunne, John Pryor, Paul Yates, 2005-07-16 This innovative book combines what most books separate research as practical activity and research as intellectual engagement It clarifies and makes explicit the methodological issues that underlie the journey from initial research idea to the finished report and beyond The text moves the researcher logically through the research process and

provides insights into methodology through an in depth discussion of methods It presents the research process as an engagement with text This theme moves through the construction of text in the form of data and the deconstruction of text in analysis Finally the focus moves to the reconstruction of text through the re presentation of the research in the report Following through each of these stages in turn the chapters consider either a practical issue or a group of methods and interrogate the associated methodological concerns In addition the book also addresses the rarely explored issues of the researcher as writer and researcher identity as core elements of the research process The book provides a range of insights and original perspectives These successfully combine practical guidance with the invitation to consider the problematic nature of research as social practice It is an ideal reference for those embarking on research for the first time and provides a new methodological agenda for established researchers
