## **Researching Education Policy Ethical And Methodological Issues:**

**Researching Education Policy** David Halpin, Barry Troyna, 1994 The methodology researching of educational policy is the subject of this book It takes a behind the scenes look at the conducting the analysis and the interpretation of research carried out into educational policy issues revolving around the 1988 Education Reform Act The contributors draw on their project research experience to demonstrate the breadth of issues lionked with such policy research and cover the gender and power balance between interviewer and interviewee the difficulties resulting from different ideological stances of researchers and researched and difficulties in finding links between research and policy Reading Educational Research and Policy David Scott, 2003-09-09 Reading Educational Research and Policy will improve the ability of teachers to deconstruct policy research and media texts This accessible book examines in turn the message systems through which educational meanings are conveyed in modern society official policy texts written media and spoken media Through understanding how and why messages are conveyed teachers will develop strategies for becoming more critical and reflective of the texts that confront them in their work *Education, Globalisation and New Times* Stephen J. Ball, Ivor F. Goodson, Meg Maguire, 2007-03-08 Education Globalisation and New Times comprises a selection of the most influential papers published over the twenty one years of the Journal of Education Policy Written by many of the leading scholars in the field these seminal papers cover a variety of subjects sectors and levels of education focused around the following major themes education globalisation and new times policy theory and method policy and equity Compiled by the journal s editors Stephen Ball Ivor Goodson and Meg Maguire the book illustrates the development of the field of education policy studies and the specially written Introduction contextualises the selection whilst introducing students to the main issues and current thinking in the field **Being Reflexive in Critical and Social Educational Research** Geoffrey Shacklock, John Smyth, 2002-11 This text is a collection of case studies and readings on the subject of doing research in education It takes a personal view of the experience of doing research Each author presents a reflexive account of the issues and dilemmas as they have lived through them during the undertaking of educational research Coming from the researcher s own perspectives their positions are revealed within a wider space that can be personal political social and refexive With this approach many issues such as ethics gender race validity reciprocity sexuality class voice empowerment authorship and readership are given an airing Analysing Education Policy Meghan Stacey, Nicole Mockler, 2024-02-13 Analysing Education Policy Theory and Method provides a comprehensive overview of key approaches in critical education policy research With chapters from internationally recognised and established scholars in the field this book provides an authoritative account of how different questions may be approached and answered Part 1 features chapters focused on text based approaches to analysis including critical discourse analysis thinking with Foucault Indigenist Policy Analysis media analysis the analysis of promotional texts in education and the analysis of online networks Part 2 features chapters focused on network ethnography actor network

theory materiality in policy Institutional Ethnography decolonising approaches to curriculum policy working with children and young people and working with education policy elites These chapters are supported by an introduction to each section as well as an overall introduction and conclusion chapter from the editors drawing together key themes and ongoing considerations for the field Critical education policy analysis takes many different forms each of which works with distinctly different questions and fulfils different purposes This book is the first to clearly map current common and influential approaches to answering these questions providing important guidance for both new and established researchers The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Doing Research About Education Geoffrey Walford, 2003-09-02 This book brings together semi autobiographical accounts from major educationalists about their influential research focusing on the practical and personal aspects of the research process The collection reflects the great changes that have occurred within educational research since the 1980s and deals with the issues and situations of the late 1990s It includes accounts that cover the various stages of the research process a sampling of topics the diversity of methodologies used in educational research and a range of theoretical perspectives There is coverage of qualitative and quantitative methodologies and of large and smaller scale research Also discussed are ESRC programme research contract research and theoretical research

Being Reflexive in Critical Educational and Social Research Geoffrey Shacklock, John Smyth, 1998 This book brings together a collection of case studies and readings on the subject of doing research in education It differs from other texts in taking a personal view of the experience of doing research Each author presents a reflexive account of the issues and dilemmas as they have lived through them during the undertaking of educational research The collection fills the space often referred to in critical research as the phenomenon of the missing researcher Coming from the researcher's own perspectives their positions are revealed within a wider space that can be personal political social and reflexive With this approach many issues such as ethics gender race validity reciprocity sexuality class voice empowerment authorship and readership are given a much needed airing

Intimate Accounts of Education Policy Research Camilla Addey, Nelli Piattoeva, 2021-09-30 What do we actually do when we research education policy and governance Why do we tame the messy hinterland of research into smooth accounts and what do we lose in the process In this volume distinguished scholars in education policy and governance research discuss how the practice of methods is messy subjective and provisional They approach methodology as riddled with tensions doubts troubles and mundane decisions Scholarship in this book shifts from recording the methodological hinterland to putting it to productive use as resources for thinking about the researched world and about research itself This methodological openness helps to examine how research reproduces scholars metaphysics how research is a deeply embodied process encompassing all senses how scholars' concerns interfere in the worlds they study but also how these equally interfere with researchers By challenging smooth methodological accounts

which conceal the complex and provisional nature of research this book offers new approaches in education policy and governance research that are more generative insightful and sincere Offering new ways of thinking about research methodologies the book will be of great interest to researchers academics and post graduate students in the fields of education research and education theory as well as social scientists interested in research methodologies more broadly A Guide to Educational Research Peter Gordon,2014-01-14 This account of development in educational research is intended as a guide to possible research areas both fundamental and policy related for students in colleges and higher education institutions and should also be of interest to those engaged in curriculum planning and administration A Student's Guide to Methodology Peter Clough,Cathy Nutbrown,2012-02-22 The Third Edition of this hugely popular text provides students with straightforward principles and frameworks for understanding methodology Peter Clough and Cathy Nutbrown are adept at making methodology meaningful for beginners and more advanced readers alike Their book clearly demonstrates how methodology impacts upon every stage of the research process and gives readers all of the tools that they need to understand it New to this edition are the following new boxes and guidance on research ethics in every chapter more international examples and perspectives up to date coverage of online research methods more examples from real students a new companion website featuring Powerpoint slides for lecturers The authors take an applied approach and every chapter contains a variety of practical examples from real research Readers are encouraged to reflect on their own practice at every step meaning that the book remains extremely relevant throughout It will be invaluable for all students who are doing a dissertation or taking a research methods module in education the social sciences business and health **A Political Sociology of Education Policy** Helen M.
