Handbook of Education Policy Research Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook's over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>

Reframing Assessment to Center Equity Gavin W. Henning, Gianina R. Baker, Natasha A. Jankowski, Anne E. Lundquist, Erick Montenegro, 2023-07-03 This book makes the case for assessment of student learning as a vehicle for equity in higher education The book proceeds through a framework of why what how and now what The opening chapters present the case for infusing equity into assessment arguing that assessment professionals can and should be activists in advancing equity given the historic and systemic use of assessment as an impediment to the educational access and attainment of historically marginalized populations The what chapters offer definitions of emerging terms discuss the narratives of equity in evidence of student learning present models and approaches to promoting equity and explore the relationship between

knowledge systems and assessment practice The how chapters begin by progressively moving from the classroom to the program then beyond the program level to share examples from student affairs Subsequent chapters address the problem of equitable access to STEM fields culturally responsive practices within the context of community colleges the ongoing work of culturally situated assessment practices in Historically Black Colleges and Universities and the role of technology enabled assessment as a possible tool for equitable assessment The final two chapters in the book address the now what providing a way for assessment professional to develop individual awareness within their practice as a next step in the equity journey and a conceptual framework to anchor equity in their work
