**Reshaping Teaching in Higher Education** Rosanna Breen, Angela Brew, Alan Jenkins, Roger Lindsay, 2003-12-16 Linking research with teaching is one of the main topics in the educational development world This practice based guide shows how academic research activity can be connected to academic teaching activity to ensure that neither operates in a vacuum and each can be enhanced by the other Addressing issues at the individual course and institutional level and written for an international readership this will be a key book for course leaders and educational developers

Teaching and Research in Contemporary Higher Education Jung Cheol Shin, Akira Arimoto, William K. Cummings, Ulrich Teichler, 2013-07-19 This book discusses how teaching and research have been weighted differently in academia in 18 countries and one region Hong Kong SAR based on an international comparative study entitled the Changing Academic Profession CAP It addresses these issues using empirical evidence the CAP data Specifically the focus is on how teaching and research are defined in each higher education system how teaching and research are preferred and conducted by academics and how academics are rewarded by their institution Since the establishment of Berlin University in 1810 there has been controversy on teaching and research as the primary functions of universities and academics The controversy increased when Johns Hopkins University was established in 1876 with only graduate programs and more recently with the release of the Carnegie Foundation report Scholarship Reconsidered by Ernest L Boyer in 1990 Since the publication of Scholarship Reconsidered in 1990 higher education scholars and policymakers began to pay attention to the details of teaching and research activities a kind of black box because only individual academics know how they conduct teaching and research in their own contexts

**Learning and Teaching in Higher Education** Greg Light, Susanna Calkins, Roy Cox, 2009-06-04 Around the world higher education services are challenged by increased numbers and diversity of students tougher demands for professional accountability increasing calls for educational relevance and thinning resources Learning and Teaching in Higher Education The Reflective Professional addresses key issues in the practice and theory of teaching and learning in the sector The authors draw upon theory practice and current research to provide a new way of thinking about the many aspects of learning and teaching in higher education enabling the reader to critically reflect upon their teaching

**Peer Review of Learning and Teaching in Higher Education** Judyth Sachs, Mitch Parsell, 2013-10-22 Incorporating both theoretical and practical perspectives this volume of papers explores varied aspects of peer review of teaching in higher education The section on theory features contributions from academics

based in Europe North America and Australia It provides a number of models demonstrating ways in which collegial peer commentary can enhance the quality of learning and teaching The chapters examine in detail the importance of communication and leadership and deploy evidence from one on one interviews that evince the value of considering collegiality emotions attitudes and spaces in peer review The analysis shows how these factors are central to the ways in which lecturers and teachers communicate with each other to create constructive opportunities for learning The chapters on practical considerations detail the peer review process and include case studies from institutions in Africa Europe North America and Australia which focus on different areas of the topic including peer review as a quality assurance mechanism peer review in distance education peer review in foundation courses and peer review embedded within a department and across a university The book ends with an international perspective on the role of peer review in ensuring a holistic approach to quality enhancement in learning and teaching

EBOOK: Improving Teaching and Learning in Higher Education: A Whole Institution Approach Vaneeta D'Andrea,David Gosling,2005-08-16 What are the aims of higher education What are the strategies necessary for institutional improvement How might the student experience be improved The emergence of the discourse around learning and teaching is one of the more remarkable phenomena of the last decade in higher education Increasingly universities are being required to pay greater attention to improving teaching and enhancing student learning This book will help universities and colleges achieve these goals through an approach to institutional change that is well founded on both research and practical experience By placing learning at the centre of organizational change this book challenges many of the current assumptions about management of teaching supporting students the separation of research and teaching the use of information technology and quality systems It demonstrates how trust can be restored within higher education while advancing the need for change based on principles of equity and academic values for students and teachers alike Improving Teaching and Learning in Higher Education is key reading for anyone interested in the development of teaching and learning in higher education as well as policy makers
