This book will help you to discover and access this energy, vitality, and wisdom that will help you to thrive through challenges and adversity. Noble resilience guidance will help you to feel a greater increase in self-worth and esteem through personal goal achievement and the mechanism of altruism. This book will guide you through character resilience, which is the experience of conserving energy and feeling freedom from guilt through the mechanism of living within a chosen character framework. Ecological resilience is the experience of feeling an infusion of peace and energy from varied enriching environments including colors, natural settings, music, smells, pets, and home environments among others. Universal resilience is the amazing experience of connecting to a source of wisdom, energy, and strength beyond normal consciousness. The book continues to explore ways to enrich one's intellectual resilience as well as his or her essential resilience, physical enrichment. The book then takes you on the journey of accessing strengths through the stages of the recurring resiliency process. Progression to thrive through life challenges begins with homeostasis, venturing, disruptions, using integrated health skills, experiencing answers to life challenges through resonance, and quickening and self-mastery.
