Resistance To The Shah Landowners And The Ulama In Iran:

Resistance to the Shah Mohammad Gholi Majd, 2000 Mohammad Gholi Majd examines land policy in Iran under the two Pahlavi shahs from 1925 to 1979 the social and economic consequences of the policies and their impact on the popular uprisings of 1962-63 which many scholars regard as the beginning of the Islamic revolution. Contrary to widely held views much of Iran's agricultural land up to 1960 was owned by 1-3 million small landowners. Majd points out that traditional Islamic practices of matrimony and inheritance resulted in a continuous redistribution of landownership and these customs included a system of sharecropping that fulfilled a vital social and economic function. Tenants enjoyed secure rights to the land and the water could not be easily evicted and were thus practically owners themselves. In short conditions in Iran were entirely different from those assumed in most Western theories of land policy and reform. Pressured by the United States in the 1950s to inaugurate land reform the shah in his initial attempts met with stiff resistance from parliament and the Islamic leadership. The result, Majd argues, was an effective alliance between landowners and the fundamentalist Islamic ulama, in particular Ayatollah Khomeini who emerged as the principal leader of the religious opposition. In addition to photos of the secular and religious opposition leaders the book contains many rare photos of rural Iran during the periods 1890-1911 and 1930-60. For students of Iran and the Middle East as well as those interested in agrarian change and reform this work offers a provocative and revisionist perspective on important events in Iran's recent history. Soldiers, Shahs and Subalterns in Iran S. Cronin, 2010-10-27 Against conventional views of the unchallenged hegemony of a modernizing monarchy this book argues that power was continuously contested in Riza Shah's Iran. Cronin excavates the successive challenges to Riza Shah's regime posed by a range of subaltern social groups and seeks to restore to these groups a sense of their historical agency.

The Shah Abbas Milani, 2011-01-04 The definitive biography of the last Shah of Iran tracing his dramatic rise and fall and his role in the creation of the contemporary Islamic Republic. Though his monarchy was toppled in 1979 and he died in 1980 the life of Mohammad Reza Shah Pahlavi the last Shah of Iran continues to resonate today. Here internationally respected author Abbas Milani gives us the definitive biography more than ten years in the making of the monarch who shaped Iran's modern age and with it the contemporary politics of the Middle East. The Shah's was a life filled with contradiction as a social reformer he built schools increased equality for women and greatly reduced the power of the Shia clergy. He made Iran a global power courting Western leaders from Churchill to Carter and nationalized his country's many natural resources. But he was deeply conflicted and insecure in his powerful role. Intolerant of political dissent he was eventually overthrown by the very people whose loyalty he so desperately sought. This comprehensive and gripping account shows us how Iran went from politically moderate monarchy to totalitarian Islamic republic. Milani reveals the complex and sweeping road that would bring the U.S. and Iran to where they are today. Nomadism in Iran Daniel T. Potts, 2014 Potts examines the development of nomadism in Iran over the course of three millennia. Evidence of nomadism in prehistory is

examined and found insufficient to justify claims of its great antiquity The background of the earliest nomadic groups identified as Persian tribes by Herodotus is examined within the context of the migration of Iranian speakers onto the Iranian plateau in the late second or early first millennium B C Thereafter evidence of nomadic groups in Late Antiquity and early Islamic times is reviewed

State, Religion, and Revolution in Iran, 1796 to the Present B. Moazami, 2013-11-07 Two basic assumptions have shaped understanding of recent Iranian history One is that Shi'ism is an integral part of Iran's religious and cultural landscape The other is that the ulama religious scholars have always played a crucial role This book challenges these assumptions and constructs a new synthesis of the history of state and religion in Iran from 1796 to the present while challenging existing theories of large scale political transformation Arguing that the 1979 revolution has not ended Behrooz Moazami relates political and religious transformations in Iran to the larger instability of the Middle East region and concludes that turmoil will continue until a new regional configuration evolves
