Why It's OK to Own a Gun

Ryan W. Davis, 2023-09-29 Why It's OK to Own a Gun explores the right to self defense but also looks beyond it to what gun ownership fundamentally means in American life Guns can provide a source of meaning that doesn't depend on how much money you have or how important your job is Guns can offer a sense of shared identity that's not hung up on intellectual credentials or ideological orthodoxy For many responsible gun owners owning a gun is a way of positively reclaiming one's own agency in the world It's true that guns matter to only a minority of Americans but the same could be said for many important political liberties Like freedom of religion and freedom of expression guns should be on the list of basic rights In fact they are as some in America's founding generation anticipated gun rights have offered a bulwark for republican freedom Because there is nothing morally wrong with any of these values owning a gun is OK Key Features Discusses the grounds of the political rights of gun ownership Connects the debate over guns with the sociology of gun ownership Describes genuinely worthwhile features of a way of life that's unfamiliar to many readers Considers empirical and normative aspects of the gun debate Thinks about individual rights in the context of state power

Starting With Foucault C. G. Prado,2018-03-05 Michel Foucault had a great influence upon a wide range of disciplines and his work has been widely interpreted and is frequently referred to but it is often difficult for beginners to find their way into the complexities of his thought This is especially true for readers whose background is Anglo American or analytic philosophy C G Prado argues in this updated introduction that the time is overdue for Anglo American philosophers to avail themselves of what Foucault offers In this clear and greatly revised second edition Prado focuses on Foucault s middle or genealogical work particularly Discipline and Punish and Volume One of The History of Sexuality in which Foucault most clearly comes to grips with the historicization of truth and knowledge and the formation of subjectivity Understanding Foucault s thought on these difficult subjects requires working through much complexity and ambiguity and Prado s direct

and accessible introduction is the ideal place to start Environmentalism and Economic Justice Laura Pulido,1996-02-01 Ecological causes are championed not only by lobbyists or hikers While mainstream environmentalism is usually characterized by well financed highly structured organizations operating on a national scale campaigns for environmental justice are often fought by poor or minority communities Environmentalism and Economic Justice is one of the first books devoted to Chicano environmental issues and is a study of U S environmentalism in transition as seen through the contributions of people of color It elucidates the various forces driving and shaping two important examples of environmental organizing the 1965 71 pesticide campaign of the United Farm Workers and a grazing conflict between a Hispano cooperative and mainstream environmentalists in northern New Mexico The UFW example is one of workers highly marginalized by racism whose struggle as much for identity as for a union contract resulted in boycotts of produce at the national level The case of the grazing cooperative Ganados del Valle which sought access to land set aside for elk hunting represents a subaltern group fighting the elitism of natural resource policy in an effort to pursue a pastoral lifestyle In both instances Pulido details the ways in which racism and economic subordination create subaltern communities and shows how these groups use available resources to mobilize and improve their social economic and environmental conditions Environmentalism and Economic Justice reveals that the environmental struggles of Chicano communities do not fit the mold of mainstream environmentalism as they combine economic identity and quality of life issues Examination of the forces that create and shape these grassroots movements clearly demonstrates that environmentalism needs to be sensitive to local issues economically empowering and respectful of ethnic and cultural diversity **Feminism and the Final Foucault** Dianna Taylor,Karen Vintges,2004 Feminism and the Final Foucault is the first systematic offering of contemporary international feminist perspectives on the later work of philosopher Michel Foucault Rather than simply debating the merits or limitations of Foucault s later work the essays in this collection examine women s historical self practices conceive of feminism as a shared ethos and consider the political significance of this conceptualization in order to elucidate experiment with and put into practice the conceptual tools that Foucault offers for feminist ethics and politics The volume illustrates the ways in which Foucault s later thinking on ethics as care of the self can reintroduce a number of issues and themes that feminists jettisoned in the wake of postmodernism including consciousness raising feminist therapy the subject woman identity politics and feminist agency Taken as a whole the diversity of feminist viewpoints presented provide important new insights into the final Foucault and thus serve as a productive intervention in current Foucault scholarship **The Routledge Handbook of Rhetoric and Power** Nathan Crick,2024-10-04 This handbook represents the first comprehensive disciplinary investigation into the relationship between rhetoric and power as it is expressed in different aspects of society Providing conceptual and empirical foundations for the study of the relationship between different forms of rhetorical expression and diverse structures practices habits and networks of power The Routledge Handbook of Rhetoric and Power is

divided into six parts Theoretical Foundations Propaganda Politics and the State Resistance and Social Movements Culture Society and Identity Discourses of Technique and Organization Prospects for the Future The guiding principle of this handbook is that power represents a capacity for coordinated action grounded in specific historical technological political and economic conditions It suggests that rhetoric is an art that adapts to these conditions and finds ways to transform create or undermine these capacities in other people through self conscious persuasion Featuring contributions from key scholars this accessibly written handbook will be an indispensable resource for researchers and students in the fields of rhetoric writing studies communication studies political communication and social justice Tribes of Yahweh Norman Gottwald, 1999-10-01 A twentieth anniversary reprint of the landmark book that launched the current explosion of social scientific studies in the biblical field It sets forth a cultural material methodology for reconstructing the origins of ancient Israel and offers the hypothesis that Israel emerged as an indigenous social revolutionary peasant movement In a new preface written for this edition Gottwald takes account of the sea change in biblical studies since 1979 as he reviews the impact of his work on church and academy assesses its merits and limitations indicates his present thinking on the subject and points toward future directions in the social critical study of ancient Israel and the Hebrew Bible Saving Paradise Rita Nakashima Brock, Rebecca Ann Parker, 2008 Saving Paradise offers a fascinating new lens on the history of Christianity asking how its early vision of beauty evolved into a vision of torture and what changes in society and theology marked that evolution *Playing with Identities in Contemporary Music in Africa* Annemette Kirkegaard, 2002 The musics of Africa play a particularly important role in expressing and forming identities This book brings together African and Nordic scholars from both musicology and other disciplines in an attempt to analyse various aspects of the complex playing with volatile identities in music in Africa today Taken together the papers put new light on the assumed or real dichotomies between countryside and city collective and individual tradition and modernity authentic and alien The papers are based on contributions for a conference organized by the research project Cultural Images in and of Africa of the Nordic Africa Institute together with the Sibelius Museum Department of Musicology and the Centre for Continuing Education at Åbo Akademi University in Åbo Turku Finland in October 2000 The book includes a keynote speech by Christopher Waterman UCLA and an introduction by Annemette Kirkegaard Copenhagen University Southern West and East Africa are represented in the studies which cover a great variety of musics **Mixtecs, Zapotecs, and Chatinos** Arthur A. Joyce, 2011-09-09 Mixtecs Zapotecs and Chatinos Ancient Peoples of Southern Mexico examines the origins history and interrelationships of the civilizations that arose and flourished in Oaxaca Provides an up to date summary of the current state of research findings and archaeological evidence Uses contemporary social theory to address many key problems relating to archaeology of the Americas including the dynamics of social life and the rise and fall of civilizations Adds clarity to ongoing debates over cultural change and interregional interactions in ancient Mesoamerican societies Supplemented with compelling illustrations photographs and

line drawings of various archaeological sites and artifacts Discipline and Critique Andrew Cutrofello, 1994-02-03 Andrew Cutrofello demonstrates that in light of Michel Foucault's genealogical criticisms of the juridical model of power it is possible to develop a postjuridical model of Kantian critique Recasting game theory's celebrated prisoner's dilemma in Foucauldian terms Cutrofello illuminates the techniques of mutual betrayal that train bodies to reason themselves into complicity with forces of subjugation He shows how a genealogically reformulated version of Kantian ethics can provide the basic parameters of a discipline of resistance to such forces and he argues for a more nuanced assessment of the stakes involved in the demise of philosophy as a disciplinary formation Along the way Cutrofello presents fascinating readings of Kant's own care of the self ethic drawing on the conceptual resources of Gilles Deleuze Jacques Lacan and Luce Irigaray This tour de force will prompt social theorists to reconsider the way power functions in our modern postmodern world
