A Resource Guide on Racial Profiling Data Collection Systems Deborah Ramirez,2000 **Resource Guide on Racial Profiling Data Collection Systems: Promising Practices and Lessons Learned** , The U S Department of Justice presents the full text of an article entitled A Resource Guide on Racial Profiling Data Collection Systems Promising Practices and Lessons Learned by Deborah Ramirez Jack McDevitt and Amy Farrell The article discusses the problems related to racial profiling data collection goals and limitations and recommendations for traffic stop data collection systems Racial Profiling Steven J. Muffler,2006 In recent years racial profiling has drawn the attention of state and federal governments In this book racial profiling is defined as the practice of targeting individuals for police or security interdiction detention or other disparate treatment based primarily on their race ethnicity or national origin in the belief that certain minority groups are more likely to engage in unlawful behaviour Assertions that law enforcement personnel at all levels unfairly target certain racial and ethnic groups particularly but not exclusively for traffic stops and searches have raised concerns about violations of the Constitution The major debate on racial profiling centres on whether the practice should be prohibited entirely and whether data on traffic stops and searches should be collected to determine if the practice is occurring This book gathers presents the major issues available data and analyses important to understanding on the most dangerous and divisive practices of our time *NCJRS Catalog* ,1998 FBI Law Enforcement Bulletin ,2002 *Racial Profiling* Anthony Gennaro Vito,2016-12-08 Racial Profiling Using Propensity Score Matching to Examine Focal Concerns Theory combines theory and propensity score matching to offer readers a better understanding of racial profiling through traffic stop data concerning the race and gender of the driver The book examines the likelihood of a citation search or consent search for similarly situated African American and Caucasian drivers in general similarly situated African American and Caucasian male drivers and similarly situated African American and Caucasian female drivers Whether and why police exercise racial profiling in their decisionmaking is one of the most hotly debated topics in criminal justice In this work Anthony Vito uses Focal Concerns Theory to explain police officer decisionmaking in traffic stop outcomes via propensity score matching revealing the intersectional dynamics of racial profiling and gender bias by the Louisville Police Department The unique approach of looking at the Focal Concerns Theory components of blameworthiness protection of the community and practical constraints and consequences together with propensity score matching provides a theoretical lens for analysis and a model for future studies This book is an original and timely resource for researchers scholars practitioners and other stakeholders focusing on the problem of racial profiling in policing **The Handbook of Measurement Issues in Criminology and Criminal Justice** Beth M. Huebner,Timothy S. Bynum,2016-04-13 This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology The work as a whole includes chapters on the measurement of criminal typologies the offenders offending

and victimization criminal justice organizations and specialized measurement techniques Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area More importantly each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research The goal of this volume is to provide a definitive reference for professionals in the field researchers and students This volume in the Handbooks in Criminology and Criminal Justice series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues In each chapter authors provide a summary of the prominent data collection efforts in the topical area provide an overview of the current methodological work discuss the challenges in the measurement of central concepts in the subject area and identify new horizons emerging in data collection and measurement We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate

Terrorist Profiling and Law Enforcement Noel McGuirk, 2021-02-10 This book analyses the usefulness of terrorist profiling utilised by law enforcement officers as a pre emptive means to assist them in the detection prevention and deterrence of terrorism and or its preparatory activities It explores two main themes arising from the phenomenon of terrorist profiling the lawfulness of terrorist profiling and the utility of profiling These two themes are explored in three separate parts Firstly the book begins by drawing upon human rights concerns arising from the use of terrorist profiling by law enforcement officers Secondly an analytical framework capable of making determinations on the usefulness of terrorist profiling This framework develops a profiling spectrum that ranges from formal and informal manifestations of terrorist profiling that forms the basis for evaluating its usefulness Finally the book presents an examination of various manifestations of terrorist profiling by separating the analysis of the construction of profiles on the one hand from their application on the other so as to be able to identify and examine profiling s usefulness as a technique to assist law enforcement officers make predictions about likely offender characteristics This book ultimately concludes that terrorist profiling should only be conducted by undertaking a systematic assessment of the construction of profiles separate from the application of profiles whilst simultaneously taking into account fundamental human rights concerns with the practice of terrorist profiling The work will be an essential resource for academics law enforcement officers and lawyers in the disciplines of law criminology human rights criminal justice and policing As the book engages with terrorist profiling it will also be of interest to those engaged in the psychology of terrorism

RACIAL PROFILING Darin D. Fredrickson, Raymond P. Siljander, 2002-01-01 This book was written to eliminate confusion regarding what has come to be called racial profiling by clarifying the legitimate law enforcement practice of criminal profiling and by clarifying what constitutes unfair discrimination and persecution This book was written

to benefit sociology students law enforcement officers and anyone else in a position to be concerned with or affected by the profiling issue Police administrators judges and legislators must adequately understand the topics and their many ramifications if they are to make decisions that are based on fact rather than stereotype and myth and free from the influence of adverse social and political pressures And attorneys when prosecuting or defending cases wherein profiling and discrimination is an issue must have good insight into the many interrelated dynamics of the topics to properly prepare and argue their case This writing explores difficult social issues that are often poorly understood but issues that need to be understood if solutions are to be meaningful And a poorly conceived solution is especially likely when the issues are both complex and controversial In this book the writers acknowledge that while criminal profiling is a necessary and legitimate law enforcement practice unchecked bias can pollute the practice And while they acknowledge that measures to detect those whose enforcement practices reflect bias can have merit they emphasize that such efforts must be in addition to the hiring of high caliber officers providing quality training providing competent leadership and on a properly staffed and trained Internal Affairs department But the authors also emphasize the unfortunate fact that many efforts intended to prevent bias are to varying degrees ineffectual and create collateral problems Germane to that discussion is illumination of the difficulties of monitoring fair treatment policies and the unintended problems that often accompany consent decrees

Racial Profiling

Karen S. Glover, 2009-08-16 Karen S Glover investigates the social science practices of racial profiling inquiry examining their key influence in shaping public understandings of race law and law enforcement Commonly manifesting in the traffic stop the association with racial minority status and criminality challenges the fundamental principle of equal justice under the law as described in the U S Constitution Communities of color have long voiced resistance to racialized law and law enforcement yet the body of knowledge about racial profiling rarely engages these voices Applying a critical race framework Glover provides in depth interview data and analysis that demonstrate the broad social and legal realms of citizenship that are inherent to the racial profiling phenomenon To demonstrate the often subtle workings of race and the law in the post Civil Rights era the book includes examination of the 1996 U S Supreme Court's Whren decision a judicial pronouncement that allows pretextual action by law enforcement and thus widens law enforcement powers in decisions concerning when and against whom law is applied

Consumer Equality

Geraldine Rosa Henderson, Anne-Marie Hakstian, Jerome D. Williams, 2016-09-26 This book provides a vivid examination of the issue of consumer inequality in America one of society's most under discussed and critical issues through the evaluation of real life cases the trend of consumers suing companies for discrimination and the application of novel frameworks to establish legitimate consumer equality Everyone regardless of race gender or other appearance based factors should receive equal access and equal treatment in businesses open to the public Unfortunately consumer equality has yet to be achieved In fact marketplace discrimination remains a pervasive problem in the United States in spite of racial inroads on other fronts employment and housing for example Consumer Equality Race and

the American Marketplace is the first book to elucidate how consumer discrimination remains an unresolved pressing and complex issue. Written by three well established experts on consumer discrimination and business law who have presented their research and opinions to national and local media and as expert witnesses in court cases, this book examines the multilayered problem that results in citizens being suspected of committing a crime or detained by police or security personnel because of their ethno racial background. This book could be considered required reading for representatives of large corporations, small businesses, and any organization interested in avoiding charges of marketplace discrimination, as well as civil rights groups, community organizations, and organizations concerned about social justice.

Race, Ethnicity, and Policing Stephen K Rice, Michael D White, 2010-03-01 From Rodney King and driving while black to claims of targeting of undocumented Latino immigrants, relationships surrounding race, ethnicity, and the police have faced great challenge. *Race, Ethnicity, and Policing* includes both classic pieces and original essays that provide the reader with a comprehensive, even handed sense of the theoretical underpinnings, methodological challenges, and existing research necessary to understand the problems associated with racial and ethnic profiling and police bias. This path breaking volume affords a holistic approach to the topic, guiding readers through the complexity of these issues, making clear the ecological and political contexts that surround them, and laying the groundwork for future discussions. The seminal and forward thinking twenty two essays clearly illustrate that equitable treatment of citizens across racial and ethnic groups by police is one of the most critical components of a successful democracy, and that it is only when agents of social control are viewed as efficient, effective, and legitimate that citizens will comply with the laws that govern their society. The book includes an introduction by Robin S Engel and contributions from leading scholars including Jeffrey A Fagan, James J Fyfe, Bernard E Harcourt, Delores Jones, Brown Ramiro Martinez Jr, Karen F Parker, Alex R Piquero, Tom R Tyler, Jerome H Skolnick, Ronald Weitzer, and many others.

Snapshots of Research Richard D. Hartley, 2010-10-20 Immerse your students in contemporary and classic scholarly research and readings from the major branches of the criminal justice system. This text reader is a comprehensive, cutting edge overview of the main research methods used in the fields of criminology and criminal justice. *Snapshots of Research* offers a wide range of modern research examples, as well as several classic articles, including a broad range of readings from the four major branches of the criminal justice system: policing, courts, law, juvenile justice, and corrections that are relevant to career paths students may be interested in pursuing.

Police Stops and Ethnic Profiling in Bulgaria Philip Gounev, 2006

Racial Issues in Criminal Justice Marvin D. Free, 2003-09-30 Almost a third of all African American men in their twenties in the United States are in jail or prison, or on probation or parole. African Americans, who comprise approximately 13% of the general population, make up about half of the prison population. Between 1980 and 2000, 38 states added more African American men to their prison systems than were added to their respective systems of higher education. However, these statistics fail to tell the entire story. To understand how the dynamics of disproportionate minority confinement came to exist, one must examine

the historical and cultural antecedents that affected and continue to affect this group Examining proposed solutions and providing alternative perspectives this volume addresses the overrepresentation of African Americans in the criminal justice system by critically examining the significance of race in American society and criminal justice responses to crime and African Americans Offering a critical examination of the issues this collection begins with a discussion of the marginalization of African Americans in the academic discipline of criminal justice and in the larger society an assessment of the impact of the legacy of slavery on private prisons and mass imprisonment and an empirical examination of the depiction of African Americans in prime time television crime programs Part II looks at racial profiling the underrepresentation of African Americans in hate crime victimization research the impact of race on presentencing the trend toward trying juveniles in adult court and the discriminatory treatment of African Americans in capital eligible cases Finally Part III discusses the impact of African American police officers on the profession analyzes black juror nullification proposes an increase in the presence of African American jurors and assesses the potential ameliorative impact of restorative justice on the current racial imbalance in the criminal justice system *Measuring Racial Discrimination* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Methods for Assessing Discrimination, 2004-06-24 Many racial and ethnic groups in the United States including blacks Hispanics Asians American Indians and others have historically faced severe discrimination pervasive and open denial of civil social political educational and economic opportunities Today large differences among racial and ethnic groups continue to exist in employment income and wealth housing education criminal justice health and other areas While many factors may contribute to such differences their size and extent suggest that various forms of discriminatory treatment persist in U S society and serve to undercut the achievement of equal opportunity *Measuring Racial Discrimination* considers the definition of race and racial discrimination reviews the existing techniques used to measure racial discrimination and identifies new tools and areas for future research The book conducts a thorough evaluation of current methodologies for a wide range of circumstances in which racial discrimination may occur and makes recommendations on how to better assess the presence and effects of discrimination
