## **Institutional reform in NBR**

- Establish separate unit for tax-base identification, tax assessment and realization. Unified responsibility of existing taxation process creating scope of corruption that to be eliminated if we expect the revenue augmentation.
- Reinstate the tax ombudsman which is now a sort of inactive. Absent of tax ombudsman cause of suffering for people in taxation process those are really enthusiastic for tax paying, on the other govt. is being deprived from her expected tax due to undue domination by the NBR officials and a few fraud companies also.
- NBR should capacitated to imposed discriminatory tax rate based on the economic activities and their out & impact on employment & service that is prevailed in different developed and developing countries. Tax realization showing in shamble due to absent of policy related discriminatory taxation process in Bangladesh.

Countries provides a conceptual framework for property tax reform with the intention of making the most compelling  
argument possible to persuade the reader as to its validity The text claims that a model for property tax reform in developing  
countries is derived from a theoretical distillation of empirical experience The primary objective of this study is to establish  
through logic theory and observation what constitutes a good property tax system for whom and under what conditions why  
such a system works and how inferior systems can be upgraded to approximate well functioning systems Property Tax  
Reform in Developing Countries develops its examination in three stages First a conceptual framework is presented for the  
formulation implementation and evaluation of property tax reform in developing countries Second attempts to reform  
property taxation in four developing countries are examined in detail Finally the results of the reform efforts described in the  
four case studies are evaluated and guidelines for reform are offered The study concludes with specific recommendations for  
reforming property tax systems in developing countries based on the conceptual framework and synthesizing lessons of the  
case studies      *Improving Resource Mobilization in Developing Countries and Transition Economies* ,2002 This publication

**Developing a Sustainable Economy in Cameroon** Aloysius Ajab Amin,2008 Developing a Sustainable Economy in Cameroon is an ambitious effort as the authors try to set a blue print for Cameroon s economy In the 1980s facing economic crisis and as dictated by the structural adjustment programme Cameroon sharply cut public investment expenditures before later cutting government consumption which were followed by privatisation liquidation of public companies and reduction in the size of the public sector All these measures are believed to have had devastating effects on the economy Given the performance of the economy so far the authors suggest that much more effort with a strong commitment of the main stakeholders is required to guarantee sustainable economic development in Cameroon Truly very few countries in Africa possess such enormous human and natural resources as Cameroon does This volume brings out the challenges Cameroon faces in its quest for development as well as for designing appropriate strategies for addressing those development challenges

State in Comparative Perspective Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent

Decision making is at the heart of governing and governance and is a more challenging task compared to just a few decades ago as a result of increasing social complexity and globalization In this book B Guy Peters and Jon Pierre propose a new framework for the comparative analysis of governance arguing that government remains a central actor in governance By articulating the functionalist dimension of governance they show how goal setting resource mobilization decision making implementation and feedback can be performed by a combination of different types of actors Even so effective governance requires a leading role for government The framework is also applied to a taxonomy of governance arrangements and national styles of governing Comparative Governance advances our knowledge about governance failure and how forms of governance may change It also significantly strengthens the theory of governance showing how governance can be studied conceptually as well as empirically
