THEORY OF CHANGE

STRATEGIES

How do we make change?

CELEBRATING & REFLECTING

We celebrate diverse cultures, histories and expressions through events, projects and campaigns. We reflect, evaluate and learn from our work in order to continue to inform our understanding of community.

OUR DEFINITION

Community development is a process where people come together to take action on what's important to them. Community Development helps communities to organize, and to identify the issues they want to address, or the opportunities they want to explore.

MOBILIZING & ADVOCATING

Responding to community issues with innovation systems thinking, and strategies to address the root causes of inequities. Mobilizing community members to engage politically and socially towards systemic change that supports an equitable and just society.

IMPACTS

What are we working toward?

BELONGING

A neighbourhood where everyone belongs, fully participates and shares their unique gifts. A neighbourhood where no one feels isolated and our communities have the resources to experience wellbeing, joy, and celebration.

COMMUNITY LEADERSHIP

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

EQUITY & JUSTICE

A neighbourhood that is committed to ongoing processes of anti-racism, identifying and redistributing power, decolonizing, and advocating for systemic change towards an equitable and just society.

COMMUNITY HEALTH & RESILIENCY

A neighbourhood where community members care for one another and support each other. Community Members, groups, and organisations collaborate by working together to build capacity and are empowered to create changes.

RESOURCING

We provide information and education to community members. Individuals and groups are supported in their learning journey. Sharing of power? Access? using the power and resources we have to support community needs.

CONNECTING

We provide low-barrier and accessible opportunities for people to connect with each other, the community, and the land. We foster relationship-building between people and groups who may not usually connect, including intergenerational and intercultural connections. We build and support networks of residents and community partners that work toward positive change in the community.

Responding to Social Change Basil Honikman, 1975 Resources in Education , 1997 **Community Development Abstracts** Sociological Abstracts, inc., New York, 1964 Combat Poverty Agency Annual Report 2000 , *Innovative Community Responses to Disaster* Brent Hales, Norman Walzer, James Calvin, 2017-10-02

Increasingly community leaders around the world face major natural and economic disasters that require them to find ways to rebuild both physical infrastructure and the local economy. Doing this effectively requires an understanding of how various parts of the community are interconnected as well as information as to which revitalization approaches have succeeded in the past. Community investment in recovery is essential and in some cases may require local leaders to rethink how it can be financed and arranged. This book presents a conceptual framework based on the community capitals and describes approaches that have succeeded in situations where local leaders have coordinated efforts to rebuild and revitalize local conditions. Contributions provide examples of successful approaches around the world thus analysing potential strategies for addressing disasters of many different types in various cultural settings. In this way the book provides insights into a variety of approaches based on applications of accepted community development theory and concepts. This book was originally published as a special issue of *Community Development*.

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza, Hugh Mangeya, Isaac Mhute, 2024-06-17. This handbook provides a detailed and sustained examination of the scope, purpose and practical application of crisis and disaster management communication in this critical region of the African continent, sub-Saharan Africa (SSA). The volume lays the foundation that enables a nuanced appreciation of two significant issues. The first pertains to SSA's vulnerability to both natural and man-made phenomena. Secondly, it argues that communication plays a critical role in so far as the identification, social construction, raising awareness, preparation, mitigation and eradication of crises and disasters in the region. Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence. This handbook is a key resource for academics, students and practitioners in areas such as political communication, media communication, language and communication, brand communication, social digital media communication and crisis communication among others.
