Restoration Historians And The English Civil War

Lloyd Bowen, Mark Stoye

Restoration Historians And The English Civil War:

Restoration Historians and the English Civil War Royce MacGillivray, 1974 **Restoration Historians and the English Civil War** R.C. MacGillivray, 2012-12-06 This is a study of the histories of the English Civil War or some aspects of it written in England or by Englishmen and Englishwomen or published in England up to 1702 the year of the publication of the first volume of Clarendon's History of the Rebellion By the terms of this definition Clarendon is himself of course one of the historians studied Clarendon's History is so formidable an achievement that all historians writing about the war before its publication have an air of prematureness Nevertheless as I hope the following pages will show they produced a body of writing which may still be read with interest and profit and which anticipated many of the ideas and attitudes of Clarendon's History I will even go so far as to say that many readers who have only a limited interest or no interest in the Civil War are likely to find many of these historians interesting should their works come to their attention for their treatment of the problems of man in society for their psychological acuteness and for their style But while I intend to show their merits my main concern will be to show how the Civil War appeared to historians including Clarendon who wrote within one or two generations after it that is to say at a time when it remained part of the experience of people still alive A word is necessary on terminology Restoration Historians and Their Interpretations of the English Civil War Royce Cooper MacGillivray, 1965

Remembering the English Civil Wars Lloyd Bowen, Mark Stoye, 2021-10-17 *Remembering the English Civil Wars* is the first collection of essays to explore how the bloody struggle which took place between the supporters of king and parliament during the 1640s was viewed in retrospect The English Civil Wars were perhaps the most calamitous series of conflicts in the country's recorded history Over the past twenty years there has been a surge of interest in the way that the Civil Wars were remembered by the men women and children who were unfortunate enough to live through them The essays brought together in this book not only provide a clear and accessible introduction to this fast developing field of study but also bring together the voices of a diverse group of scholars who are working at its cutting edge Through the investigation of a broad but closely interrelated range of topics including elite popular urban and local memories of the wars as well as the relationships between civil war memory and ceremony material culture and concepts of space and place the essays contained in this volume demonstrate with exceptional vividness and clarity how the people of England and Wales continued to be haunted by the ghosts of the mid century conflict throughout the decades which followed The book will be essential reading for all students of the English Civil Wars Stuart Britain and the history of memory *The Civil Wars After 1660* Matthew Neufeld, 2013 Drawing upon the interdisciplinary field of social memory studies this book opens up new vistas on the historical and political culture of early modern England This book examines the conflicting ways in which the civil wars and Interregnum were remembered constructed and represented in seventeenth and eighteenth century England It argues that during the late Stuart period public remembering of the English civil wars and Interregnum was not concerned with re

fighting the old struggle but rather with commending and justifying or contesting and attacking the Restoration settlements After the return of King Charles II the political nation had to address the question of remembering and forgetting the recent conflict The answer was to construct a polity grounded on remembering and scapegoating puritan politics and piety The proscription of the puritan impulse enacted by the Restoration settlements was supported by a public memory of the 1640s and 1650s which was used to show that Dissenters could not and should not be trusted with power Drawing upon the interdisciplinary field of social memory studies this book offers a new perspective on the historical and political cultures of early modern England and will be of significant interest to social cultural and political historians as well as scholars working in memory studies Matthew Neufeld is Lecturer in early modern British history at the University of Saskatchewan Canada

English Society, 1660-1832 J. C. D. Clark, 2000-03-16 An extensively revised edition of a classic of modern historiography

Revolution remembered Edward Legon, 2019-03-11 After the Restoration parliamentarians continued to identify with the decisions to oppose and resist crown and established church This was despite the fact that expressing such views between 1660 and 1688 was to open oneself to charges of sedition or treason This book uses approaches from the field of memory studies to examine seditious memories in seventeenth century Britain asking why people were prepared to take the risk of voicing them in public It argues that such activities were more than a manifestation of discontent or radicalism they also provided a way of countering experiences of defeat Besides speech and writing parliamentarian and republican views are shown to have manifested as misbehaviour during official commemorations of the civil wars and republic The book also considers how such views were passed on from the generation of men and women who experienced civil war and revolution to their children and grandchildren **Aspects of Violence in Renaissance Europe** Dr Jonathan Davies, 2013-09-28

Interest in the history of violence has increased dramatically over the last ten years and recent studies have demonstrated the productive potential for further inquiry in this field The early modern period is particularly ripe for further investigation because of the pervasiveness of violence Certain countries may have witnessed a drop in the number of recorded homicides during this period yet homicide is not the only marker of a violent society This volume presents a range of contributions that look at various aspects of violence from the fourteenth to the seventeenth centuries from student violence and misbehaviour in fifteenth century Oxford and Paris to the depiction of war wounds in the English civil wars The book is divided into three sections each clustering chapters around the topics of interpersonal and ritual violence war and justice and the law Informed by the disciplines of anthropology criminology the history of art literary studies and sociology as well as history the contributors examine all forms of violence including manslaughter assault rape riots war and justice Previous studies have tended to emphasise long term trends in violent behaviour but one must always be attentive to the specificity of violence and these essays reveal what it meant in particular places and at particular times John Lilburne and the Levellers John Rees, 2017-09-08 John Lilburne 1615 1657 or Freeborn John as he was called by the London crowd was an important political

agitator during the English Revolution He was one of the leading figures in the Levellers the short lived but highly influential radical sect that called for law reform religious tolerance extended suffrage the rights of freeborn Englishmen and a new form of government that was answerable to the people and underpinned by a written constitution This edited book assesses the legacy of Lilburne and the Levellers 400 years after his birth and features contributions by leading historians They examine the life of Lilburne who was often imprisoned and even tortured for his beliefs and his role as an inspirational figure even in contemporary politics They also assess his writings that fearlessly exposed the hypocrisy and self serving corruption of those in power whether King Charles I or Oliver Cromwell They look at his contribution to political ideas his role as a revolutionary leader his personal and political relations with his wife Elizabeth his exile in the Netherlands his late decision to become a Quaker and his reputation after his death This collection will be of enormous interest to academics researchers and readers with an interest in the English Civil War seventeenth century history and the contemporary legacy of radical political tradition

Samuel Pepys and his Books Kate Loveman, 2015-06-12 Samuel Pepys was a great collector of books news and gossip This study uses his surviving papers to examine reading practices collecting and the exchange of information in the late seventeenth century Offering the first extensive history of reading during the Restoration it traces developments in the book trade and news transmission at a time when England was the scene of dramatic political and religious upheavals The investigation goes beyond Pepys s famous diary of the 1660s employing a variety of sources to explore the role that reading played in Pepys s life and in the lives of his contemporaries It begins by examining what it meant to be a reader in Restoration London the skills the people and the places involved Pepys s wide ranging interests serve as starting points for considering news exchange and the reception of major literary genres in the Restoration Particular attention is given to conduct books histories religious works and recreational reading romances drama and novels The appeal that these works held for readers was not always what we might expect or indeed what the authors and publishers had expected Additional chapters explore the social interactions surrounding information gathering the ways people acquired oral and written news in London the experience of book buying and the acquisition of manuscript and print through social networks Analysed alongside other records Pepys s papers provide unrivalled insights into literary and cultural developments in the second half of the seventeenth century

The Cambridge History of English Literature, 1660-1780 John Richetti, 2005-01-06 The Cambridge History of English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the

period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully

Laudian and Royalist polemic in seventeenth-century England Anthony Milton, 2013-07-19 This is the first full length study of one of the most prolific and controversial polemical authors of the seventeenth century Newly available in paperback it provides a detailed analysis of the ways in which Laudian and royalist polemical literature was created tracing continuities and changes in a single corpus of writings from 1621 through to 1662 In the process the author presents important new perspectives on the origins and development of Laudianism and Anglicanism and on the tensions within royalist thought Milton's book is neither a conventional biography nor simply a study of printed works but instead constructs an integrated account of Peter Heylyn's career and writings in order to provide the key to understanding a profoundly polemical author Throughout the book Heylyn's shifting views and fortunes prompt an important reassessment of the relative coherence and stability of royalism and Laudianism Historians of early modern English politics and religion and literary scholars will find this book essential reading

Women Writing the English Republic, 1625-1681 Katharine Gillespie, 2017-04-07 Scholars have fiercely debated the causes of the English Civil Wars and the rise of anti-monarchical and republican thought a century before the American Revolution This ambitious and highly original book is the first to argue that women played a significant role in formulating and enacting English republican precepts Even as feminists contend that republicanism's division of the private from the public sphere excluded women from political power Gillespie demonstrates how seventeenth century Englishwomen articulated republicanism's key insight meaningful action political or otherwise does and should take place outside the purview of government in spheres that not only include women but that women helped construct Drawing on the works of six women writers of the period the book examines their writings and explores the key themes and concepts that they build upon

The Debate on the English Revolution R. C. Richardson, 1998-12-15 Analyses the different ways in which historians over the last three centuries have tried to explain the causes course and consequences of the English Revolution

Politics and Opinion in Crisis, 1678-81 Mark Knights, 2006-03-09 A reassessment of the succession crisis 1678-81 and the political crisis it provoked

Cavalier Generals John Barratt, 2004-09-30 Previous studies of the Royalist high command have concentrated largely upon a handful of notable individuals such as King Charles himself and Prince Rupert In this ground breaking study John Barratt re-examines these key figures but he also explores the careers and characters of some of the lesser known but equally able Royalist officers These men played decisive roles in the war but hitherto they have received little attention

Neoclassical History and English Culture P. Hicks, 1996-10-11 This book looks at neo-classicism as a context for understanding early modern English historical writing and traces the implications of neo-classical history for English political culture at large By paying close attention to historical genres and audiences it reassesses both the famous and lesser known historians of this era dramatizing them as engaged in a struggle to preserve ancient models of historical composition in the face of a rapidly modernizing society characterized by party politics print Christianity and antiquarian

erudition **Companion to Historiography** Michael Bentley, 2006-02-27 The Companion to Historiography is an original analysis of the moods and trends in historical writing throughout its phases of development and explores the assumptions and procedures that have formed the creation of historical perspectives Contributed by a distinguished panel of academics each essay conveys in direct jargon free language a genuinely international wide angled view of the ideas traditions and institutions that lie behind the contemporary urgency of world history Companion to Historiography Michael Bentley, 2006-02-27 This Companion presents a clear thematic overview of historiography explored through a series of stimulating and wide ranging articles Compiled by experts in the field the Companion is fully indexed for ease of access

Lucy Hutchinson and the English Revolution Claire Gheeraert-Graffeuille, 2022-09-12 In Lucy Hutchinson and the English Revolution Claire Gheeraert Graffeuille explores Lucy Hutchinson s historical writings and the Memoirs of the Life of Colonel Hutchinson which although composed between 1664 and 1667 were first published in 1806 The Memoirs were a best seller in the nineteenth century but largely fell into oblivion in the twentieth century They were rediscovered in the late 1980s by historians and literary scholars interested in women s writing the emerging culture of republicanism and dissent By approaching the Memoirs through the prism of history and form this book challenges the widely held assumption that early modern women did not and could not write the history of wars a field that was supposedly gendered as masculine On the contrary Gheeraert Graffeuille shows that Lucy Hutchinson a reader of ancient history and an outstanding Latinist was a historian of the English Revolution to be ranked alongside Richard Baxter Edmund Ludlow and Edward Hyde

The Enigmatic Realm of **Restoration Historians And The English Civil War**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Restoration Historians And The English Civil War** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those who partake in its reading experience.
