Rethink, 1972 **Foresight** Denis Loveridge, 2008-08-01 Since the early 1990s interest in foresight has undergone one of its periodic resurgences and has led to a rapid growth in formal foresight studies backed by governments and transnational institutions including many from the United Nations However texts that counterbalance in depth practical experience with an exposition and integration of the m **The Communal Experience of the Kibbutz** Joseph Blasi, 2017-07-28 Joseph Blasi documents and describes the workings of an existing kibbutz society to provide a model for Utopian thinking and clear up confusion concerning Utopian values He details the history and development of Kibbutz Vatik a pseudonym providing a systematic record of kibbutz culture daily life and social arrangements economic cooperation and work politics education and attitudes of community members Despite its advantages as a model Utopia the kibbutz is not a perfect society Having eliminated the most serious forms of social economic political and educational fragmentation and violence the communal group is left with the complicated and mounting problems of keeping a fellowship alive and well Blasi assesses the community's advantages and disadvantages illuminating the interlocking dilemmas that cut across social and political concerns The Communal Experience of the Kibbutz updates our knowledge of kibbutz life in light of recent research It gives a detailed account of the Utopian community in the kibbutz and its activities The special quality of the kibbutz Blasi argues lies not so much in its proven success vis a vis other communal societies but in that it is a communal alternative that most Western peoples can readily visualize as a real option Human Behavior and Environment Irwin Altman, Joachim F. Wohlwill, 2013-11-11 This is the first in a series of volumes concerned with research encompassed by the rather broad term environment and behavior The goal of the series is to begin the process of integration of knowledge on environmental and behavioral topics so that researchers and professionals can have material from diverse sources accessible in a single publication The field of environment and behavior is broad and interdisciplinary with researchers drawn from a variety of traditional disciplines such as psychology sociology anthropology geography and other social and behavioral sciences and from the biological and life sciences of medicine psychiatry biology and ethology The interdisciplinary quality of the field is also reflected in the extensive involvement of environmental professionals from architecture urban planning landscape architecture interior design and other fields such as recreation and natural resources to name just a few At present the field has a somewhat chaotic flavor with research being carried out by a variety of scholars who publish in a multitude of outlets Many researchers and practitioners are unaware of the state of knowledge regarding a specific topic because of the unavailability of integrated reference materials There are only a handful of books dealing with environment and behavior most of them unintegrated collections of readings with only an occasional systematic analysis of some facet of the field *Technology and Contemporary Life* P.T.
