**Security Challenges and Military Politics in East Asia** Jongseok Woo,2011-02-24 **Debating Civil-Military Relations in Latin America** David R Mares,Rafael Martinez,2013-09-01 The study of civil military relations in Latin America produced a rich debate and research agenda prior to 2000 But this agenda was largely abandoned during the past decade as the spectre of military dictatorship has virtually disappeared with the political role of the military in many countries dramatically diminished Indeed in no country that has initiated a process of holding the military accountable to civilian control has the military openly rebelled Yet the institutions and public attitudes that guarantee democratic civilian control of the military exist in a general context of political polarisation citizen insecurity and in many countries a sense of developing ungovernability The military coup in Honduras 2009 the military response to the police rebellion in Ecuador 2010 and the speculation concerning the Venezuelan military s behaviour in the event that Hugo Chavez is incapacitated or dies 2013 demonstrates the relevance and importance of the civil military relationship today In this volume leading scholars from Latin America the U S and Spain debate the ability of contemporary Latin American civil military relationships to weather these challenges The authors examine new types of regimes the rise of participatory democracy new political orientations the renaissance of the Left in Latin America and new missions for the military Debate centres on the indicators to evaluate the level of consolidation of civilian control the manner in which these indicators are measured and the empirical ambiguities that arise These challenges must be confronted in order to effectively address the question of how much progress has been made in the region in subordinating the military to civilian control which countries are lagging behind and why Published in association with CILAS University of California San Diego **The Political Resurgence of the Military in Southeast Asia** Marcus Mietzner,2012-11-12 In the late 1990s prominent scholars of civil military relations detected a decline in the political significance of the armed forces across Southeast Asia A decade later however this trend seems to have been reversed The Thai military launched a coup in 2006 the Philippine armed forces expanded their political privileges under the Arroyo presidency and the Burmese junta successfully engineered pseudo democratic elections in 2010 This book discusses the political resurgence of the military in Southeast Asia throughout the 2000s Written by distinguished experts on military affairs the individual chapters explore developments in Burma Thailand the Philippines Vietnam East Timor Indonesia and Singapore They not only assess but also offer explanations

for the level of military involvement in politics in each country. Consequently, the book also makes a significant contribution to the comparative debate about militaries in politics. Whilst conditions obviously differ from country to country, most authors in this book conclude that the shape of civil-military relations is not predetermined by historic economic or cultural factors but is often the result of intra-civilian conflicts and divisive or ineffective political leadership. *The Comparative Method and Civil-Military Relations* J. Bayo Adekunle, 2024-10-11. Comprising critical writings in civil-military relations theory and research, this book of essays integrates the ideas and insights drawn from political science, particularly its subfields of comparative politics, theory and methodology, both normative and empirical, with those from the combined disciplines of philosophy of science, history, sociology, and development studies, bringing out the relevance of these ideas and insights for understanding and analysing the issues central to the place and role of military in the Nigerian society. This book will be useful to students, academics, journalists, and activists working on Nigeria in particular and Africa in general. Print edition not for sale in Nigeria. *State and Soldier in Latin America* Wendy Hunter, 1996. Recent years have given rise to an intense debate about the boundaries and appropriate missions of Latin America's armed forces. This report examines the efforts of civilian leaders in Latin America to identify missions for their militaries appropriate to both the security environment of the post-Cold War era and to civil-military relations in a democracy and to provide ways militaries will effectively adopt these missions. It also analyses the implications for democracy and civilian control of specific roles for the armed forces that are either under consideration or already underway in Argentina, Brazil, and Chile. *Eroding Military Influence in Brazil* Wendy Hunter, 2000-11-09. Wendy Hunter explores civil-military relations in Brazil following the transition to civilian leadership in 1985. She documents a marked and surprising decline in the political power of the armed forces even as they have remained involved in national policy making. To account for the success of civilian politicians, Hunter invokes rational choice theory in arguing that politicians will contest even powerful forces in order to gain widespread electoral support. Many observers expected Brazil's fledgling democracy to remain under the firm direction of the military, which had tightly controlled the transition from authoritarian to civilian rule. Hunter carefully refutes this conventional wisdom by demonstrating the ability of even a weak democratic regime to expand its autonomy relative to a once powerful military thanks to the electoral incentives that motivate civilian politicians. Based on interviews with key participants and on extensive archival research, Hunter's analysis of developments in Brazil suggests a more optimistic view of the future of civilian democratic rule in Latin America. *Soldiers, Politicians, and Civilians* David Pion-Berlin, Rafael Martínez, 2017-07-31. This book argues that for a nation to become fully democratic, it must strengthen the interactions between its soldiers, politicians, and civilians. **Civil-Military Relations in Russia and Eastern Europe** David Betz, 2004-07-31. This book examines how civil-military relations have been transformed in Russia, Poland, Hungary, and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991. It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new

economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces

**Civilian Control of the Military** Michael C. Desch, 2001-03-20 Power and Military Effectiveness is an instructive reassessment of the increasingly popular belief that military success is one of democracy's many virtues International relations scholars policy makers and military minds will be well served by its lessons BOOK JACKET

**The Soldier and the Changing State** Zoltan Barany, 2012-09-16 The Soldier and the Changing State is the first book to systematically explore on a global scale civil military relations in democratizing and changing states Looking at how armies supportive of democracy are built Zoltan Barany argues that the military is the most important institution that states maintain for without military elites who support democratic governance democracy cannot be consolidated Barany also demonstrates that building democratic armies is the quintessential task of newly democratizing regimes But how do democratic armies come about What conditions encourage or impede democratic civil military relations And how can the state ensure the allegiance of its soldiers Barany examines the experiences of developing countries and the armed forces in the context of major political change in six specific settings in the wake of war and civil war after military and communist regimes and following colonialism and unification apartheid He evaluates the army building and democratization experiences of twenty seven countries and explains which predemocratic settings are most conducive to creating a military that will support democracy Highlighting important factors and suggesting which reforms can be expected to work and fail in different environments he offers practical policy recommendations to state builders and democratizers

*Civil-Military Relations in Post-Conflict Societies* Orlando J. Pérez, 2015-04-10 Guatemala El Salvador Nicaragua and Honduras are four Spanish speaking countries in Central America that possess uniformed military institutions These four countries represent different approaches to reforms of civil military relations and embody varying degrees of success in both institutional democratization and the managing of security forces In this book Orlando J P rez expertly examines the competing theories of civil military relations in Central America to advance our understanding of the origins consequences and persistence of militarism in Latin America Divided into four parts P rez begins by proposing a theoretical framework for analyzing civil military relations including an analysis of how U S foreign and military policy affects the establishment of stable civilian supremacy over the armed forces Part Two examines the institutional and legal structures under which civil military relations are carried out revealing in Part Three the reorientation of the missions and roles performed by the armed forces in each country The concluding part analyzes the role beliefs of members of the military and public opinion about the armed forces in relation to other institutions Combining both qualitative and quantitative data P rez bridges the gap between structural and cultural analyses for a more comprehensive understanding of the links between micro and macro level factors that influence civil military relations and democratic governance

*Chinese Civil-Military Relations* Nan Li, 2010-04-05 This new book addresses three key issues

What has changed in Chinese civil military relations What can account for changes And what are the implications for Chinese security policy and strategic behaviour It tackles these questions by sharply assessing civil military dynamics in elite politics such dynamics in national security and arms control policy relations between commanders and political commissars relations between the PLA and society civil military dynamics regarding defence economics and logistics and such dynamics regarding dual use technologies and defence industry These analyses build into the central theme that the emphasis of Chinese civil military relations is shifting from politics to military tasks This is an extremely important new development by a nation many predict to become a super power in the twenty first century This is therefore essential reading for all students and scholars of strategic and security studies Chinese studies and international relations      *Handbook of the Sociology of the Military*
