Rethinking Modern Judaism Ritual Commandment Community:

Rethinking Modern Judaism Arnold M. Eisen, 1998 Arnold Eisen here calls for a fundamental rethinking of the story of modern Judaism More than simply a study of Jewish thought on customs and rituals Rethinking Modern Judaism explores the central role that practice plays in Judaism s encounter with modernity Fascinating an insightful entrance point to understanding the evolution of the theologies of America s largest Jewish denominations Tikkun I know of no other treatment of these issues that matches Eisen s talents for synthesizing a wide variety of historical philosophical and social scientific sources and bringing them to bear in a balanced and open minded way on the delicate questions of why modern Jews relate as they do to the practices of Judaism Joseph Reimer Boston Book Review At once an incisive survey of modern Jewish thought and an inquiry into how Jews actually live their religious lives Mr Eisen s book is an invaluable addition to the study of American Judaism Elliott Abrams Washington Times

Modern Judaism Nicholas de Lange, Miri Freud-Kandel, 2005-01-21 A comprehensive multi disciplinary multi authored guide to contemporary Jewish life and thought focusing on social cultural and historical aspects of Judaism alongside theological issues This volume includes 38 newly commissioned essays including contributions from leading specialists in their fields This book covers the major areas of thought in contemporary Jewish Studies including considerations of religious differences sociological philosophical and gender issues geographical diversity inter faith relations and the impact of the Shoah the Holocaust and the modern state of Israel *Inventing the Israelite* Maurice Samuels, 2009-12-07 In this book Maurice Samuels brings to light little known works of literature produced from 1830 to 1870 by the first generation of Jews born as French citizens These writers Samuels asserts used fiction as a laboratory to experiment with new forms of Jewish identity relevant to the modern world In their stories and novels they responded to the stereotypical depictions of Jews in French culture while creatively adapting the forms and genres of the French literary tradition They also offered innovative solutions to the central dilemmas of Jewish modernity in the French context including how to reconcile their identities as Jews with the universalizing demands of the French revolutionary tradition While their solutions ranged from complete assimilation to a modern brand of orthodoxy these writers collectively illustrate the creativity of a community in the face of unprecedented upheaval

The Obligated Self Mara H. Benjamin, 2018-05-24 Mara H Benjamin contends that the physical and psychological work of caring for children presents theologically fruitful but largely unexplored terrain for feminists Attending to the constant concrete and urgent needs of children she argues necessitates engaging with profound questions concerning the responsible use of power in unequal relationships the transformative influence of love human fragility and vulnerability and the embeddedness of self in relationships and obligations Viewing child rearing as an embodied practice Benjamin s theological reflection invites a profound reengagement with Jewish sources from the Talmud to modern Jewish philosophy Her contemporary feminist stance forges a convergence between Jewish theological anthropology and the demands of parental caregiving

Post-Judaism Shaul Magid, 2013-04-09 Articulates a new post ethnic American Jewishness The Routledge Handbook of Contemporary Jewish Cultures Nadia Valman, Laurence Roth, 2017-07-14 The Routledge Handbook to Contemporary Jewish Cultures explores the diversity of Jewish cultures and ways of investigating them presenting the different methodologies arguments and challenges within the discipline Divided into themed sections this book considers in turn How the individual terms Jewish and culture are defined looking at perspectives from Anthropology Music Literary Studies Sociology Religious Studies History Art History and Film Television and New Media Studies How Jewish cultures are theorized looking at key themes regarding power textuality religion secularity memory bodies space and place and networks Case studies in contemporary Jewish cultures With essays by leading scholars in Jewish culture this book offers a clear overview of the field and offers exciting new directions for the future American Jewish Year Book 2014 Arnold Dashefsky, Ira Sheskin, 2014-11-19 This book in its 114th year provides insight into major trends in the North American Jewish communities examining the recently completed Pew Report A Portrait of Jewish American gender in American Jewish life national and Jewish communal affairs and the US and world Jewish population It also acts as an important resource with lists of Jewish Institutions Jewish periodicals and academic resources as well as Jewish honorees obituaries and major recent events It should prove useful to social scientists and historians of the American Jewish community Jewish communal workers and the press among others **Jewish Cultural Studies** Simon J. Bronner, 2021-05-04 Defines the distinctive field of Jewish cultural studies and its basis in folkloristic psychological and ethnological approaches Jewish Cultural Studies charts the contours and boundaries of Jewish cultural studies and the issues of Jewish culture that make it so intriguing and necessary not only for Jews but also for students of identity ethnicity and diversity generally In addition to framing the distinguishing features of Jewish culture and the ways it has been studied and often misrepresented and maligned Simon J Bronner presents several case studies using ethnography folkloristic interpretation and rhetorical analysis Bronner building on many years of global cultural exploration locates patterns processes frames and themes of events and actions identified as Jewish to discern what makes them appear Jewish and why Jewish Cultural Studies is divided into three parts Part 1 deals with the conceptualization of how Jews in complex heterogeneous societies identify themselves as a cultural group to non Jews and vice versa such as how the Jewish home is socially and materially constructed Part 2 delves into ritualization as a strategic Jewish practice for perpetuating peoplehood and the values that it suggests for example the rising popularity of naming ceremonies for newborn girls simhat bat or zeved habat in the twenty first century Part 3 explores narration including the global transformation of Jewish joking in online settings and the role of Jews in American political culture Bronner reflects that a reason to separate Jewish cultural studies from the fields of Jewish studies and cultural studies is the distinctiveness of Jewish culture among other ethnic experiences As a diasporic group with religious ties and varying local customs Jews present difficulties of categorization He encourages a multiperspectival approach that considers the Jewish double consciousness as being aware of

both insider and outsider perspectives participation in ancient tradition and recent modernization and the great variety and stigmatization of Jewish experience and cultural expression Students and scholars in Jewish studies cultural studies ethnic religious studies folklore sociology psychology and ethnology are the intended audience for this book *Redemptive Hope* Akiba J. Lerner,2015-09-01 This is a book about the need for redemptive narratives to ward off despair and the dangers these same narratives create by raising expectations that are seldom fulfilled The quasi messianic expectations produced by the election of President Barack Obama in 2008 and their diminution were stark reminders of an ongoing struggle between ideals and political realities Redemptive Hope begins by tracing the tension between theistic thinkers for whom hope is transcendental and intellectuals who have striven to link hopes for redemption to our intersubjective interactions with other human beings Lerner argues that a vibrant democracy must draw on the best of both religious thought and secular liberal political philosophy By bringing Richard Rorty's pragmatism into conversation with early twentieth century Jewish thinkers including Martin Buber and Ernst Bloch Lerner begins the work of building bridges while insisting on holding crucial differences in dialectical tension Only such a dialogue he argues can prepare the foundations for modes of redemptive thought fit for the twenty first century *Celebrating the Jewish Year* Paul Steinberg,Janet Greenstein Potter,2009-01-01 Offers prayers sources rituals and stories to help understand and celebrate the Jewish holidays *Germans, Jews and the Claims of Modernity* Jonathan M. Hess,2002-01-01 In the analysis of the debates in Germany over Jews Judaism and Jewish emancipation in the late 18th and 19th centuries Jonathan M Hess reconstructs a crucial chapter in the history of secular anti-Semitism He examines not only the thinking of German intellectuals of the time but also that of Jewish writers revealing the connections between anti-Semitism and visions of modernity and the Jewish responses to the threat posed by these connections **Spinoza's Modernity** Willi Goetschel,2004-01-15 Spinoza's Modernity is a major original work of intellectual history that reassesses the philosophical project of Baruch Spinoza uncovers his influence on later thinkers and demonstrates how that crucial influence on Moses Mendelssohn G E Lessing and Heinrich Heine shaped the development of modern critical thought Excommunicated by his Jewish community Spinoza was a controversial figure in his lifetime and for centuries afterward Willi Goetschel shows how Spinoza's philosophy was a direct challenge to the theological and metaphysical assumptions of modern European thought He locates the driving force of this challenge in Spinoza's Jewishness which is deeply inscribed in his philosophy and defines the radical nature of his modernity **Do We Still Need Inspiration?** Matthieu Richelle,Camilla Recalcati,Martijn Beukenhorst,2023-11-20 The concept of inspiration is part and parcel of the theological tradition in several religious confessions but it has largely receded to the background if not vanished altogether in the discussions of biblical scholars The question Do we still need inspiration might well reflect the perplexity of many exegetes today Systematic theologians for their part often further their own reflections on the subject independently of developments in the field of exegesis with the risk of remaining purely theoretical Biblical research in the last decades has

been marked by new insights about the nature of the biblical texts stemming from the study of their inner plurality insofar as they combine and sometimes intertwine conflicting theologies of their textual fluidity and of their reception. Can these new insights be integrated into a theological reflection on the notion of inspiration? These questions are often explicitly raised about the Jewish and Christian Scriptures but they also prove increasingly relevant for Qur'anic studies. This volume addresses them through contributions from exegetes of the Bible and of the Qur'an and systematic theologians. Religious Identity and the Problem of Historical Foundation Judith Frishman, Willemien Otten, Gerard Rouwhorst, 2004-02-01. The essays collected in this book deal with the question how throughout the history of Christianity Christian communities have tried to construct their identity by anchoring their views in authoritative and normative sources. The main focus is upon the problem of historical foundation through textual traditions but other authoritative sources: role of religious leaders, ritual traditions are taken into consideration as well. The book takes as its point of departure the fact that with the rise of modernity the former dependence of western church and society on authoritative sources was called into question. Ever since appeal to such sources is no longer self-evident at times it is even regarded as problematic. Based on this radical change brought about by modernity the book is divided in two main parts. The first part deals with the question how Christian churches and confessions Roman Catholic and Protestant confronted modernity and which role was played by authoritative sources in the tradition to the modern era. Special attention will be paid to the way in which Judaism reacted to many of the same impulses both societal and religious ones. The second part deals with the premodern period from early Christianity to the post-Reformation era and focuses on the role authoritative traditions textual or otherwise have played in providing various Christian communities with a relative stable identity. The aim of the book is to elucidate processes resulting in the formation of authoritative traditions as well as the effects of these traditions on the identity of Christian and Jewish communities. In addition the book attempts to clarify the various ways in which Christian and Jewish communities have reacted to the growing suspicion authoritative traditions aroused in the western world since the rise of modernity. *Networking Across Borders and Frontiers* Jürgen Barkhoff, Helmut Eberhart, 2009. This volume presents the proceedings of a Coimbra Group conference on networking across borders and frontiers in European culture and society that took place at the University of Graz in September 2007. Organised by the Task Force on Culture Arts and Humanities it brought together researches from ten different European countries and an array of disciplines across the Humanities and Social Sciences spectrum from Cultural Anthropology European Ethnology History Literary Studies and Fine Arts to Peace Studies Sociology and Political Sciences. It explores the capacity of the frontier network binary for describing and analysing historical cultural and political processes in the formation of European cultures and societies past and present and across national and disciplinary boundaries. **Alternative Schooling and School Choice** Allan G. Osborne, Jr., Gerald M. Cattaro, Charles J. Russo, 2012-09-06. Written and signed by experts in the field this volume in the point-counterpoint Debating Issues in

American Education reference series tackles the topic of alternative schooling and school choice offering an illustrated overview of the topic as well as providing resources for further study Jewish Scholarship and Culture in Nineteenth-Century Germany Nils Roemer,2005-10-01 German Jews were fully assimilated and secularized in the nineteenth century or so it is commonly assumed In Jewish Scholarship and Culture in the Nineteenth Century Nils Roemer challenges this assumption finding that religious sentiments concepts and rhetoric found expression through a newly emerging theological historicism at the center of modern German Jewish culture Modern German Jewish identity developed during the struggle for emancipation debates about religious and cultural renewal and battles against anti-Semitism A key component of this identity was historical memory which Jewish scholars had begun to infuse with theological perspectives beginning in the 1850s After German reunification in the early 1870s Jewish intellectuals reevaluated their enthusiastic embrace of liberalism and secularism Without abandoning the ideal of tolerance they asserted a right to cultural religious difference for themselves an ideal they held to even more tightly in the face of growing anti-Semitism This newly re-theologized Jewish history Roemer argues helped German Jews fend off anti-Semitic attacks by strengthening their own sense of their culture and tradition
