**Rethinking the Life Cycle** Alan Bryman,Bill Bytheway,Patricia Allatt,Teresa Keil,1987-11-13      **Youth**

**Unemployment and the Family** Patricia Allatt,Susan Yeandle,2025-06-30 First published in 1992 Youth Unemployment and the Family examines an area of social life which has not been investigated widely the relationship between parents and young adults living in the parental home Tracing the effects of a poor labour market on 40 families in the North East the book reveals how change in the public domain of the economy penetrates the routines and intimacies of family life The text gives voice to those affected particularly to parents who are seldom heard revealing the continuing importance of the family in times of stress and its role in the mediation of social change As well as social change the theme of social order runs through the book the pursuit of order and predictability through which people try to make sense of their lives the resources out of which such order is constructed and the essential fragility of the order created The book is essential reading for anyone interested in the price paid for the economic restructuring of Britain that has been underway since the 1970s and challenges the notion that unemployment is more easily borne by those living in regions where it has been endemic The book will be of interest to researchers of sociology social anthropology political economy social policy and to anyone interested in working class family and working class culture      Rethinking Social Inequality David Robbins,Lesley Caldwell,Graham Day,Karen

Jones,Hilary Rose,2018-05-11 Originally published in 1982 Rethinking Social Inequality is a collection of essays looking at the breadth of contemporary work in social inequality The book focuses on inequality as a central project of sociological enquiry and is unified by the overarching rejection of a distributional notion of inequality in the place of a relational one The object of the study is not the deprived social group but the unequal social relations which is manifested in a variety of forms The themes addressed in this collection indicate a shift in the areas of study concerned with social inequality rejecting class based inequality in with that of race gender and age      *Sociology in Action* Malcolm Cross,Geoff Payne,1993-10-22 In the

last decade of this century sociology has grown into a major contributor to public debate and social policy After a period of introspection and uncertainty sociologists are becoming more self confident about their subject s potential to influence events in the world at large Here a collection of well known sociologists debate what this means for the way sociology is professionally practised in areas as diverse as regulating medicine combating racism managing manufacturing evaluating wealth and poverty and structuring education The issues and opportunities they identify will interest both sociologists and other social scientists concerned with moving ideas into a framework for social action      Fordism and Flexibility Roger

Burrows,Nigel Gilbert,Anna Pollert,1992-06-12 During the 1980s there were profound changes in the labour process towards the flexible worker and in the labour market towards a flexible workforce Three approaches to explain these changes provide the focus for this book Marxist regulation theory the notion of flexible specialisation associated with the new institutional economics and the model of the flexible firm derived from managerialist literature In the book the claims made by these

approaches are investigated and their implications are examined in relation to emerging patterns of work in advanced societies

Jones, 2016-01-28 This collection of essays represents some of the most important recent research into changing patterns of family household and community life It brings together some of the leading sociologists in the field to explore how these informal social relationships change over time and the life course It will be essential reading on courses concerned with the family and youth sociology

Methodological Imaginations Joan Busfield, E. Stina Lyon, 1996-04-01 This book brings together a collection of essays which look creatively and imaginatively at issues of research methods and methodology in sociology Some papers critically revisit and redefine techniques such as the classic community study the use of diaries photography and art others examine the need for reflexivity in the research process and the epistemological issues arising from being a researcher in administrative and political contexts The diversity of research approaches discussed in this reader should make it an important contribution to research methods teaching for undergraduate and graduate students of sociology

control over girls and women in their daily lives in the home at school at work and in the courts Women are seen to resent and challenge male power but the institutionalisation of male power is shown to mitigate against women taking control over their own lives      *Political Action and Social Identity* Gareth Rees,1985-05-16      *Global Futures* A. Brah,M. Hickman,M. Mac an Ghaill,1999-04-30 Providing critical assessment of the globalization thesis through sustained analysis of the nexus of processes underlying social and cultural relations this book examines explores and teases out the many contradictions embedded within different discourses of globalization Together the various chapters in the collection offer a wide ranging critique of those accounts which represent globalization primarily if not exclusively as the classic story of European modernity with its attendant narratives of ostensibly unfettered movement of people unmitigated economic growth and social progress      *Exploring the Body* S. Cunningham-Burley,K. Backett-Milburn,2001-09-24 This volume explores diverse ways of researching and theorizing the body It draws together a range of empirical work on different themes each taking the body and its study as its central problematic It creatively combines contributions on disability illness scars sleep complementary medicine running as well as the lifecourse themes of childhood youth and death The different approaches to researching the body examined through these contributions include autobiography case studies interviews and participant observation
