A Malleable Map Kären Wigen,2010-05-27 Kären Wigen probes regional cartography choreography and statecraft to redefine restoration in modern Japanese history As developed here that term designates not the quick coup d'état of 1868 but a three centuries long project of rehabilitating an ancient map for modern purposes Drawing on a wide range of geographical documents from Shinano present day Nagano Prefecture Wigen argues that both the founder of the Tokugawa Shogunate 1600 1868 and the reformers of the Meiji era 1868 1912 recruited the classical map to serve the cause of administrative reform Nor were they alone provincial men of letters played an equally critical role in bringing imperial geography back to life in the countryside To substantiate these claims Wigen traces the continuing career of the classical court's most important unit of governance the province in central Honshu

Global Heartland Peter Simons,2025-03-25 Highlighting the critical role of midwestern farmers in the creation of the American Century Though often left out of the story of the making of the American Century the farmers of the Midwest were at its center fueling the nation's growing power in the midtwentieth century In Global Heartland Peter Simons explores how after decades of slipping to the margins of an urbanizing economy these farmers assumed renewed strategic and cultural importance as they produced essential sustenance for overseas troops and food rations for a domestic population During the mid 1900s once isolationist midwestern farmers came to see the

continental interior not as an insulated space but as an environmentally rich landscape that mandated them to accept a larger stake in global affairs Simons traces this transformation from an older agrarian internationalism rooted in religion and ties to family abroad to illuminate the increasing influence of the U S agricultural community during the Cold War Examining regional political parties Lend Lease programs wartime mass media and farmer led relief programs and interspersing this history with vignettes revisiting the Mercy Wheat campaign of 1947 the postwar International Farm Youth Exchange and the Flying Farmers organization Simons offers an enlightening consideration of midwestern farmers involvement in America s international ascent Unique in its focus on farmers and their work rather than the more common attention to food or agricultural commodities Global Heartland complicates and expands ideas of the farm industry s role in American history
