**Modernisation in Russia since 1900** Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

**Performing Political Opposition in Russia** Laura Lyytikäinen, 2016-10-04 Drawing on fieldwork conducted in Moscow and St Petersburg among the political opposition's youth group Oborona Defence this ground breaking work brings forward a multifaceted and colourful image of the life of political opposition activists in a restricted political environment Existing studies on youth political activism in Russia have mainly dealt with the pro Kremlin youth movements such as Nashi while youth opposition activism has been studied very little Lyytikäinen contributes to this gap by showing how youth are also actively organizing against the current government and how Russian oppositional youth activist practices are diverse and constantly evolving Theoretically this book contributes to discussions on activist identities as well as to an understanding of social movements and protest by analysing political protests as social performances The research illustrates how Soviet continuities and liberal ideas are entangled in Russian political activism to create new post socialist political identities and practices It also questions the idea of Russian democratization being tied to its totalitarian past and that of western type liberal democracy being the goal of this process Instead the book proposes that Russian political culture should be analysed on its own and as an entanglement of various interacting systems of thought

*Post-Soviet Civil Society* Anders Uhlin, 2006-03-20 The development of civil society has varied greatly across the former Soviet Union The Baltic states have achieved a high level of integration with the West and European Union membership while some regions in Russia lag far behind Now for the first time there is a comparative study of civil society and democratization across post Soviet national

borders Acknowledging the enormous variation throughout the region the book offers unique data on developments in Russia Estonia Latvia and Lithuania Applying an innovative analytical framework derived from theories of democratization civil society social movements and transnational relations the researchers have formulated broader comparisons and generalisations without neglecting the specific post Soviet context The book provides a systematic comparison across sectors as well as nations and includes chapters on NGOs the state and conflict and transnationalisation Quantitative survey data is combined with qualitative interviews and case study research to both confirm previous findings about the weakness of post communist civil society and to qualify previous research

*Politics and Society in Provincial Russia* Rex A. Wade, Scott Joseph Seregny, 1989 *Politics and society in provincial Russia* is an attempt by a group of western and Soviet historians to examine the major issues in late Imperial Russian history and the revolution from the vantage point of a single province The contributors aim to provide a description and an analysis of the major social and political developments of the era from the Great Reforms through 1917 as they were played out in this Volga river province located about 600 miles southeast of Moscow while giving a sense of how provincial Russians responded to and helped shape the dramatic events of the period

**A Course in Russian History: The Time of Catherine the Great** Vasili O. Kliuchevsky, Marshall S. Shatz, 2015-05-20 In this newly translated excerpt from his five volume *Course* Kliuchevsky 1841-1911 provides a colourful description of Russian court life in the 18th century a dramatic narrative of the coup d'etat that brought Catherine II to power a portrait of the empress herself and an analysis of her foreign conquests and her major internal initiatives While Kliuchevsky is critical of Catherine he draws upon her memoirs and other writings and the accounts of her contemporaries to achieve a well rounded and deeply human analysis of her character and personality It is an extraordinary act of historical re-creation of the sort that brought Kliuchevsky such renown in his own time and it remains so lifelike that it fairly leaps off the page Kliuchevsky's examination of Western influence in Catherine's reign leads him to questions that were of urgent significance for Russia's development in his own day and have remained so ever since how to use Western ideas and practices to improve and enrich Russian life without turning them into idle fashions or political bludgeons and where to find the social leadership capable of performing such a delicate task
