Svedin,Britt Hägerhäll Aniansson,2011-06-27 This book deals with the challenges posed by the transformation of society towards much needed sustainability Especially it deals with the local features of this change but seen in a global context The two cases

examined the municipalities of Linköping and Västberg are Swedish but the problems of how to relate locally to a globalized world are common today. The cases have been deliberately chosen to expose alternative types of choices for the local communities involved. Large Linköping is historically a nodal city of importance in the national grid of regional centres one that relates to the nation state and represents officialdom. Small Västberg developed in the context of its forest region setting and metallurgy and today operates directly to wider markets while still emphasising its very local identity. The fact that these municipalities border each other provides a similar regional context and differences between them may then not be entirely confused by a debate on drastically different geographical settings.

Swedish Design Lasse Brunnström, 2018-10-18 Swedish Design A History provides a fascinating and comprehensive introduction to the development of design in Sweden from the mid nineteenth century to the early twenty first. Leading design historian Lasse Brunnström traces the move from artisanal crafts production to the mass production and consumption of designed objects a process by which the role and profile of the designer became increasingly important. His survey richly illustrated with images of the designed objects discussed takes in forms of design traditionally associated with Sweden such as household objects and textiles while also considering some less written about genres such as industrial and graphic design. Brunnström questions many established ideas about design in Sweden notably its aesthetics and its relationship to Sweden's national and political culture. He argues that the history of design in Sweden has been far more complex and less straightforwardly blond than hitherto understood.
