Selected Myths:

Selected Myths Plato, 2004-11-11 This volume brings together ten of the most celebrated Platonic myths from eight of Plato's dialogues ranging from the early Protagoras and Gorgias to the late Timaeus and Critias. They include the famous myth of the cave from Republic as well as The Judgement of Souls and The Birth of Love. Each myth is a self-contained story prefaced by a short explanatory note while the introduction considers Plato's use of myth and imagery. Once upon a time there were just the gods; mortal beings did not yet exist. We are used to thinking of myths as stories and modern myths as made up and fictitious. For the ancient Greeks however a myth was a story that unveiled reality and for Plato myth maker as well as myth teller a myth could tell us something important about ourselves and our world. The ultimate purpose of Plato's myths is to help us live a better life and to teach philosophical truths in a form we can most easily understand.
