**A.C. Swinburne and the Singing Word** Yisrael Levin, 2016-03-16 Focusing on Algernon Charles Swinburne's later writings this collection makes a case for the seriousness and significance of the writer's mature work While Swinburne's scandalous early poetry has received considerable critical attention the thoughtful rich spiritually and politically informed poetry that began to emerge in his thirties has been generally neglected This volume addresses the need for a fuller understanding of Swinburne's career that includes his fiction aesthetic ideology and analyses of Shakespeare and the great French writers Among the key features of the collection is the contextualizing of Swinburne's work in new contexts such as Victorian mythography continental aestheticism positivism and empiricism Individual essays examine among other topics the dialect poems and Swinburne's position as a regional poet Swinburne as a transition figure from nineteenth century aesthetic writing to the professionalized criticism that dominates the twentieth century Swinburne's participation in the French literary scene Swinburne's friendships with women writers and the selections made for anthologies from the nineteenth century to the present Taken together the essays offer scholars a richer portrait of Swinburne's importance as a poet critic and fiction writer

**Algebraic Art** Andrea K. Henderson, 2018-04-05 Algebraic Art explores the invention of a peculiarly Victorian account of the nature and value of aesthetic form and it traces that account to a surprising source mathematics The nineteenth century was a moment of extraordinary mathematical innovation witnessing the development of non Euclidean geometry the revaluation of symbolic algebra and the importation of mathematical language into philosophy All these innovations sprang from a reconception of mathematics as a formal rather than a referential practice as a means for describing relationships rather than quantities For Victorian mathematicians the value of a claim lay not in its capacity to describe the world but its internal coherence This concern with formal structure produced a striking convergence between mathematics and aesthetics geometers wrote fables logicians reconceived symbolism and physicists described reality as consisting of beautiful patterns Artists meanwhile drawing upon the cultural prestige of mathematics conceived their work as a science of form whether as lines in a painting twinned characters in a novel or wavelike stress patterns in a poem Avant garde photographs and paintings fantastical novels like Flatland and Lewis Carroll's children's books and experimental poetry by Swinburne Rossetti and Patmore created worlds governed by a rigorous internal logic even as they were pointedly unconcerned with reference

or realist protocols Algebraic Art shows that works we tend to regard as outliers to mainstream Victorian culture were expressions of a mathematical formalism that was central to Victorian knowledge production and that continues to shape our understanding of the significance of form      Borges, Desire, and Sex Ariel de la Fuente, 2018-11-21 Until now Jorge Luis Borges has been considered an asexual author who could not read or write about sex but in this study historian Ariel de la Fuente reveals for the first time the relationship between Borges's sexual biography his erotic readings and the expression of desire and sex in his literature      **Journey from Winter** Valentine Ackland, 2008 Readers of gender studies and gay lesbian literature will be delighted by these collected works of a dynamic poet whose popularity in the 1930s suffered due to her communist affiliations and notoriety as a lesbian Complete with an invaluable introduction that provides context into her work this collection offers sensitive accounts of lesbian love the evils of war the socialist struggle the destruction of the natural world and the beauty of the Dorset landscape Spanning almost 50 years these poems reflect the life experiences of a strong yet complicated woman in the mid 20th century with a voice that is powerfully felt and elegantly controlled
