Zech, 2013-11-11. *Astronomy and Astrophysics Abstracts* aims to present a comprehensive documentation of the literature concerning all aspects of astronomy, astrophysics and their border fields. It is devoted to the recording, summarizing and indexing of the relevant publications throughout the world. *Astronomy and Astrophysics Abstracts* is prepared by a special department of the Astronomisches Rechen Institut under the auspices of the International Astronomical Union. Volume 44 records literature published in 1987 and received before February 15, 1988. Some older documents which we received late and which are not surveyed in earlier volumes are included too. We acknowledge with thanks contributions of our colleagues all over the world. We also express our gratitude to all organizations, observatories and publishers which provide us with complimentary copies of their publications. Dr Siegfried Böhme retired from his duties as co editor of *Astronomy and Astrophysics Abstracts* on December 31, 1987. Since 1950 he participated in the bibliographic work of the institute. He served as a reviewer for the *Astronomischer Jahresbericht* and became one of the editors of *Astronomy and Astrophysics Abstracts* in 1969. After his retirement in 1975 he took care of particularly the Russian literature on a voluntary basis for 12 years. It is a pleasure to thank Siegfried Böhme for his valuable contributions. Starting with Volume 33 all the recording, correction and data processing work was done by means of computers. The recording was done by our technical staff members Ms Helga Ballmann, Ms Christiane Jahn, Ms Monika Kohl, Ms
