Selected Works By 20th Century Rubian Composers:

The Selected Works of Edward Said, 1966 - 2006 Edward W. Said, 2007-12-18 The renowned literary and cultural critic Edward Said was one of our era's most provocative and important thinkers. This comprehensive collection of his work draws from across his entire four-decade career, including his posthumously published books, making it a definitive one-volume source. Said is a brilliant and unique amalgam of scholar, aesthete, and political activist. He challenges and stimulates our thinking in every area. *Washington Post Book World*. The *Selected Works* includes key sections from all of Said's books, including his groundbreaking *Orientalism*, his memoir *Out of Place*, and his last book *On Late Style*. Whether writing of Zionism or Palestinian self-determination, Jane Austen or Yeats, or of music or the media, Said's uncompromising intelligence casts urgent light on every subject he undertakes. The *Selected Works* is a joy for the general reader and an indispensable resource for scholars in the many fields that his work has influenced and transformed.

The Legacy of Cornelius Cardew Tony Harris, 2016-03-03 Cornelius Cardew is an enigma. Depending on which sources one consults, he is either an influential and iconic figure of British musical culture or a marginal curiosity, a footnote to a misguided musical phenomenon. He is both praised for his uncompromising commitment to world-changing politics and mocked for being blindly caught up in a maelstrom of naive political folly. His works are both widely lauded as landmark achievements of the British avant-garde and ridiculed as an archaic and irrelevant footnote to the established musical culture. Even the events of his death are shrouded in mystery and lack a sense of closure. As long ago as 1967, Morton Feldman cited Cardew as an influential figure central to the future of modern music-making. The extent to which Cardew has been a central figure and a force for new ideas in music forms the backbone to this book. Harris demonstrates that Cardew was an original thinker, a charismatic leader, an able facilitator, and a committed activist. He argues that Cardew exerted considerable influence on numerous individuals and groups but also demonstrates how the composer's significance has been variously underestimated, undermined, and misrepresented. Cardew's diverse body of work and activity is here given coherence by its sharing in the values and principles that underpinned the composer's world view. The apparently disparate and contradictory episodes of Cardew's career are shown to be fused by a cohesive Cardew aesthetic that permeates the man, his politics, and his music.
